

KNIGHTS OF COLUMBUS

(Continued From First Page.)

The rendition of this degree requires an immense amount of labor throughout and it was rendered in this city as it was never done before, and the class of fifty-two candidates were more than pleased with the work. It was after 7 o'clock before the third degree was finished.

The Banquet.

A banquet was served in Masonic Temple at 8 p. m. by the ladies of the Knights of Columbus. The large hall was handsomely decorated for the occasion and the tables seemed to groan under their weight of good things. The service was perfect and under the supervision of Mr. John Zwissler it couldn't be otherwise.

After the banquet the literary program began.

William H. Kelley as master of ceremonies has few equals in that capacity and presided over that large assemblage with dignity and diplomacy, making many happy little speeches during the course of the program.

Rev. J. F. Mattingly, in his accustomed happy way, gave an address of welcome that made all feel glad to be present.

"Beneficence" was responded to by J. S. Fitzgibbons.

Rev. J. F. Stanton, who was to have responded to the toast, "Church and Order," was taken ill and could not be present.

"Possibilities" was the theme of Mr. C. M. Niezer of Ft. Wayne. Mr. Niezer is a member of the Ft. Wayne bar, and is a splendid speaker having a clear enunciation and forceable delivery. His remarks were well received and roundly applauded.

Rev. D. J. McMullen was called upon and made a nice talk on the "Occasion."

Hon. Wm. P. Breen, one of the leading attorneys of the state, and in fact the nation, and one of the attorneys selected by President Roosevelt to represent the Indiana bar at the meeting of the American Bar Association at St. Louis, made a happy speech, reviewing the work of the day, complimenting Richmond on the

conduct of the work, the splendid service rendered by the ladies, etc.

Mr. Niezer of Ft. Wayne, one of the best singers in the state, rendered two selections—"Violets" and "The Holy City" with orchestral accompaniment, as they were never rendered in this city before.

Mr. Michael O'Brien, who took a leading part in the work of the day made a few happy remarks.

During the course of the evening Runge's orchestra rendered some choice music.

Toastmaster Kelley closed the meeting with one of the happiest little speeches of the evening. He seemed full of the occasion and his remarks were of the warm-hearted kind.

The exercises were closed by the vast audience singing "America."

LETTER LIST

Ladies' List.

Bad indigestion is responsible for most cases of pale, lifeless complexions, blues, red noses and bad temper. Hollister's Rocky Mountain Tea positively cures all stomach troubles. 35 cents. A. G. Luken & Co.

"Ideal" is the original and genuine article.

AMUSEMENTS

On next Friday night the stage of the Gennett theatre will revel in the antics of "The Tenderfoot," unquestionably the most successful musical production of the season just closing in New York, where it held forth 100 consecutive nights at the New York Theatre. It met with the unqualified approval of all the Metropolitan critics, a fact in itself worthy of record. "The Tenderfoot" has a sparkling humorous and interesting book and a musical score remarkable for the number and quality of its tuneful melodies. The company numbers 75 people, including a cast embracing well-known artists, being nearly identical with the original New York cast. The engagement here is an interesting one from every standpoint, because "The Tenderfoot" marks an era of healthful cleanliness in musical plays. The Dearborn Theatre management has always stood for this quality, which will be found to be marked in this, their most recent and greatest success.

THE C. C. & L.

Now Has 315 Men on Pay Roll—Shop Large.

There are splendid indications of Chicago, Cincinnati & Louisville Railroad company's general repair shops here becoming the largest and most complete equipped in the state. Besides the large buildings now going up, another large building is yet to be constructed and it will be used for the woodwork department. All of these buildings are to have cement floors and will be heated by steam. An electric lighting plant is being fitted up in the stationary engine room and this will operate a lighting system throughout the shops.

A new one hundred horse power engine with the electric dynamos attached has just been placed in position and runs very satisfactorily.

The company now has 315 men on the pay roll here, but this number, of course, includes the road force of men.
