

PAINFUL PERIODS

MISS AGNES MILLER

While no woman is entirely free from periodical suffering, it does not seem to have been the plan of nature that woman should suffer so severely. Lydia E. Pinkham's Vegetable Compound is the most thorough female regulator known to medical science. It relieves the condition which produces so much discomfort and robs menstruation of its terrors.

Women who are troubled with painful or irregular menstruation, backache, bloating (or flatulence), leucorrhoea, falling inflammation or ulceration of the uterus, ovarian troubles, that "bearing-down" feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound, and then write to Mrs. Pinkham, Lynn, Mass., for further free advice. Thousands have been cured by so doing, and by the use of

Lydia E. Pinkham's Vegetable Compound

"DEAR MRS. PINKHAM:—I suffered for six years with dysmenorrhea (painful periods), so much so that I dreaded every month, as I knew it meant three or four days of intense pain. The doctor said this was due to an inflamed condition of the uterine appendages caused by repeated and neglected colds.

"If young girls only realized how dangerous it is to take cold at this critical time, much suffering would be spared them. Thank God for Lydia E. Pinkham's Vegetable Compound, that was the only medicine that helped me any. Within three weeks after I started to take it, I noticed a marked improvement in my general health, and at the time of my next monthly period the pain had diminished considerably. I kept up the treatment, and was cured a month later. I am like another person since. I am in perfect health, my eyes are brighter, I have added 12 pounds to my weight, my color is good, and I feel light and happy."—Miss AGNES MILLER, 25 Potomac Avenue, Chicago, Ill.

"DEAR MRS. PINKHAM:—A while ago my health began to fail because of female troubles. The doctor did nothing. I remembered that my mother had used Lydia E. Pinkham's Vegetable Compound on many occasions for irregularities and uterine troubles, and I felt sure that it could not harm me at any rate to give it a trial.

"I was certainly glad to find that within a week I felt much better, the terrible pains in the back and side were beginning to cease, and at the time of menstruation I did not have nearly as serious a time as heretofore, so I continued its use for two months, and at the end of that time I was like a new woman. I really have never felt better in my life, have not had a sick headache since, and weigh 20 pounds more than I ever did, so I unhesitatingly recommend your medicine."—MRS. MAY HAULE, Edgerton, Wis., President Household Economics Club.

At first sparkling wines were only made in the French province of Champagne. In the early part of the nineteenth century the first experiments to manufacture sparkling wines were made in Germany. The wines, however, grown in Champagne are best suited for this purpose, hence most of the German firms manufacturing champagnes obtain their wines from Champagne and mix them with German wines.

Mme. Marie Paille, the autocrat of Parisian hairdressers, has decided that the hideous chignon is to come in again. All of feminine France doubtless will bow in submission to this decree, Englishwomen will fall into line, and it is not to be thought that Uncle Sam's daughters will lag behind. The chignon has been discarded as "about on a par, as a barbarian ornamentation, with the nose ring and the jangling bracelet. It is unsanitary."
