

# THE GREAT SOUTH AMERICAN NERVE TONIC

## AND Stomach and Liver Cure

The Most Astonishing Medical Discovery of the Last One Hundred Years.

It is Pleasant to the Taste as the Sweetest Nectar. It is Safe and Harmless as the Purest Milk.

This wonderful Nerve Tonic has only recently been introduced into this country by the proprietors and manufacturers of the Great South American Nerve Tonic, and yet its great value as a curative agent has long been known by a few of the most learned physicians, who have not brought its merits and value to the knowledge of the general public.

This medicine has completely solved the problem of the cure of indigestion, dyspepsia, and diseases of the general nervous system. It is also of the greatest value in the cure of all forms of failing health from whatever cause. It performs this by the great nerve tonic qualities which it possesses, and by its great curative powers upon the digestive organs, the stomach, the liver and the bowels. No remedy compares with this wonderfully valuable Nerve Tonic as a builder and strengthener of the life forces of the human body, and as a great renewer of a broken-down constitution. It is also of more real permanent value in the treatment and cure of diseases of the lungs than any consumption remedy ever used on this continent. It is a marvelous cure for nervousness of females of all ages. Ladies who are approaching the critical period known as change in life, should not fail to use this great Nerve Tonic, almost constantly, for the space of two or three years. It will carry them safely over the danger. This great strengthener and curative is of inestimable value to the aged and infirm, because its great energizing properties will give them a new hold on life. It will add ten or fifteen years to the lives of many of those who will use a half dozen bottles of the remedy each year.

### NERVOUS DISEASES.

As a cure for every class of Nervous Diseases, no remedy has been able to compare with the Nerve Tonic, which is very pleasant and harmless in all its effects upon the youngest child or the oldest and most delicate individual. Nine-tenths of all the ailments to which the human family is heir are dependent on nervous exhaustion and impaired digestion. When there is an insufficient supply of nerve food in the blood, a general state of debility of the brain, spinal marrow, and nerves is the result. Starved nerves, like starved muscles, become strong when the right kind of food is supplied; and a thousand weaknesses and ailments disappear as the nerves recover. As the nervous system must supply all the power by which the vital forces of the body are carried on, it is the first to suffer for want of perfect nutrition. Ordinary food does not contain a sufficient quantity of the kind of nutriment necessary to repair the wear our present mode of living and labor imposes upon the nerves. For this reason it becomes necessary that a nerve food be supplied. This South American Nerve Tonic has been found by analysis to contain the essential elements out of which nerve tissue is formed. This accounts for its universal adaptability to the cure of all forms of nervous derangement.

CRAWFORDVILLE, IND., Aug. 20, '96.  
To the Great South American Nerve Tonic Co.,  
DEAR GENTS:—I desire to say to you that I have suffered for many years with a very serious disease of the stomach and nerves. I tried every medicine I could hear of, but nothing doing me any appreciable good until I was advised to try your Great South American Nerve Tonic and Stomach and Liver Cure, and since using several bottles of it I must say that I am surprised at the wonderful power to cure the stomach and general nervous system. If everyone knew the value of this remedy as I do you would not be able to supply the demand.

### A SWORN CURE FOR ST. VITUS' DANCE OR CHOREA.

My daughter, eleven years old, was severely afflicted with St. Vitus' Dance or Chorea. We gave her three and one-half bottles of South American Nerve Tonic and she is completely restored. I believe it will cure every case of St. Vitus' Dance. I have kept it in my family for two years, and am sure it is the greatest remedy in the world for Indigestion and Dyspepsia, and for all forms of Nervous Disorders and Failing Health, from whatever cause.

### INDIGESTION AND DYSPEPSIA.

#### The Great South American Nerve Tonic

Which we now offer you, is the only absolutely unfailing remedy ever discovered for the cure of Indigestion, Dyspepsia, and the vast train of symptoms and horrors which are the result of disease and debility of the human stomach. No person can afford to pass by this jewel of incalculable value who is affected by disease of the stomach, because the experience and testimony of many go to prove that this is the one and only one great cure in the world for this universal destroyer. There is no case of unalloyed disease of the stomach which can resist the wonderful curative powers of the South American Nerve Tonic.

HARSHET E. HALL, of Waynesboro, Ind., says:—  
"I owe my life to the Great South American Nerve Tonic. I had been in bed for five months from the effects of an exhausted stomach, Indigestion, Nervous Prostration, and a general shattered condition of my whole system. Had given up all hope of getting well. Had tried three doctors, with no relief. The first bottle of the Nerve Tonic improved me so much that I was able to walk about, and a few bottles cured me entirely. I believe it is the best medicine in the world. I can not recommend it too highly."

No remedy compares with South American Nerve Tonic as a cure for the Nerve. No remedy compares with South American Nerve Tonic as a cure for all forms of failing health. It never fails to cure Indigestion and Dyspepsia. It never fails to cure Chorea or St. Vitus' Dance. Its power to build up the whole system are wonderful in the extreme. It cures the old, the young, and the middle aged. It is a great friend to the aged and infirm. Do not neglect to use this precious boon; if you do, you may neglect the only remedy which will restore you to health. South American Nerve Tonic is perfectly safe, and very pleasant to the taste. Delicate ladies, do not fail to use this great cure, because it will put the bloom of freshness and beauty upon your lips and in your cheeks, and quickly drive away your disabilities and weaknesses.

### TAME FISH IN A RIVER.

A Traveler's Story of What He Saw in Upper Burma.

When in camp the other day, I was riding through a village when the village headman asked me if I would like to see "the fish." I, not knowing what the headman meant, at once went with him down to the banks of the stream, followed by several villagers with baskets of sassafras and paddly mixed together. Then the thought came, "Lay, lay, lay, lay," for a few moments, when, lo and behold! a large herd of native, or big, short, fat fish, came up just under our feet and were promptly fed by the Burmese.

The fish were amazingly tame and tolerated being stroked and petted even by me. There were in all about thirty-three of them, varying in size from eighteen inches to three and a half feet long, the larger ones having a girth at the gills of about thirty inches. They would go away and come back whenever they were called.

The villagers told me—and I see no reason to doubt what they say—that these same fish come up against the monsoon flood at the end of June and go away about October every year. They can recognize individual fish by marks, scars, etc., which they pointed out to me.

The Mon is nearly dry in the cold and end of the hot weather, and the fact that these fish return to this one village landing stage every year regularly and never go to any other is quite worthy of remark. A villager who kills any of them has to undergo a penalty of 10 shillings by common consent, and great care is in consequence taken of them.

The negative of upper Burma is a very short, thick fish, tapering rapidly from behind the gills to the tail, has long feelers on both upper and lower lip and has no noticeable teeth. He makes very good eating and has but few bones. I have often heard of tame fish in tanks, but a herd of tame fish in a monsoon river connected with the great Irrawadi is a very bizarre phenomenon.—Burma Cmp. London Field.

### ATTACKED BY A HERON.

Boy Tries to Capture the Bird and Nearly Loses His Life.

"I've hunted everything from gray squirrels to grizzlies," said a veteran Philadelphia sportsman to a writer in the New York Times, "and the nearest I ever came to being seriously injured by any sort of game was one time when a wounded bird attacked and tried to kill me."

"I was a boy then and went down to a creek that flowed through my father's farm to watch for a mink. It was early in the evening and a blue heron came and sat within tempting gunshot. I knew it would spoil my chances at mink to shoot the bird, and I didn't intend to do it, but, kidlike, I raised the gun and took aim just to see how I could kill it if I would. I lowered the gun and then raised it again. Every time I raised it I would touch the trigger gently. After awhile I touched it too hard, the gun went off and I started toward the heron, which was wounded."

"I thought it would be a good scheme to catch the bird and started to do so when its bill shot out like a sledge hammer and struck me between the eyes. When I came to my senses, it was dark, and it was several minutes longer before I could remember where I was or what had happened. A little harder and the bird would have killed me. I shudder even yet when I think what would have been the result if the bill had struck one of my eyes."

### In the Studio.

"Your work bears the closest kind of inspection," remarked the girl with the dimple. "What infinite pains you must take with it!"

"Perhaps," replied the artist; "but do you know, I enjoy the pains."

"Then," she rejoined, with a bright smile, "you, too, pursue art for art's sake!"—*London Field.*

### Where There's Smoke

There's fire, the saying runs, and so as a general rule the saying holds true. The fire is unseen, hidden, but the ascending smoke makes its presence undoubted.

Similarly you can argue from eruptions of the skin to corrupt blood. You can't see the blood, but the pimples, boils, etc., which ma the skin surely indicate impure blood. For this reason the medicine which cures these surface blemishes must cure them through the blood.

Dr. Pierce's Golden Medical Discovery purifies the blood, removes the waste and poisonous substances which corrupt it, and thus cures diseases which originate in impure blood, such as boils, pimples, salt-rheum, tetter, eczema, sores, and other painful and disfiguring diseases.

"Golden Medical Discovery" also increases the activity of the blood-making glands, thus increasing the supply of pure blood, rich in the red corpuscles of health.

"It gives me much pleasure to testify to the merits of Dr. Pierce's Golden Medical Discovery," writes Miss Annie Wells, of Ferguson's Wharf, Isle of Wight Co., Va. "I can say honestly and candidly that it is the greatest medicine ever compounded for purifying the blood. I suffered terribly with rheumatism, and pimples on the skin and swelling in my knees and feet so that I could not walk. I spent about two dollars paying doctors' bills but received no benefit. A year or two ago I was reading one of your Memorial Books and I decided to try Dr. Pierce's Golden Medical Discovery and 'Favorite Prescription,' and an entire cure."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood, and lungs.

Dr. Pierce's Pleasant Pellets regulate the bowels.

### MORE EVIDENCE

It is Coming Rapidly in Richmond.

Evidence on the following subject will prove of interest to every Richmond reader. So many people go through the same experience daily. This public statement should be proof positive to every wavering doubter. Read it carefully.

Mr. D. Cassel, 711 south eighth street, employed at the Richmond Casket Co.'s factory, corner of ninth and south A street says: "For several years I was bothered with my kidneys and the trouble, no doubt, was aggravated by the frequent heavy lifting and carrying I do at my work. There was a heavy severe aching, bearing down pain through my loins which was a constant worry to me. Persistent dizzy headaches also bothered me, and though I used a great many different remedies at different times I did not receive any apparent benefit. I saw Doan's Kidney Pills advertised and got a box at A. G. Luken's drug store and used them. They certainly did me a great deal of good."

For sale by all dealers, price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

### RELIC OF THE REVOLUTION

A Secret Passageway That Was Used by Tory Leaders.

Tunnel workmen engaged in excavating at a farmhouse which stands on Serber's point, close to Long Island sound, discovered a secret passage leading from the garret of the house to the sound. The passageway, it is believed, was used in the Revolutionary war by the Tory leaders of Westchester to escape from the American troops which, under Washington, were encamped for weeks in the neighborhood at the time that General Howe of the British army was encamped just opposite, on Long Island.

The legend of the passage has been known to the older residents of Westchester, although few of them have ever seen it. It was known as a "Tory hole." The builder of the old house was Isaac Wilkins, an Englishman, who settled in Westchester shortly before the Revolution. Notwithstanding that he married a sister of Lewis Morris, one of the signers of the Declaration of Independence, he was a hot Tory.

The house stands near a small creek leading to the sound. It is a two story frame structure with shingled sides. It has an immense chimney and fireplaces and was considered one of the finest houses in Westchester county when it was built, 137 years ago. The upper stories are provided with portholes, through which the inmates guarded their grounds.

The passage leading to the tunnel is wide and is covered with a trapdoor. Stones steps projecting from the outside of the chimney form a stairway all the way down to the ground, where a tunnel passes under the basement and runs out under the yard to the small tidalwater creek. The mouth of the cave and the tunnel years ago tumbled in and are now almost obliterated, but the passageway from attic to cellar is intact.—*Exchange.*

### Why Englishmen Dislike New York.

In a paper on "New York and New York" in Harper's Sydney Brooks gives this amusing explanation of the average Englishman's dislike for living in New York:

"It is this undisguised triumph of mechanics over aesthetics, of the new and useful over the old, that after a time makes New York for an Englishman rather a deadening city to live in. The iron enters into one's soul, and comfort, one feels, can be bought at too high a price. If only Americans could learn to do things a little more clumsily their metropolis would have many more charms for the English exile. In the long run mechanical perfection becomes almost as difficult as moral perfection to live with at ease. One turns a screw, and in twenty minutes one's room is warmer than two fires could make it in half a day. It is demoralizing, sybaritish. In England if the same system were introduced one could always rely on its being entertainingly out of order. But nothing seems to get out of order in New York, not even that great standby of English cemeteries and conversation, the drains."

### Railroad Travel Compared.

The time table of the New York Central printed in 1844 gives ground for a comparison between the conditions of travel then and now. In 1844 it took thirty and a half hours to travel by mail train from Albany to Buffalo. In 1902, by the Empire State express, it takes five hours and thirty-seven minutes. In 1844 the fare from Albany to Buffalo was \$11.50. In 1902 the fare is \$6.15. In 1844 the route from Albany to Niagara Falls was by rail to Syracuse, thence via Oswego canal and Lake Erie; distance, 333 miles; fare, \$10; time, 32 hours. In 1902 the distance by New York Central is 305 miles; fare, \$6.15; time, 6 hours 14 minutes. In 1844 the cars were lighted

with candles, there were no sleeping cars, meals were obtained at primitive taverns, and the physical condition of the roadway made long and tiresome delays necessary and a journey an irksome undertaking.—*Boston Budget.*

### Campaigning in Samar.

With the exception of a small part of the island of Samar the ground is entirely covered with a dense jungle, which it is next to impossible to penetrate, says a Manila newspaper. The trails lead off fairly and after a few miles end in a blank wall of jungle, which is so matted that it takes hours for the soldiers to cut a trail wide enough for the passage of a single man at a time. What the natives call trails in the mountains are simply paths almost entirely covered with jungle grass, rattan and bamboo, through which the hardy mountaineers force their way with ease, while the more encumbered and less accustomed white soldier cannot get through at all.

### An Automobile Hothouse.

An automobile hothouse is one of the latest novelties in Paris. Baron Edmond de Rothschild has just had one constructed at a cost of 15,000 francs for the purpose of carrying hothouse plants from his country estate to his house in Paris. The journey there and back used to take two days and necessitated the lodging of three men overnight in Paris. It is now performed in the same day and will doubtless be a considerable economy.

### Buried Forests.

Buried forests found in Alaska in localities where no trees exist now have revived a discussion of the theory that the arctic region once possessed a tropical or semitropical climate. A few years ago a New England professor wrote a book based on the idea that as the earth first cooled at the poles they were the original scene of vegetation and human life and that mankind gradually moved southward during the prehistoric period.

### MOTHER AND BABE

Sick mother—sick child!

That's the way it works when a mother is nursing her infant.

Scott's Emulsion is an ideal medicine for nursing mothers. It has a direct effect on the milk. Sometimes the mother is weak; her thin milk does not make the baby grow. Scott's Emulsion changes all that. The rich cod-liver oil in Scott's Emulsion feeds the mother and gives a flow of rich, nourishing milk for the baby.

The medicine in Scott's Emulsion not only strengthens the mother but goes naturally through the milk and strengthens the child.

Nothing to harm—all for good—Scott's Emulsion.

We'll send you a little to try, if you like.
