

MAY REOPEN FEUD

Trouble In the B. & O. S.W. Shops Promises to Be Revived.

UNION MEN OBJECT

They Say That the Company Discriminated Against the Federation in Discharging Employees.

The Situation in the Shops at Washington Is Again Strained and a Strike Is Imminent.

Washington, Ind., Jan. 14.—The discharge of 35 employees of the Baltimore & Ohio Southwestern shops, some of whom are members of the American Federation of Labor, and who took an active part in the strike of September, 1901, may lead to a big strike. The men were laid off indefinitely by the company and the officials have given out that if any new men are needed they will not be reinstated. The men claim that even if the officials here received instructions to reduce the force they used discrimination in discharging them, as only prominent A. F. of L. men and former strikers were laid off. The men and Division Master Mechanic Hare are trying to reach an agreement. The A. F. of L. has called for their state president, Edgar Perkins of Indianapolis, and he is expected to lay. About seven hundred men are employed at the shops.

IT WAS LOADED

Small Boys and Rusty Revolver Lead to a Tragedy.

Indianapolis, Jan. 14.—Geo. Schneidermann, the 5-year-old son of Davis Schneidermann, was fatally shot yesterday by his brother Harry, 9 years old. The shooting was accidental. A 32-caliber bullet struck the little fellow in the center of the forehead, piercing the brain.

The boys were playing with Eddie Lynn. In the top of a closet, where Mrs. Schneidermann had hidden it, the children found an old rusty revolver. The weapon had been out of order for years. In some manner the Lynn boy managed to pull the hammer back and was unable to lower it. He handed the revolver to Harry, who fired it. George was standing directly in front of him at the time. Dents in the other cartridges showed that the boys had snapped the revolver several times without discharging it.

More Postoffice Burglars.

Greenfield, Ind., Jan. 14.—The safe in the postoffice at Shirley, on the Hancock-Henry county line, was wrecked by burglars, who used explosives, and secured \$400 in stamps. B. L. Burkett, postmaster, had removed the money, otherwise the loss would have been greater. The explosion of dynamite alarmed several citizens and they looked out of their windows in time to see two men, whom they describe as a tall and short one, hurrying down the street.

A Community Aroused.

Tipton, Ind., Jan. 14.—John Stroup, Harry Gossard and James Higgins, accused of criminally assaulting Rachel White, 18 years old, of Prairie township, are still fugitives from justice.

A report from Kempson states that Miss White is still in an alarming condition, with little hope of recovery. The feeling is intense against the accused, and it is said that if they are apprehended there will be an effort at mob violence.

Valuable Mineral Find.

Reynolds, Ind., Jan. 14.—Several years ago the father of John Rogers, while digging a well, uncovered a deposit of clay abounding in aluminum, but not having the means to develop it he kept the location a secret, intrusting it to his son, John Rogers Jr., who has forwarded samples to Washington, and the analysis shows rich deposits, and is now making arrangements to profit thereby.

More Trouble Brewing.

Terre Haute, Ind., Jan. 14.—Trouble is again brewing on the electric lines, the motormen and conductors having asked the reinstatement of Grant Tubbs, said to have been dismissed for insolence, which is disputed by the employees. Tubbs was recently elected an officer of the union.

Disappointed Burglars.

Centerville, Ind., Jan. 14.—Burglars entered the office of McConaha & Parrott, millers, and also the Pennsylvania railway depot, using dynamite on the railway safe and securing a quantity of notes but no money. The visit to the mill was equally as barren.

Child's Shocking Death.

Knox, Ind., Jan. 14.—Lerona Bell, the 2-year-old daughter of Wm. Bell of this city, fell backward into a vessel filled with hot water, scalding her so that death followed. The mother is so badly shocked that it is feared she cannot rally.

Felts Is Sentenced.

Washington, Ind., Jan. 14.—James Felts, who tried to kill his wife with a razor, was followed to Cairo, Ill., and arrested, was arraigned and on a plea of guilty was committed to the reformatory under the indeterminate act.

A BOLD RAID

Masked Men Hold up Operators of a Pool Room.

Kansas City, Jan. 14.—Two young men of slight build with handkerchiefs tied across the lower portion of their faces, entered Harry B. Chick's pool room in the center of the city last night and with drawn revolvers commanded the proprietor, cashier and three other employees who were in the place to lie down on the floor. They then secured between \$1,500 and \$2,500 and escaped. A third man, supposed to be a confederate, but not masked, guarded the entrance while the robbery was committed. Jimmy Driscoll, an employee, who did not readily comply with the command to lie down, received a heavy blow on the head with a revolver from one of the robbers. Dr. J. A. Frame, the cashier, also received a slight blow on the head. A better time for the robbers could not have been chosen. The proprietor and his assistants were counting the money that had been received during the day, and as betting on the last races of the day ceased about 6:30 p. m., only the employees remained.

WANT IT STOPPED

Railway Superintendents Discover That There Are Too Many Wrecks.

Chicago, Jan. 14.—Owing to the series of disastrous wrecks which have occurred within the last six months the general superintendents of many of the railroads centering in Chicago are sending a special circular letter to the employees in the operation of passenger and freight trains. The tenor of the circulars so far issued is the same and although the letters can not be considered as reprimands, they are "heart to heart talks" which will undoubtedly result in extraordinary precautions being observed. In general the circulars call attention to the wrecks occurring recently and suggest that in the majority of cases an exercise of ordinary precaution and a strict attention to orders and duty would have averted the disasters.

SWITCH WAS THROWN

And Rock Island Freight Dashed Into a Work Train.

Wichita, Kan., Jan. 14.—A freight train running 20 miles an hour on the O'Keene branch of the Rock Island road crashed into a worktrain which was standing on a siding at O'Keene yesterday, and killed Bridge Foreman H. K. Bear of this city and Carpenter E. A. Colby of Galva, Kan. The men in the work-car were buried under the debris, which caught fire. They were rescued by the crew of the freight train and some citizens just in time to save them from being burned to death. The cause of the wreck was the malicious breaking of a switch-lock and the throwing of the switch by some unknown person.

CONGRESSIONAL DOINGS.

Washington, Jan. 14.—In the senate yesterday Mr. Nelson of Minnesota called up the bill providing for the establishment of a department of commerce. He explained the necessity which he said existed for the passage of such a measure, and was pried with questions by several senators, who said that sufficient time had not been allowed for looking into the merits of the measure. The bill finally went over, subject to call by Mr. Nelson. The house of representatives spent the day in general discussion of the pension appropriation bill, the first of the annual budgets.

GAINS IN THE SOUTH.

Washington, Jan. 14.—The director of the census has announced the percentage of increase of population in different parts of the country, showing for the last decade a rapid decrease from previous rates of growth of population in the West, a less marked but decided decrease in the North, and a slight increase in the South.

GAINED WITH FEVER.

Beaumont, Tex., Jan. 14.—J. P. Withers, who was until Dec. 31 president of the American National bank of this city, was yesterday arrested by a deputy United States marshal at Kansas City on the charge of forgery, which it is stated aggregates \$37,000.

THE WANT OF FEVER.

Boston, Jan. 14.—The anti-imperialistic league has sent a petition to Congress asking that Aguinaldo and Mabini be permitted to come to this country and accorded a hearing before Congress.

TERSE TELEGRAMS

There is an epidemic of smallpox in the lumber camps of the Adirondacks.

There is a great increase in Congress estimate of \$50,000 for the defense of Guam, and \$200,000 for the defense of Hawaii.

The Hohum-Niagara canal bill was referred by the senate from the house yesterday and referred to the committee on interoceanic canals.

Forces of the government of Venezuela have forced Senator Luwsky, former minister of war, near the town of San Carlos, in the state of Llanura.

Rockwood, a well-known Chippewa and the White Earth (Minn.) Indians, an one of the few remaining early day warriors, died, aged 50 years.

Captain Richmond P. Hobson has not resigned from the navy. He has merely applied for a year's leave of absence and expects to spend his time to be spared.

France regards the possible rapprochement of the United States and Germany without jealousy, having guarantees that this means nothing against France.

FEELS IS SENTENCED.

Washington, Ind., Jan. 14.—James Felts, who tried to kill his wife with a razor, was followed to Cairo, Ill., and arrested, was arraigned and on a plea of guilty was committed to the reformatory under the indeterminate act.

Hood's Pills

Sold by all druggists. 25 cents.

AT THE CAPITAL

Pertinent Points Presented By Our Indianapolis Correspondent.

Indianapolis, Jan. 14.—In the fight among the Fifth district Republicans, Representative Holliday has evidently won the first fall from James S. Lurens of Terre Haute, who has again announced his candidacy for nomination for Congress. Lurens was here last night in company with Riley McKeen, the Terre Haute millionaire politician, and Ol' Tichenor of Princeton, who wants to be elected secretary of the state committee. Lurens was the center of attraction among the visiting politicians at the Columbia club, as he did not act as if he had suffered a defeat. He denied that he had made an effort to control the primaries that were held last Friday and Saturday to elect delegates to the district convention at Greencastle to-morrow, when a new committeeman will be selected, but the wise political ones here say that he did show his hand in the primaries and was badly beaten by the Holliday forces. He denied that he had made a candidate for committeeman. The opinion was expressed by party leaders here to-day that Representative Holliday is in position to dictate who shall be elected at Greencastle to-morrow, and that it would not be surprising if Julian D. Hogan, a Danville newspaper man, would be given the place. The fight in the Fifth district has been occupying the attention of the politicians for some time, and the outcome is awaited with much interest. The fact that Lurens was here in company with McKeen lends color to the report that they have formed an alliance for the purpose of nominating the former for congress and reinstating McKeen at the head of the party at Terre Haute.

STATEMENT OF THE CURE.

If You Could Look

into the future and see the condition to which your cough is neglected, will bring you to seek relief at once—and that naturally would be through

Shiloh's Consumption Cure

Guaranteed to cure Consumption, Bronchitis, Asthma, and all Lung Troubles. Cures Coughs and Colds in a day. 25 cents. Write to S. C. Wells & Co., 120 Bay St., New York, N. Y., for free trial bottle.

THE FASHIONS.

Lace gowns embellished with embroidery are among the most favored for evening wear.

Wide gauntlet cuffs are seen on many of the new gloves for women, particularly those of heavy pique.

In evening gowns velvet is again a favorite fabric and is likely to remain so during the cold weather.

State colored suede gloves, which can be worn with gowns of almost any color, have as the latest finish buttons of gun metal.

The Angora dot, so called because it is white and fluffy, is in evidence on many of the new veillings in fancy meshes and chiffons.

Brussels nets of the finest meshes are again in favor for evening dresses in white or black, like point d'esprit, and they threaten to rival those of the long popular chiffon or moussoing briliane.

Some of the very latest of the long enveloping coats, or those in three-quarter length, are made in modified Russian blouse style at the top, and these models are extremely becoming to girlish figures.

FRUITS AND FLOWERS.

Never allow blighted leaves or limbs to remain on fruit trees.

The gooseberry thrives best in a heavy, low but not wet soil.

Bulbs love a deeply worked light, rich soil, but they will grow and prosper in almost any good garden ground.

Plants cannot live indefinitely when deprived of their leaves; hence preventing their appearance above the surface is sure to kill them sooner or later.

Moss is the best of all materials for packing trees and plants, as it retains moisture for a long time and never heats. It should be used next to the roots at least.

Train the apple tree low in young orchards. This will save much vexation at fruit gathering time and will enable the trees to stand hard winds much better and give better satisfaction in every way.

BE SURE THAT—

All dusters are hemmed and regularly washed.

A regular routine of daily work is planned and carried out.

Cupboards and storerooms are overhauled at least once a month.

Every penny spent be accounted for in a book kept for that purpose.

Old rags are not used in the house-work, but suitable cloths provided.

The servants' room be kept as neat and clean as any room in the house.

The beds are stripped and dried daily and the clothes placed where the fresh air can reach them.

The drafts are checked in the kitchen as soon as the meals are prepared, to reduce the coal bill.

The dish towels and glass linen are washed each day and thoroughly washed and ironed each week and dried in the open air.—Buffalo Inquirer.

SHORT STORIES.

The hay harvest in the United States in 1901 amounted to 51,000,000 tons.

Of the people of Boston only 35 per cent are native born of native parents and 56 per cent are foreigners.

About 4,000 routes are now in operation for the daily delivery of mail at the scattered homes of 3,000,000 of our rural population.

Five years ago there were 1,300 lepers in Molokai. Now there are only 900, and Superintendent Reynolds believes that leprosy is being slowly but surely eradicated in the Hawaiian Islands.

A sheet of plate glass 140 by 217 inches was recently cast at Kokomo, Ind. This is the largest sheet of glass ever made, it being one inch wider than the famous one exhibited at the Chicago world's fair.

The steel vessel builders on the great lakes are assured a year of great activity. The contracts for 1902 aggregate a carrying capacity of 3,000,000 tons. This will be an addition of 10 per cent to the present lake tonnage.

In four counties of western Massachusetts no less than 120 public libraries are in operation, containing 25,000 books. The towns where they are located have a population of 307,000. Some of the librarians give their time without salary. In several cases the pay is from \$5 to \$30 a year.

Long Tailed Chicks.

A new breed of chickens just recently in New York from China has tails twelve feet long. They are kept in cages, and when they are taken out for exercise an attendant goes along to hold up the feathers. The hen lays thirty eggs a year, which are hatched by other hens.

McKinley Tree.

A giant sequoia in the Mariposa Grove has been selected to be named William McKinley. It stands between the Washington and Lincoln trees and is estimated to be 3,000 years old.
