We "did" the Indians in good shape last night. The attendance was fair, and those who were there were enthusiastic. Foster, first rush for Indianapolis, made a poor showing, Bone winning all the rushes. Mansfield retired early in the second period, and Cunningham, sr., went to center. Out of the ten goals to their credit "Cunny," sr., made five in the two periods he played. Cunningham, jr., made two and Bone three. Jessup had an easy time at goal, he having only seventeen stops, while Bannon was bombarded right and left. Line-up and summary:

Deafness Cannot be Cured

By local application as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous services.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

EARLHAM NOTES

A new student entered Earlham yesterday morning from Norway, Mr. Andras Bryne. Mr. Bryne is the son of a leading member of the Friends' church in that country, comes to school to prepare for managing a Friends' school in his native country. He is about twenty years old and has been attending school in England for some time.

The students of Earlham are being presented with a beautiful little volume entitled Harriet Green, by a sister of Miss Sophia Fry. The book was written by Miss Sophia Fry, a former student of Earlham, some time ago. It is bound in dark green binding and stamped with gold. The Earlham students remember Miss Green who spoke at Earlham last year. She has made several extensive tours and has been very active in missionary work.

A Favorite Remedy for Babies.

Its pleasant taste and prompt cures have made Chamberlain's Cough Remedy a favorite with the mothers of small children. It quickly cures their coughs and colds and prevents any danger of pneumonia or other serious consequences. It not only cures croup, but when given as soon as the croupy cough appears will prevent the attack. For sale by A. G. Luken & Co., and W. H. Sudhoff, fifth and Main streets.

THE MARCH PEARSON'S.

The March Pearson's marks the fifth anniversary of this popular monthly. Beginning five years ago as little more than the reprint of the English edition, it has grown to be one of the most successful of the ten-cent magazines. The current number is far and away the best yet published. The cover design, by Charles Schreyvogel, illustrates an incident in Dr. Cyrus Townsend Brady's "Tragedy of Fort Phil Kearney," the first of a series of dramatic stories of Indian Fights and Fighters on our frontier; "A Girl Commands the Ship," by Halliwell Sutcliffe, is the second of a series of the jolly adventures of Captain Contraband, a gentleman smuggler of England. Captain Contraband and his lovely accomplice are introduced to Pearson's readers under the title of the "King and Queen of Smugglers." Bird Babies, by Jerrard Grant Allen and Leonard Buttress, is a charming little nature sketch, illustrated with excellent photographs. The third article in Mr. Henry George's series of Modern Methods of "Finance" is an explanation of the great Asphalt Trust Catastrophe, in which the small fortunes of thousands in all walks of life went to swell the coffers of a few.

There is an excellent character sketch of the young Crown Prince of Japan. His Highness, Yoshihito, by Florence Eldridge; T. C. Porter contributes an interesting article describing A New Way of Measuring the Diameter of the Earth, and Pearson's Talks with Players gives this month interviews with Kyrle Bell, E. M. Holland, Marie Tempest and Charlotte Wiehe, illustrated with sketches from life.

In fiction there are a number of good short stories—Dan Crimmins, Ross, by Arthur Hendrick Vandenberg, a story of ward politics; When the Revolution Came to San Sebastian, by Frank Lillie Pollock, the story of a novel way in which an enterprising South American coffee planter utilized an insurrectionary army; The "Precious Ones"—a bit of child nature, by Albert Bigelow Paine; Miss Amnerod's Tramp, by R. E. Verne, is the description of a clever ruse by which an enterprising young woman outwitted a belligerent tramp, The Lady Speaks, by J. S. Fletcher, a little English romance with a leap-year flavor, and the Billy Coal and Transfer Company, by Mabel Shippee Clark Pelton, a story of child life among the "poor whites" of the North Carolina mountains.

This is a story of actual conditions and of a real boy. In the Revelations of an International Spy, A. V. recounts the circumstances attending the tragic death of Queen Draga of Serbia, in which he vindicates the character of this unhappy princess. Another of Holman Day's characteristic poems, Job Brown, J. P., illustrated by Frank X. Chamberlain, and the customary Home Notes articles complete the number.

The magazine is an exponent of the "strenuous" life—with readable histories of the past and of the present, timely articles on the latest scientific discoveries, and crisp, bright fiction, whose heroes and heroines are "live" people.
