

A CASE OF IT.

Many More Like It in Richmond.

The following is but one of many similar occurring daily in Richmond. It is an easy matter to verify its correctness. Surely you cannot ask for better proof than such conclusive evidence.

Mrs. Martha Peper, 415 north D street, says:

"For five years I had a lot of trouble with my kidneys. The secretions were highly colored, contained a thick sediment and were highly irregular. My back was so weak that if I worked or overtaxed myself it became so sore that it felt as though it was going to break. Sitting or lying in one position was very trying, and in the morning I felt sore and tired all over. I saw Doan's Kidney Pills highly recommended and procured a box at A. G. Lukens' drug store. They cleared and regulate the secretions in a very short time and relieved and strengthened my back."

CLOSED THE SHOPS

B. & O. S. W. Strike Led to An Unexpected Turn.

Washington, Ind., Jan. 27.—The Baltimore and Ohio Southwestern shop strike situation assumed most serious conditions Saturday when the men refused to return to their places. The company at once posted notices closing the shops permanently, which throws out of employment nearly 500.

General Superintendent Rawn, in an interview, said he regretted the necessity for such action, but that it was impossible for the company to carry on its business here when unnecessary help could not be discharged without general strike. The posting of the orders came like a thunderbolt to all of Washington, where public sympathy has been clearly against the strike. The company's action is keenly deplored because of the business effects. Unless there is a reconsideration of the orders Washington will lose its most valued enterprise, and with it will go over 400 families. Indignation against the men who precipitated the trouble is very great.

A Golden Glacier.

Elkhart, Ind., Jan. 27.—Elkhart and Cleveland (O.) citizens have subscribed \$80,000 capital stock to a company that will be organized to work a rich glacial deposit in southeastern Alaska which is estimated to contain at least \$200,000,000 worth of gold. Engineers have estimated that there are 2,200,000,000 cubic yards of gold-bearing dirt in the deposit. The hydraulic method, the most economical system of mining, will be used, as within two to three miles is a water supply 2,000 feet above the level of the deposit.

Fatal Termination of Carousal.

New Albany, Ind., Jan. 27.—After slashing Sam Shutters five times about the head and stabbing him three times in the shoulder, Andrew Wilson was ground to pieces by a Southern railroad train. Shutters and Wilson had been drinking together late Saturday night and had started for their homes when the cutting affray occurred. Shutters finally escaping into his house. Wilson then started for his own home, but Sunday morning his remains were found scattered along the railroad track for half a mile.

Horrible Accident.

Elwood, Ind., Jan. 27.—Benjamin H. Banta, unmarried, employed at the tinplate mills, was horribly burned by accidentally stepping into a pot of hot metal. The flesh from the ankle to the knee was literally cooked and he was badly burned on the body where the hot metal splashed. The man's condition is serious.

Aching Joints

In the fingers, toes, arms, and other parts of the body, are joints that are inflamed and swollen by rheumatism—that acid condition of the blood which affects the muscles also.

Sufferers dread to move, especially after sitting or lying long, and their condition is commonly worse in wet weather.

It has been a long time since we have been without Hood's Sarsaparilla. My father thinks he could not be without it. He has been troubled with rheumatism since he was a boy, and Hood's Sarsaparilla is the only medicine he can take that will enable him to take his place in the world." Miss Ada Doty, Sidney, Iowa.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle by mail.

Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

Mexicans Want Libraries.

Monterey, Mex., Jan. 27.—If the efforts now being made by United States Consul General Philip C. Hansen are successful \$4,000,000 of Andrew Carnegie's wealth will be used in the establishment of libraries in Mexico. Of this amount one-fourth is planned to be used in the establishment of a magnificent library in Monterey. The plan contemplates the expenditure of the remaining \$3,000,000 in the establishment of libraries at Chihuahua, Durango, Tampico, Torreon and San Luis Potosi.

Mystery Remains Unsolved.

Thompson, Mont., Jan. 27.—The mystery of the disappearance of E. A. Goodchild, a mill owner of Thompson, remains unsolved. A party of ten men have been engaged in search but so far without success. Goodchild has been missing since last Tuesday when he left home, taking his dog and gun and going on a hunt. A severe blizzard with intense cold has swept the mountains and it is feared that if Goodchild did lose his way he could hardly have survived the storm.

General Superintendent Rawn, in an interview, said he regretted the necessity for such action, but that it was impossible for the company to carry on its business here when unnecessary help could not be discharged without general strike. The posting of the orders came like a thunderbolt to all of Washington, where public sympathy has been clearly against the strike.
