Japs Make Another Successful Raid on Russia's Port Arthur Fleet.

TORPEDO BOATS TAKEN

By Using Russian Signals the Japanese Squadron Reduces Its Enemy's Fighting Power.

The Fort at Port Arthur Has Been Converted Into a Strictly Naval Stronghold.

Demonstration at Mouth of Yalu River Projected by American Squadron.

Tokio, Feb. 23.—It is reported here that Vice-Admiral Togo has again attacked Port Arthur. While it is impossible to confirm the statement, the navy department says it is considered very probable that the vice-admiral has made another attack on the Russians as he is engaged in blockading Port Arthur.

London, Feb. 23.—A Nagasaki correspondent cabling under date of Feb. 22, reports that the Japanese squadron has captured four Russian torpedo boats at Port Arthur by using Russian signals. This statement appears to confirm reports from various quarters of a fresh attack on Port Arthur by the Japanese. The report reached Nagasaki from Che Foo, and it adds that the Russian crews of the four torpedo boats have been transferred. No other news of this attack has been received in London, but a Che Foo correspondent in a dispatch dated Feb. 22, says the statement is current there that the Japanese torpedo destroyers, in the attack on Port Arthur on Feb. 14, sunk or damaged two Russian battleships, in addition to the torpedo boat already reported. It is possible, therefore, that the report of the Nagasaki correspondent also refers to the earlier attack.

Viceroy Alexieff's retirement to Harbin is now an accomplished fact and a correspondent cables that Port Arthur is now strictly a naval stronghold, and the forts are being manned by naval gunners. Only twenty foreigners are now at Port Arthur, and they are traders disposing of their merchandise. Some of them are under suspicion and there is likelihood of their being arrested. There are many complaints of unwarranted arrests, unexplained expulsions and defamation of character by the Port Arthur police.

The report that large bodies of Cossack and other troops are occupying New Chwang and Hain Tin are unfounded.

A dispatch from Hong Kong says a British squadron is concentrating there, and that a corresponding French concentration of ships is occurring at Saigon, Indo China. This is supposedly a result of the Anglo-French understanding.

curring at Saigon, Indo China. This is supposedly a result of the Anglo-French understanding.

According to a Nagasaki correspondent the American squadron, the vessels of which are variously reported at Che Foo and Shanghai, is going to make a demonstration at the mouth of the Yalu river.

Indefinite reports of the movements of troops in the vicinity of the Yalu river and statements of attempts to cut the Siberian railroad are also published today. A Wei Hai Wei correspondent describes a visit to Chemulpo, Korea, on Feb. 19 and the Japanese landing operations there, which he says demonstrated that the Japanese military organization is superior to that of any European power. A general advance along the Pekin road to Ping Yang, Korea, the correspondent continues, is expected shortly. The original plan was to land at Masampo, but the naval successes enabled the Japanese to begin operations at Chemulpo, and a further change of base to Chinnampo is highly probable. As soon as the ice breaks up troops will be established at Ping Yang in sufficient strength to guard against a sudden Russian descent. It is believed that while the sea power of Russia at Vladivostok is intact the Japanese will not attempt to land on the eastern coast of Korea. As an evidence of Japan's intention it is worthy of note that her cruisers are busy patrolling towards the northwest of Korea, and that she is not landing artillery at Chemulpo.

Everything suggests an immediate dash for a strategic position in Northern Korea, the correspondent concludes, and it is possible the Russians are considerably further south than is supposed.

A Breach of Neutrality.

Tokio, Feb. 23.—It is learned from a reliable source that the Russian minister to China, Paul Lessar, has successfully bribed Chinese officials with the result that the instructions given to the Russian gunboat Mandjur to leave Shanghai were cancelled. The Japanese government considers this to be a breach of Chinese neutrality, and is taking steps in the matter.

Established New Headquarters.

Yin Kow, Feb. 23.—Viceroy Alexieff and his full staff have just arrived at Harbin, where headquarters have been established.

PESSIMISTIC VIEW

German Military Authority Discusses Russia's Weak Point.

Berlin, Feb. 23.—The Militar Wochenblatt, the organ of the German general staff, has published an article discussing Russia's prospects of reinforcing her army in East Asia. The paper takes a pessimistic view of the capacity of the trans-Siberian railroad and especially of the section crossing Lake Baikal where, it says, the difficulties to be overcome are enormous. The limited capacity of the line is said to be a much more serious matter than the threatened damage to it by natives. The paper estimates present troops-moving capacity of the railroad from Russia's experience of last summer in moving two brigades to Tschita, east of Lake Baikal, which was only accomplished at the rate of eight and a half miles an hour. At this rate it would take thirty-six days to convey 25,000 men from the Ural mountains to Mukden or Vladivostok. The paper assumes the present strength of the Russian army in Eastern Asia to be 158,761 men, and upon the foregoing estimate of time required to move troops, it declares it will take until April 20 for Russia to raise the strength of her East Asiatic army to 230,000 men.

The Militar Wochenblatt is of the opinion that the easiest thing for Japan to do to compel Russia to abandon Manchuria is to strike at the center of the country, or in other words, concentrate her forces against Harbin.

Capacity of Siberian Railway.

St. Petersburg, Feb. 23.—Prince Khilkoff, minister of railroad communication has proceeded for Manchuria from Irkutsk, after having seen that the railroad on the ice across Lake Baikal was laid. He was personally entrusted with \$250,000 to effect the expeditionary termination of this work. Prince Khilkoff reports that the Siberian railroad is able to move 30,000 men a day to their destination, but that the transit from western points to the far East will require six weeks.

Despondent Over Ill-Health.

Indianapolis, Feb. 23.—Frank Benz, a butcher, killed himself by hanging. The only motive assigned by members of the family is that he became despondent because of illness.

Set a Good Example.

Washington, Feb. 23.—President and Mrs. Roosevelt celebrated Washington's birthday by planting each a tree in the white house grounds.
