

Richmond Palladium

THURSDAY, JAN. 9, 1902.

Indiana and Ohio Weather

WASHINGTON, D. C., Jan. 8.—For Indiana: Fair tonight and Friday, moderate temperature. Ohio—Fair tonight and Friday except cloudy along the lake, probably snow in northwest.

LOCAL MENTION.

For good watches and clocks see Haner.

Go to Haner's for correct fitting of eye glasses.

Fred Urban attended a dancing party at New Castle this week.

Typewriters, all makes, for sale or rent. Ribbons, repairs, etc. Tyrrell, W. U. telegraph office.

Toler's drug store, corner fifteenth and Main. Trade there once and you will trade again.

N. H. Kenley picked up a pocket book containing a small amount of money which the owner can recover by calling on him at Thomas Erk's grocery, corner seventeenth and north C.

The marvel of the age—Liquid Air. Dozens of experiments tomorrow night.

Mrs. Nelson Gillam will leave soon to spend the winter in the south. She will be accompanied by her son-in-law and daughter, Mr. and Mrs. E. M. Phillips of New Castle.

Stranger than fiction are the Liquid Air experiments to be seen tomorrow only.

The Rev. J. E. Cathell, who is now quite a stranger here, though not many years ago rector of St. Paul's Episcopal church, passed through yesterday enroute home to Des Moines from northern Indiana. He has changed very little.

Peru Journal: Active work has been resumed on the C. R. & M. station at the foot of Broadway. It had been stopped for lack of material and on account of the cold weather. The station has the best location as regards the business portion of the city of any place along the line of the road.

Charles M. Williams left for Cleveland and other points east on a business trip.

Mrs. Charles Drake, after spending the holidays with her daughter, Miss Earl La Boyteau, has gone to join her husband, Mr. Charles Drake, who is with the De Laquer and Field Dramatic Co., now at Redkey, Ind.

From Rev. Frank W. Ganss, pastor Central church and president Armour Institute, Chicago: I have to say that the lecture and experiments with Liquid Air at the Armour Institute were most instructive and brilliant. I would not have had my students miss this lecture and these experiments for hundreds of dollars, and I cannot see how any lecture association could obtain a more fascinating and valuable entertainment.

The monthly meeting of the Flower Mission will be held at the Presbyterian church, Friday afternoon at 2:30.

Eliza Abbott filed her petition for the placing of her son, Amos F. Abbott, in the school for feeble minded, with the commissioners, by whom it was approved.

Mrs. Rev. W. H. Daniel, of Ft. Wayne, is in the city for a few days, the guest of Rev. Bunyan and wife, 32 north twelfth street.

The Rushville Star of last evening contains the following with regard to a man well known in Richmond: "Jefferson Ammon, aged 59, an unmarried man, living with his sister, about one mile east of Plum Creek church, was visiting his brother, William Ammon, Tuesday afternoon and started home about 4 o'clock. Thirty minutes later his dead body was found lying in the road. He had been complaining to his brother of a pain in the region of his heart and had been subject to attacks of vertigo and shortness of breath."

Friends in this city of Billy Simmons, ex-sheriff of Randolph county, will regret to hear that he is very ill at his home in Winchester.

William H. Quigg has bought an interest in the Hoefer-Knopf Baking company. He was formerly on the road for I. R. Howard & Co., then went into the employ of the Snell Grocery company of Indianapolis. He will now identify himself with the business of the baking company and take the road for them.

Miss Inez Williams and Fannie Campbell and Gaar Williams will not return to school until next week, on account of the death of Mrs. Campbell. They had their tickets bought, and one of them had his trunk checked, but Mrs. Campbell became suddenly worse and they remained at home.

The Woman's Foreign Missionary society of the First M. E. church met in large numbers at the home of Mrs. L. H. Bunyan Wednesday afternoon. After the devotional and business meeting a good program was given. The interest and pleasure of the social hour was greatly enhanced by the presence of Mrs. Emma L. Daniel, who talked on "Missions of 1901 at Home and Abroad." Delicious refreshments were served and the occasion was one of great delight. Mrs. Daniel leaves for her home in Fort Wayne Saturday noon.

Tonight occurs the regular meeting of Sol Meredith post G. A. R. There will be special exercises.

The crematory officials were notified yesterday of the presence of a dead cat in a west side alley and it was sent for. The report filed with the superintendent says that on arrival the animal had recovered enough so that it could run so fast the officer was unable to catch it.

Miss Ethel Gifford is teaching in the Fountain City schools in place of Earl Chamness, who had to return home on account of sickness.

Liquid Air comes tomorrow night.

Mrs. George Fox went to Chicago this morning to visit relatives. On Tuesday she will be present at the marriage of her sister, Miss Frances Spiesberger, to Mr. Emil Levey of Bay City, Mich. Miss Spiesberger is well known in this city. The newly married couple will make their home at Bay City where Mr. Levey is in business.

Mrs. John Lantz went to Indianapolis this morning to see Julia Marlowe.

Darr Hiatt came over from Urbana today to do some work here. The new Citizen's telephone plant being put in there by the Chicago Construction Co. is near completed. He has been working on it for several months.

James Post of the Panhandle baggage room has his head tied up like a frozen pump. How it happened is not related further than Tom Dolloff says that it was done by Mr. Post's cow. She gives eight gallons of milk a day and he was trying to squeeze it up to nine gallons and the cow kicked.

Albert Reed and wife left for Jacksonville, Fla., this morning to spend the balance of the winter.

THAT STACK

And Other Interesting Things About the Electric Light Plant.

Messrs. Varney and Nelson of the municipal electric plant, who were here yesterday returned to Indianapolis today. They were well pleased with the progress which has been made, especially Mr. Nelson, who said he was glad to see the end of his labors in this connection approaching, "because," said he, "when the plant is completed and the citizens see what they have secured all this adverse criticism will cease. When this plant is done there will be nothing in its line in the state of Indiana that will touch it for completeness, utility and economy of operation."

The engines were shipped from Birmingham yesterday under a contract with the railroad to deliver it in Cincinnati inside of eighteen hours. The trip from Cincinnati here will take but a few hours, and it will undoubtedly be on the track here by Saturday. They do not expect to begin unloading it until Monday, however, and then the work of setting it and other heavy machinery will be begun and pushed to the utmost. Mr. Varney will be here all week. He says if there are no accidents the plant will be in operation March 1, or close to that.

The steel stack is up, and is 125 feet high and 81 inches through at the smallest part. It is yet to be lined with brick clear to the top and this is going to be an interesting operation. One not knowing how it is done would be very apt to say it could not be done at all. There is only a circle of six feet to work in and handle the material, and yet the operation is quite simple. A platform is put inside the stack with the men on it, and the material, and this is pushed up as the work progresses, until the top is reached. What would become of the men if the concern should take a notion to tip over is a question to make a guessing contest interesting.

Ice Dam at St. Louis.

St. Louis, Mo., Jan. 9.—The river is blocked opposite south St. Louis and marine traffic is cut off by an immense gorge of ice formed during the cold spell in December. It has formed a dam across the river at Arsenal Island. Dynamite was used vainly. It is likely to cut a new channel east of the island.

Remarkable Cure of Croup—A Little Boy's Life Saved.

I have a few words to say regarding Chamberlain's Cough Remedy. It saved my little boy's life and I feel that I cannot praise it enough. I bought a bottle of it from A. E. Steere of Goodwin, S. D., and when I got home with it the poor baby could hardly breathe. I gave the medicine as directed every ten minutes until he "threw up" and then I thought sure he was going to choke to death. He had to pull the phlegm out of his mouth in great long strings. I am positive that if I had not got that bottle of cough medicine, my boy would not be on earth today. —JOEL DEMONT, INWOOD, IOWA. For sale by A. G. Luken & Co. and W. A. Sudhoff, druggists.

MORE MEASLES.

The Law and Some Other Information in Relation to This and Similar Diseases.

Measles is reported in the family of Bert Jones, 424 south fourth street. The patient is four years old.

In family of Joseph Gatzek, Jr., 910 south D. Russell, aged three years.

In family of A. Griswold, 1016 south fifth street. Moore, aged ten years.

In family of Mrs. Roberts, 32 south fourteenth street. Bert Overman, aged nineteen years.

In family of R. J. Wigmore, 717 south J street. William, aged fourteen months.

In family of Mrs. Mary Williams, 33 north tenth street. Edward, aged seven years.

Typhoid fever in the family of Henry Eversman, 611 south eighth street. Henry, aged forty-one years and Howard, aged twelve years. Two cases.

THE LAW IN THE CASE.

In response to numerous inquiries as to the rights of people where they have measles etc. in their homes, to go into public places, we give the following from the city ordinance which is still in force. Section 16 of the health ordinance which is practically the state law on the subject reads as follows:

Sec. 16. No person shall be permitted to go from any house or building infected with smallpox, scarlet fever, diphtheria, measles, cholera or other contagious or infectious diseases dangerous to public health, to attend church, public meetings, places of amusement, or travel in any street car or public vehicle, or to appear on any public street or highway, without first making a complete change of clothing, and without securing a permit from the city health officer. And any person violating any of the provisions of this section shall, upon conviction thereof, be fined in any sum not exceeding one hundred dollars, to which may be added imprisonment for a period not exceeding ten days. Section 19 of the same ordinance directs the same penalty against any person entering a house where these diseases exist without a permit from the health officer. The cards placed on the houses are black for cholera, red for small pox, yellow for any of the others.

In small pox, cholera, scarlet fever, and diphtheria the law is strictly enforced, but not in the other diseases. The reason given for that is that medical men and the public generally are divided on the matter, more especially of measles. It is considered that all persons almost are certain to take measles at some period of their lives. When it is taken in childhood it is mild and the effects rarely serious; but when taken in mature years the effects are nearly always dangerous. So it is considered so much preferable that the patient should take it in childhood if at all, the precautions are not so rigid as in diseases that are dangerous, which measles rarely is.

EXECUTORS

Public Sale of Farm.

Notice is hereby given that on Wednesday, the 12th day of February, 1902, at two o'clock p. m., we, the undersigned executors of the will of Clayton Hunt, sr., late of Wayne county, Ind., deceased, pursuant to the authority conferred upon us by said will, will offer for sale at public auction, on the premises,

FARM OF 147 ACRES

Formerly owned by John Lackey, situated in Clear Creek township, Warren county, Ohio, being part of section 31, township 3, range 5, and section 36, township 4, range 4, between the Miami rivers.

Clear Creek runs through this farm. There is on it a good dwelling house, metal roof barn, crib, tobacco barn and other buildings, good orchard, woods, pasture, and it is first class corn and tobacco land.

TERMS OF SALE.

One-third cash down, balance in three equal payments in one, two and three years evidenced by the promissory notes of the purchaser in usual form, bearing interest from date of sale, at rate of five per cent, payable annually, and secured by mortgage upon said real estate, with fire insurance policies on the buildings with loss payable to mortgagees as their mortgage interest may appear. Sale to be free of dower.

Purchaser to have option to pay the whole purchase money at time of sale without discount.

Mr. C. A. Wills, who resides on the farm, will show the same to prospective buyers.

CLAYTON B. HUNT,
ELLWOOD MORRIS,
EXECUTORS.

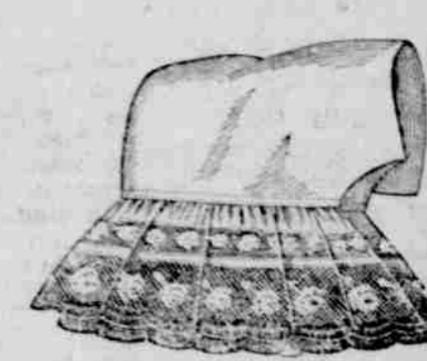

P. O. ADDRESS, RICHMOND, IND.
