The new Panhandle passenger station will be built of brown vitrified brick, which are now arriving. The brick in a pile do not make a very favorable impression, but when in the wall and set off by terra cotta trimmings they will make a very handsome appearance. The brick are made at Danville, Ill.

The epidemic of measles has spread through the country to such an extent that it is interfering with the country schools a great deal. Not a school but what has been cut down nearly one half in attendance, and in many of the smaller schools not over six or seven pupils are present. The teachers go right ahead, however, with what there are. The disease is not dangerous and will soon wear itself out for lack of material, few persons ever taking it the second time.

The city seems to have evaded a law suit by some hard work on Sunday. There is a little strip of ground near the municipal electric light plant which it was desired to use for an outlet for the well for the boilers. The Light, Heat & Power company claim the ground. The city claimed that it was vacated for the extension of first street. There was a clash, and it looked like the Light, Heat & Power company would sue for an injunction to prevent the use of the ground, which would have meant a long delay in the completion of the municipal plant, very likely. The contractors rushed the work through

and got done Sunday night. Whether there will be further trouble is as yet undecided.

John Humphreys was at Dayton yesterday, where he celebrated his 50th birthday anniversary. The occasion was made one of rare enjoyment by his hosts of friends in that city.

The Pennsylvania company will to-morrow complete an iron span 140 feet from their line just this side of Camden that is a fine piece of work in its way, and has been put in a surprisingly short space of time.

There is much talk about the city with regard to the last concert of the Richmond orchestra and chorus. Many who were not represented are expressing regrets. That the opera house will not hold the people at the next concert is already assured.

There is much interest awakening in the concert at the United Presbyterian church on the evening of the 4th of February. Much of the best talent of the city is to appear, and Mr. Eyer, the organist, is becoming known as the foremost performer in the city.

The new bridge of the Pennsylvania company to span the river at this point will be started at the same time that the work begins on the new freight houses and yards—about the first of April. It is then expected to take a hold of the work with a rush, and push it with the greatest possible speed.

The approach of the time for the tearing down of the old houses north of north D street to make room for the new Panhandle freight yards and depots calls attention to these old landmarks of the Richmond of the past, and photographers are busy making pictures of them. This was at one time one of the most closely settled portions of Richmond—many years ago—and many families now living in other parts of the city

Ladies' finest rubbers—38c at Williams' fire sale.

The fire sale at Williams' still continues to draw large crowds of shoe buyers. However, ladies who are afraid of crowds need have no fears for a crush inside, for only a limited number of people are admitted at a time. Prices on all goods—from a baby moccasin to men's and women's finest shoes—are marked away down. Buyers are satisfied with the bargains.

The case of the C. R. & M. railway company vs. the Union Ice company, now being tried by Judge Headington and a jury in the Wayne circuit court, is being hotly contested by the attorneys on both sides of the case. Attorney W. H. Kelley consequently will be unable to look after his fences for several days and until after the trial.

Men's work shoes 50c and 75c at Williams' fire sale.

Williamsburg will be completely at the mercy of the Knights of Pythias tomorrow evening. From all appearances the town is to be invaded by a host of the F. C. B. people. All three of the Richmond lodges will go in force. They will take a band, marching from the temple to the C. R. & M. depot and taking the 6.45 train. They will be joined by the Centerville lodge. The cars of the traction company will be held on the return of the party at night to take the Centerville people home again. The occasion is the dedication of the new K. of P. temple at Williamsburg.

Remarkable Cure of Croup —A Little Boy's Life Saved.

I have a few words to say regarding Chamberlain's Cough Remedy. It saved my little boy's life and I feel that I cannot praise it enough. I bought a bottle of it from A. E. Steere of Goodwin, S. D., and when I got home with the poor baby could hardly breathe. I gave the medicine as directed every ten minutes until he "threw up" and then I thought sure he was going to choke to death. Who had to pull the phlegm out of his mouth in great long strings. I am positive that if I had not got that bottle of cough medicine, my boy would not be on earth today.—JOEL DEMONT, Inwood, Iowa. For sale by A. G. Luken & Co. and W. A. Sudhoff, druggists.

TAKEN BY SURPRISE

The Lautaro; Was Not Expecting Attack From the Enemy.

Panama, Jan. 22.—The exchange of prisoners was responsible for Monday's disaster to the government. From the former the revolutionists heard of the plans of the government. The Lautaro's circulating pump was out of order and she had no steam up when she was attacked by the Padilla. The Padilla, which was recently painted white so as to deceive the government officers as to her identity, advanced unrecognized to a spot about 300 meters from the Lautaro. She then began firing at the Lautaro. The position of the latter prevented her from using her two big guns mounted forward, but she fired with her small after guns. Her gunner, however, was the first man killed. The foreign crew of the Lautaro refused to obey orders. General Alban, who displayed great courage, was shot on the steamer's deck.

General Garcia, a veteran officer, has been appointed military commander of the district in succession to Gen. Alban. Senor Arjona is the civil governor.

The revolutionists are reported to be at Los Llanos, eight miles from Panama. Passengers who arrived here by the train leaving Colon yesterday report having met a number of revolutionists at Gordona station. A spy sent by the revolutionary general Belisario Porras, was captured here Monday. Papers were found upon him which compromise certain important Liberals. The government has issued a decree conferring honors upon Gen. Carlos Alban, who was killed in Monday's fighting in the bay.

Sensation Exploded

Dayton, O., Jan. 22.—The grand jury has ignored the case of Mrs. Mary Witwer, who was charged with poisoning her sister, Mrs. Pugh, because of lack of evidence. The case attracted considerable attention last fall because of the allegation that the deaths of a number of persons were caused by Mrs. Witwer, who had acted as a nurse. She will go to her home in Michigan.

A \$200,000 Blaze.

Columbus, O., Jan. 22.—A four-story brick building at Spring and Capital streets, occupied as a wholesale house, was gutted by fire last night, entailing a loss estimated at about \$200,000, practically covered by insurance.
