ANOTHER RULING

DECISIONS OF COURTS

Injunction Against Northern Pacific Dissolved By Higher Court.

JUDGE NOT SUSTAINED

The United States Circuit Court Does Not Agree With District Court In the Matter.

Governors of the Northwestern States Declare Themselves Against Proposed Merger.

Minneapolis, Jan. 1.—Judge Wm. Lochren of the United States circuit court yesterday dissolved the temporary injunction issued in the case of Peter Power against the Northern Pacific railway company by Judge Elliott of the district court of Hennepin county, Monday.

The injunction which was dissolved by the order of Judge Lochren restrained the Northern Pacific from issuing any evidences of indebtedness to retire the preferred stock of the company or to retire the preferred stock in any other manner than by the use of the surplus net earnings of the road. It also restrained the Northern Pacific and its officers from entering into any agreement or doing any act by which the road would be consolidated or merged through the medium of the Northern Securities company, with the Great Northern or the Burlington or either of them. After the decision was made orally by Judge Lochren at the close of a day's argument by the attorneys for both sides, an effort was made by the plaintiff's attorneys to have the court fix the amount of bond which would be required in order to appeal from the decision and to stay all further proceedings in the lower court pending the appeal. Judge Lochren refused to allow a supersedeas bond in any amount to be given. Judge W. A. Lancaster, representing Mr. Power, the plaintiff, asked the court: "Does your honor mean to say that the damage which would result to the Northern Pacific Railway company if an appeal from your order dissolving the temporary injunction were taken and a supersedeas bond staying proceedings were filed, would be so great that bond could not be given large enough to reimburse the defendant?"

"As the question of granting a supersedeas," the judge replied, "is discretionary with the court, I decline to permit the staying of the proceedings or the force of the order by a supersedeas bond on appeal." Judge Lochren held that the Northern Pacific was acting within the authority of its charter of the contract entered into between it and its stockholders as incorporated in the certificates of preferred stock and of the agreement entered into Nov. 13 in attempting to retire the \$75,000,000 of preferred stock in the manner alleged by Mr. Power.

He also held that railroad corporations could not do indirectly what the law prevented them from doing directly and that any method by which consolidation of two or more competing and parallel lines would be brought about would be illegal and a writ of injunction would properly restrain the consummation of the plan. But there was nothing in the case as now presented to him that would indicate the stockholders of the Northern Pacific Railway company were attempting such a consolidation or merger.

The case was transferred late Monday night by the Northern Pacific Railway company from the state to the federal court and an order to show cause, returnable yesterday morning, why the temporary injunction granted by Judge Elliott should not be dissolved, was secured from Judge Lochren and served upon Mr. Power's attorneys. The answer of the defendant was filed in the district court and an order removing the case to the federal court was secured from Judge Brooks of the Hennepin district court. The Northern Pacific's answer was a lengthy document of 32 typewritten pages and ostensibly was prepared on a few hours' notice.

WILL NOT STAND IT

Governor's of Northwestern States Propose to Fight.

Helena, Mont., Jan. 1.—A definite plan of action to defeat the proposed consolidation of the Northern Pacific, Great Northern and Burlington railway systems was yesterday unanimously agreed upon by the governors and attorneys-general of seven Northwestern states, in which those roads have mileage. Legal action will be instituted immediately in Minnesota courts with this object in view and to quote Attorney General Douglas of Minnesota, "The thing will be fought to a finish." Just how, when or where these suits will be brought, neither Governor Van Sant of Minnesota or Attorney General Douglas will state. The conference adjourned late in the afternoon after adopting resolutions condemning the proposed merger as contrary to sound public policy and pledging support to any proper legal action which may be brought to test its validity. Other resolutions adopted call on congress to investigate the subject and favor the granting of power to the interstate commerce commission to fix maximum rates upon interstate business.

SUSPECT FOUL PLAY

Young Student's Strange Absence Creases Alarm.

Paoli, Ind., Jan. 1.—James Bowles, son of Dr. L. S. Bowles of this place, is missing, and the family is making every effort to locate him. He was attending Purdue university, and just before his Christmas vacation he wrote to his brother, a druggist in Bloomington, that he would arrive there on a certain train and be ready to assist him. The train did not bring him and after some delay the brother went to Lafayette, but no one there seemed to know much about him. The house where he had roomed was found unlocked and his best clothing was there. Mr. Bowles wore a cluster of diamonds on his finger and one on his bosom, valued at probably \$700 or \$800. His friends are alarmed for fear he is a victim of foul play.

Treacherous Ice.

Milan, Ind., Jan. 1.—While skaters were enjoying themselves on the icy surface of the Milan pond John Dever and Mrs. Grace Fallis, prominent young people, struck a thin sheet from which the ice had once been cut and sank in 20 feet of water, both being drowned. Their bodies were recovered after much difficulty.

Hunter Mangled.

Nashville, Ind., Jan. 1.—George Pitzer, while hunting, dropped his gun and it was discharged, tearing away part of his heel. Amputation of the foot followed.

A Massachusetts Tragedy.

Turners Falls, Mass., Jan. 1.—Louis Bitzer, who shot and killed his clerk Miss I. Columbe, and his five-year-old son, and attempted to take the lives of his wife and two other children yesterday, was taken to the Franklin county jail in Greenfield late in the day. He is being given a hearing in the district court today. He is charged with murder and it is likely he will be held for the grand jury which will convene in March. Friends of Bitzer aver that he was insane when he committed the murders, but the officers after a careful investigation say that they have secured evidence to bear out that claim.

Grant an Increase.

St. Paul, Jan. 1.—Late yesterday afternoon General Superintendent F. E. Ward of the Great Northern, P. M. Arthur, grand chief of the Brotherhood of Engineers, and J. J. Hanrahan, first vice grandmaster of the Firemen, met at the Great Northern building to sign an agreement between the company and the engineers and firemen, which was practically completed in the morning. The new agreement grants an increase of wages to both engineers and firemen, recognizing the contention of the men work on the new and larger engines is worth more than the old scales.

New Theory of Life.

Chicago, Jan. 1.—Professor Jacques Loeb of the University of Chicago, in a paper read before a section of the American Society of Naturalists' convention, made the announcement that he had discovered the physical processes that accompany life, that electricity and not heat energy is the basis of life. He does not claim to have solved the problem of "What is life?" but to have proved a theory which overthrows fundamental portion of the teachings of text books on physiology.

North Atlantic Squadron.

San Juan, P. R., Jan. 1.—The United States north Atlantic squadron arrived off this port yesterday. Rear Admiral Francis F. Higginson came ashore and transferred his flag to the United States gunboat Marlett. The latter had been awaiting the squadron here for several weeks. Admiral Higginson visited Governor Hunt and secured the squadron's mail. He proceeded to Gulebra Island last evening. The itinerary of the squadron is unchanged.

Troublesome Lobsters.

St. Johns, N. F., Jan. 1.—The Anglo-French modus vivendi covering the lobster question on the French shore of Newfoundland expired yesterday. It is not known what course will be adopted with regard to the future of this question. Newfoundland is not desirous of renewing the measure until it shall be required by imperial exigencies. The condition of affairs in South Africa weighs largely with the colonial government in deciding what action shall be taken in this matter.

Relics of Nero's Reign.

Louisville, Ky., Jan. 1.—A package containing bones and dried blood of St. Magnus, a Roman centurion, and St. Bonissa, a Roman virgin, who were martyred in the time of Nero, arrived from Rome at the office of the surveyor of the port in Louisville yesterday. The relics will be placed under the altar of St. Martin's Catholic church in this city. They were taken from the catacomb over 200 years ago and have since rested in the church of the convent of Agnai near Rome.

The Boiler Let Go.

Prescott, Ark., Jan. 1.—From some unknown cause a boiler exploded yesterday at Britt's Switch, nine miles from here, killing instantly Tim Moore, James Hogue and A. T. Calhoun.

Maso's Men Held Back.

Havana, Jan. 1.—Full election returns have not yet been received here. The indications promise a light vote. The partisans of General Bartholomew Maso in Havana did not vote.
