LIFE IS VERY UNCERTAIN

Many deaths are caused by people not taking the proper precautions about what they eat and allowing their stomachs to get in a terrible condition.

Bread is the STAFF OF LIFE — you eat it three times a day, 365 days in the year, and you should be particular what kind of bread you eat.

Hundreds of people are suffering from indigestion, partly caused from the bread they eat. The old time "cottony" baker's bread will wad up into dough balls and lay in your stomach, and often times it requires the aid of medicine to make it digest.

Ideal Bread is a PURE FOOD product, and we have spared neither time nor money in getting it to the point of "Bread Excellence." It is easy to masticate and easy to digest, and it is the result of the latest ideas of bread baking.

"Ideal Bread" is pure, wholesome and substantial. For sale by all groceries. Made only by the

OLD BONES

Oxford Officers Aroused by the Tro-
phies of a Medical Student.

Oxford, O., March 31.—A human skull and a number of human bones were found in a little box, in a pile of animal bones that had been purchased by Lou Conklin, a junk dealer yesterday. Marshall John Woodruff and Constable John Moon, investigated and found that Conklin had purchased the remains of the skeleton with some other bones and old iron from Harvey Boekover, who had been

living on the Joseph King farm near Springfield, Ind. It was learned that several years ago Frank King, then a young man, was a student of medicine and had the skeleton studying the different parts. He is now a practicing physician in a town in the Indiana gas belt. No disposition has been made of the little box of bones. They are piled up at present as old junk.
