THE BUGLER'S CHEST

Is well expanded. He uses his lungs to their fullest capacity. People in ordinary do not use much over half their lung power. The unused lung surface becomes inert, and offers a prepared ground for the attack of the germs of consumption. There is no need to warn people of the danger of consumption, but warning is constantly needed to neglect the first symptoms of diseased lungs.

Dr. Pierce's Golden Medical Discovery cures obstinate coughs, bronchitis, bleeding lungs, and other conditions which, if neglected or unskillfully treated, find a fatal termination in consumption. It is entirely free from opiates and narcotics.

"About three years ago I was taken with a bad cough, vomiting and spitting blood," writes Mr. D. J. Robinson, of Springfield, Vt. I tried many remedies; nothing seemed to help me. I then seemed to go to Dr. Pierce's Golden Medical Discovery. After using ten bottles and four vials of his 'Pleasant Pellets,' I commenced to improve. My case seemed to be almost a hopeless one. Doctors predicted it never would improve. I was sick nearly two years—most of the time bedfast. Was given up to die by all. I thought it would be impossible for me to live over night at one time. I haven't spit any blood for more than twelve months, and worked on the farm all last summer. It was Dr. Pierce's medicines that cured me."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach.

MASS OF SORES

Awful Suffering of a Boy from an Itching Humour.

CURED BY CUTICURA

Not One Square Inch of Skin on His Whole Body Was Unaffected.

"My little son, a boy of five, broke out with an itching rash. Three doctors prescribed for him, but he kept getting worse until we could not dress him any more. They finally advised me to try a certain medical college, but its treatment did not do any good. At the time I was induced to try Cuticura Remedies he was so bad that I had to cut his hair off and put the Cuticura Ointment on him on bandages, as it was impossible to touch him with the bare hand. There was not one square inch of skin on his whole body that was not affected. He was one mass of sores. The bandages used to stick to his skin and in removing them it used to take the skin off with them, and the screams from the poor child were heart-breaking. I began to think that he would never get well, but after the second application of Cuticura Ointment I began to see signs of improvement, and with the third and fourth applications the sores commenced to dry up. His skin peeled off twenty times, but it finally yielded to the treatment. I used the Cuticura Resolvent for his blood, and now I can say that he is entirely cured, and a stronger and healthier boy you never saw than he is to-day."
