James Davis is a candidate for county commissioner, Middle District, subject to the Republican nomination.

Eastern District.

Richard A. Davenport is a candidate for County Commissioner for the Eastern District, subject to the Republican nomination.
Joseph R. Hillman is a candidate for county commissioner, Eastern District, subject to the Republican nomination.

ANNUAL REPORT

Of the Congregational Meeting of the Second Evangelical Lutheran Church.

Report of the annual congregation meeting of the Second English Lutheran church. Officers were elected for the year as follows:

Elder—Christian Wellbaum.
Deacon—Edward O. Mott.
Trustee—C. A. Knollenberg.

The report of the church treasurer showed the contributions to be for the year, \$408.36.

Amount raised by the Ladies' Aid society, \$146.66.

Contribution by the Sunday school, \$160.

Amount raised by the W. H. & F. M. S., \$30.38.

Total contributions for all objects, \$735.40.

Accessions during the year, 25.

Losses, 1.

Communion membership, 67.

Sunday school officers and scholars, 146.

Average attendance, 77.

Pastoral visits, 390.

Catechumens taught, 14.

The pastor officiated at funerals, 3.

The pastor officiated at marriages, 3.

Baptisms, 4.

During the year the congregation was the happy recipient of the fine new organ, valued at \$850. All the bills due were promptly met, and the debt was reduced by \$200. The year was a prosperous one and the congregation is much encouraged to go forward.

Ward Meeting.

The Republican voters of the sixth ward are requested to meet at John R. Howekotte's store on east Main street, Friday evening, at 7 o'clock for the purpose of selecting a committeeman for said ward, and to attend to such other business as may come before the meeting.

W. H. Cook, Chairman.

Fifth Ward Republican Voters.

As there has been much comment and criticism on the action of central committee regarding ward meetings. In explanation I would state that the movement I had encouraged to hold said meeting, Friday night, was decided by Chairman Swain as ignoring state committee instructions, and at a called meeting of said central committee, Saturday night, the matter was thoroughly discussed and unanimously agreed that ward meetings would be held at same time and place, with a mass meeting at the court house Saturday, 11th inst., at 2 p. m., and it is the earnest wish of those interested that every voter that can possibly do so will favor us with his presence.

C. F. Walters, Chairman.

It Was Their Last Sleep.

Forest Hill, La., Jan. 7.—Two children of G. B. Keener, one aged 18 months and the other an infant, were found dead in bed yesterday with their skulls crushed. Keener sent his wife about 120 yards from the house to a water-hole for water. On her return he told her he had put the two children to sleep, and left the house. Shortly afterward Mrs. Keener discovered that both the children were dead with their heads badly crushed. A coroner's jury held Keener for murder and he was arrested.

Gave Away Army Secrets.

Vienna, Jan. 9.—Captain Carina of the cavalry, whose trial on charges of divulging military secrets to the French government began here Tuesday, has been sentenced to four and one-half years' imprisonment.

Lived a Century.

Sullivan, Ind., Jan. 9.—Jacob Esslinger died suddenly at his home in Carlisle. Mr. Esslinger ranked the oldest man in the county, being 100 years of age.

She Writes Sermons to Order.

The London Daily Mail says that many of the eloquent sermons heard at the churches are composed by a woman who makes her living thereby. There lives in the north of London the widow of a clergyman who, under the name of her late husband, is writing sermons for clergymen in the metropolis and elsewhere. Most of her sermons are bought by clergymen of the Church of England, who write to her under the impression that they are communicating with a clergyman retired from the ministry. The sermons are excellent, and no doubt much better than they could write themselves.

Large and medium sized bowls are coming more and more to the front as a house decorative adjunct. Those of copper or brass are in high favor, while quaint Japanese ones from the ware that shades from unglazed green to lightest gray are also much liked as receptacles for flowers, for powdered orris to make the air fragrant, etc.

Two college women of Brookline, Mass., are making a success of a laundry run on strictly scientific and economical principles. The clothes are "sun dried" and bleached, and by a series of experiments the foreman has tested all the latest contrivances and processes for bettering the quality of the work.

DOINGS IN CONGRESS

The Senate Talks Pensions and the House Canal Matters.

Washington, Jan. 9.—During consideration by the senate yesterday of private pension legislation, some important statements were made by Mr. Galinger, chairman of the committee on pensions, in respect to regulations adopted by the committee to govern it in consideration of private pension bills. He announced that none but absolutely meritorious cases would be presented to the senate for its consideration, and that the closest scrutiny would be given by the committee to every bill introduced. He said that no pension exceeding \$50 a month would be recommended by the committee for the widow of a general officer, and that pensions for the widows of other officers would be scaled down proportionately.

The debate on the Nicaraguan canal bill in the house developed sentiment in favor of giving consideration to the recent offer of the Panama company to sell its franchises and property for \$40,000,000, this sentiment taking the form of advocating the Morris amendment to empower the president to select the latter route if the canal commission, upon considering the company's offer, recommends it and the required concessions can be obtained from Colombia. Of 16 members who spoke yesterday nine favored the Morris amendment.

It Pleases Germans.

Berlin, Jan. 9.—The German foreign office is delighted with the excellent effect produced in the United States by Emperor William's request that Miss Alice Roosevelt, daughter of President Roosevelt, christen his new yacht now building on Staten Island. The German people are equally pleased at the result of this request. The illustrated papers published this week contain portraits of Miss Roosevelt, and the social columns of the aristocratic journals give considerable space to a description of the twelfth night ball given Jan. 6 in Washington by the Misses Kean of New Jersey, in honor of Miss Roosevelt, and print a long list of the diplomats who attended.

He Baked His Wife.

Saint Etienne, France, Jan. 9.—A pastry cook of the name of Tanteau had a quarrel with his wife and killed her with a revolver. He thrust her body into an oven under which he lighted a fire. He then committed suicide. The caained remains of the woman were found yesterday in the oven.

Given a Breathing Spell.

Cleveland, Jan. 9.—Seventy per cent of all the creditors of the Everett Moore syndicate have now given their consent to the requested extension of time; this includes both traction and telephone interests, and is regarded as very encouraging.

DAILY MARKET REPORT

Prevailing Prices for Grain, Provisions and Livestock on Jan. 8.

Indianapolis Grain and Livestock.

Toledo, O., Jan. 9.—Wheat, 80 1/2.

HORSE SENSE

With a Human Application.

The man who owns horses is careful of them. He is careful that they are fed regularly. He sees to it that their feed is proportioned to their needs and conditions. They are fed at stated times and with a measured ration.

No man feeds a horse which is just off a long and fatiguing journey. He lets it rest a while and then feeds it moderately.

No horse owner rushes a heated horse from the harness to the spring, and lets it drink its fill of cold water.

A horse is a valuable asset and the owner takes no chance of injuring its health.

Now consider how the horse owner treats himself. He doesn't think regu-

larity of meals of any moment, so he eats in season and out of season. He has no regular ration or measured meal, so he eats to repletion. He comes home utterly tired from field or store and sits down to a hearty meal. He gets overheated and drinks copious draughts of cold water. He treats himself as he would allow no one to treat his horse, and he wonders why his stomach gives out, his digestion is impaired and he grows weak and miserable. If a man would treat himself as well as he treats his horse he would not suffer from disease of the stomach and its allied organs of digestion and nutrition.

A COMMON CAUSE OF DISEASE.

There is no doubt that careless and irregular eating and drinking are the most prolific causes of disease. When the stomach is diseased the whole body suffers from innutrition and its consequent physical weakness. The heart feels it—the lungs feel it—the liver feels it—the kidneys feel it—the nerves feel it, and, as a general rule, the beginning of "doctoring" is when the heart, lungs, liver, kidneys or nerves show signs of disorder. The stomach is, as a rule, not considered, or fails to receive the treatment necessary to the cure of disease.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. By enabling the perfect digestion and assimilation of food, it enables the strengthening of the body, and so restores weak organs to normal activity and the whole body to vigorous health. The most notable cures effected by the use of "Golden Medical Discovery" are those of chronic forms of disease which have entirely failed to yield to the treatment of local physicians.

O. S. Copenhaver, Esq., of Mount Union (Box 222), Huntington Co., Pa., writes: "About twelve years ago I was suddenly taken with a pain in the pit of the stomach which was so violent I could not walk straight. It would grow more

severe until it caused waterbrash and vomiting of a slimy yellow mucus. I consulted a physician and he told me I had a form of dyspepsia and treated me for about six months with but little benefit. I still kept getting so weak I could scarcely walk. I then tried another physician and he told me my liver was out of order and that I had indigestion. He gave me a treatment and I got some better but only for a short time. I then tried another one who said I had chronic indigestion, ulceration of the lining of the stomach, torpid liver and kidney affection. He treated me for more than a year and I felt much better but it did not last. I then took to using several widely advertised patent medicines, but received no more than temporary relief while using. I then tried Dr. Pierce's medicines, using his 'Golden Medical Discovery,' 'Favorite Prescription' and the 'Pleasant Pellets,' and in two months' time I was feeling better than I had for years before. I can truthfully say Dr. Pierce's medicines did me more good than any I had ever taken."

COMMON SENSE CURES.

The logic of the cures effected by Dr. Pierce's Golden Medical Discovery is easy to understand. Physical life is sustained by food. The strength of the body is derived from the nutrition in food. It is a natural conclusion that when the body and its organs grow weak it is because of failure to assimilate the nutrition contained in food. This is exactly what occurs when there is disease of the stomach and its associated organs of digestion and nutrition. There is a loss of nutrition with a corresponding loss of strength and lowering of vitality. Physical weakness therefore points to disease of the stomach and digestive and nutritive tract. When this disease is cured by

"Golden Medical Discovery" perfect digestion and nutrition are re-established and the weak body becomes strong again.

"When commencing to take your 'Golden Medical Discovery,'" writes Mrs. Virginia F. Griffith, of Flatport, Mercer Co., W. Va., "the doctors said I had chronic inflammation of the liver, stomach and bowels, also some kind of female trouble. My neighbors told me after I got better that they thought I had consumption, and no one thought I could get well. This was my condition when I first wrote to you. After being sick over a year and taking doctors' medicine and all kinds of patent medicine recommended, my stomach and bowels were in a bad condition, so that the lining of my stomach and bowels peeled off, leaving them as sore and raw as ever a sore could be on the surface of the body. Everything I ate hurt me so I could eat nothing but a little rice or an egg. My chest was so sore all through that when I would draw my breath it seemed like a thorn pricking me. Expectoration was almost constant. There seemed to be a large lump in my left side. It is impossible to describe all the aches and pains, as it seemed every organ of my body was more or less involved. I have taken thousands of dollars' worth in all of your medicines and consider myself a well woman."

Sick people, especially those suffering from chronic diseases, are invited to consult Dr. Pierce by letter, free, and so obtain, without charge, the opinion of a specialist on their ailments. All correspondence strictly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

THE BEST MEDICAL BOOK FREE.

Dr. Pierce's Common Sense Medical Adviser, containing more than a thousand large pages and over 700 illustrations, is sent free on receipt of stamps to pay expense of mailing only. Send 31 one-cent stamps for the cloth bound volume or only 21 stamps for the book in paper cover. Address Dr. R. V. Pierce, Buffalo, N. Y.

Stiff Joints
Omega Oil What a stiff joint needs more than anything else is Omega Oil. The next need is plenty of massage, or rubbing. The rubbing makes the blood flow faster, and the Oil loosens up and softens the hard, stiff places. The first thing to do with a stiff joint in machinery is to oil it, and then work it back and forth until all the stiffness is gone. Now, as a matter of fact, your body is a machine, not of iron, but flesh, muscles and joints, and you want to keep it well oiled with Omega Oil if you expect to have it in good running order. This is common sense, and every one knows it to be the truth.

Omega Oil is good for everything a liniment ought to be good for.
