

RED

Red is the color of danger, whether on the semaphore or on the skin. When the face is reddened by eruptions, when boils break out on the body, or the angry red of sores and ulcers is displayed in the flesh, it is nature's danger signal. The blood is obstructed and tainted by impurities, and there can be no safety until the blood is made pure.

Dr. Pierce's Golden Medical Discovery purifies the blood, and removes the effete matter which clogs and corrupts it. It cures pimples, boils, eczema, scrofula, sores, ulcers and other consequences of impure blood.

"I feel greatly thankful for what your medicine has done for me. Met. Chas. Hood of Kalamazoo, Mich., suffered with scrofula of the head for two years. Tried every kind of medicine that I heard of but found no cure. Every one that looked at my head said they never saw anything like it. The last doctor I consulted with however, said to me, 'I don't know what is the matter with you, but it is not worse every day. Was so miserable that I was unable to do any work at all. After taking two or three bottles of your 'Golden Discovery' and the medical treatment prescribed for me, I was cured and my head was entirely free from scrofula."

Accept no substitute for Doctor Pierce's Golden Medical Discovery. There is no other medicine which is "just as good" for diseases of the blood and the eruptions which are caused by the blood's impurity.

FREE. Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send twenty-one one-cent stamps for the book in paper covers, or thirty-one stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

FREE TRADE TALK

Boston Theorists Have Things All Planned Out.

Boston, June 4.—The annual banquet of the American Free Trade League, held at Hotel Vendome last night, was especially notable in that the occasion marked the twentieth anniversary of the formation of the league and the 100th anniversary of the birth of Richard Cobden, the father of the free trade movement. The guests and speakers were Charles Francis Adams and Edward Atkinson of Boston and Louis R. Ehrlich of New York. Harvey N. Shepard of this city presided and about 150 members of the league were present.

Mr. Shepard declared that the United States eventually would have free trade and that it was as much out of place in a republic to have a protective tariff as it was to have an established church.

Charles Francis Adams, who was the first president of the league, paid a glowing tribute to the memory of Richard Cobden, and then arraigned the policy of protection, which he characterized as unjust to the common people. He was hopeful of the growth of a sentiment for free trade.

Edward Atkinson said that if this country would in truth become a world power and take its true position in the great commerce of the world, then it must remove the burdens upon its agriculture, manufactures and commerce embodied in our restrictive tariff, and by opening the door to the mutual service and mutual benefit of nations, compel European states to disarm in order to maintain any chance of competing with us except in the mere products of handicraft and of labor verging on pauperism.

The last speaker of the evening was Louis R. Ehrlich of New York, who denounced protection as unfair and dishonest and a policy of "legalized graft."

OVERLOOKED ORDERS

A Colorado "Flyer" Was Wrecked and Nine Persons Killed.

Kansas City, June 4.—Nine persons were killed and many injured in a collision of passenger trains on the Missouri Pacific railroad near Mastin City, fifteen miles south of Kansas City. The trains, which met head on, were the westbound Colorado Limited, No. 1 and the eastbound Heslington, Kan., accommodation, No. 36.

Train No. 1, the Colorado "flyer," had orders to meet No. 36 at Mastin. The crew, it is believed, overlooked its orders and met Train 36 south of Mastin tank about one and one-third miles south of Mastin. The engines were both large and were demolished. The day coach on the accommodation was telescoped, but the chair-car was not injured. The mail car on the "flyer" was telescoped and the end of the baggage car stove in.

A Profitable Export

Washington, June 4.—In a report to the department of commerce and labor, United States Consul Hamm says that notwithstanding the duty of 25 cents a bushel, Yorkshire, England, always is able to export to the United States large quantities of potatoes and sell them there at a profit. Mr. Hamm says the season of 1903 was especially unfavorable, the excessive rains causing a loss of fully one-third of the crop by rotting, despite which exports continue to be made to the United States.

Called Out the Militia.

Houston, Tex., June 4.—There was some turbulence in the streetcar strike, several men being hurt, but none seriously, and last evening the mayor ordered the Light Guards to disperse a crowd which had gathered about the offices of the streetcar company. The militia is held at the armory to await further orders. The streetcar company has secured a number of strike breakers and a few cars are running.

Entertainment Is Promised.

Washington, June 4.—Arrangements have been made for the reception of the visiting delegation of Philippine commissioners when they arrive in Washington June 9.
