BATTLE BEGINS

All Signs Point to the Actual Investment of Port Arthur.

HEAVY FIRING HEARD

The Nearest Cable Point Reports Continual Evidences of Active Bombardment.

Definite News From the beleaguered City is Shut Off From All Sides.

Che Foo, June 7.—A correspondent at Teng Chow cables that there was firing at Port Arthur last night, beginning at 11:30 o'clock and continuing for several hours. A junk arriving during the night from Dalny reports that there was heavy firing all day yesterday in the vicinity of Port Arthur.

London, June 7.—The correspondent of the Times aboard the steamer Haimun, telegraphing June 6, says: "It is pretty certain from intelligence received by the Japanese secret service that even if the channel of Port Arthur is practicable for large draught ships, there is not sufficient coal in Port Arthur for such vessels to take the sea. The explosions heard at Port Arthur are believed to have been caused by the demolition of certain government buildings. A portion of the Japanese Second army corps will hold the land approaches to Port Arthur until Talienway bay shall have been made practicable for a further debarkation.

"Meantime a screen of mounted troops is being pushed up beyond Kaiping for the purpose of allowing the reconstruction of the railroad to proceed as rapidly as possible."

JAPANESE ADVANCE

Another Army Landing on Eastern Coast of Liao Tung Peninsula.

Liao Yang, June 7.—Military interest is now centered upon the region of imminent operations. The Liao Tung peninsula. Another Japanese army is landing on the eastern coast as a counterweight to the Russian advance from Dashiiao southward upon General Oku's army.

The Japanese have seemingly given up the idea of attacking Liao Yang if they entertained such a plan. The rainy season, which is expected to begin in two or three weeks, would, it is considered here, render an advance to Liao Yang impossible. Meanwhile the Cossacks are keeping in touch with the Japanese outposts. Another force is watching General Kuroki's right wing north of the Yalu river.

The health of the troops is remarkable everywhere. There are no contagious diseases, and only a few cases of intestinal disorders, but medical authorities do not expect such immunity during the hot weather that is now beginning. The health of the troops is not attributed so much to sanitary precautions as to the simple but excellent diet. The Russians live principally on bread made of coarse flour and soup composed of meat and vegetables. They seldom drink ordinary water, thereby avoiding a principal source of disease.

More Russian Troops.

St. Petersburg, June 7.—It is said that the mobilization of the First army corps belonging to St. Petersburg province will be announced in a few days and that it will be followed by the mobilization of the Fifth and Sixth army corps of the Volga region. Probably a month will elapse before these corps are ready to start. In the meantime the Siberian railroad will be taxed to its utmost capacity in taking out the Tenth and Seventeenth corps now moving.

ILLINOIS FOR HEARST

The Editor Candidate Has His Forces Well in Hand.

Chicago, June 7.—William Randolph Hearst will be endorsed by the Illinois state convention as its candidate for the presidential nomination. That was practically decided at a roundup of Democrats held at the Sherman House. The Chicago people settled the matter. They represented that they had made a practical deal with the Hearst forces at the Democratic primaries in Cook county on May 2, and must stand by the bargain. The others agreed and so there is now practically no opposition to the Hearst endorsement, except such as Mayor Harrison and Congressman Williams may be able to make. That is not regarded as serious. The convention will meet at Springfield on June 21.

A Tremendous Earthquake.

Lima, Peru, June 7.—Tacna and Arica in Chile were shaken by a tremendous earthquake at 1:35 a. m. yesterday. The inhabitants ran into the streets in their nightclothes. The walls of many buildings were cracked and the sea agitated, but so far as reported no person was killed.

Will Be Paid on New Basis.

Washington, June 7.—Fourth Assistant Postmaster General Bristow announces that the salaries of the rural free delivery mail carriers will be adjusted on the basis of the number of miles traveled.

MANY HOOSIERS GOING

Indiana Will Be Well Represented at the Chicago Convention.

Indianapolis, June 7.—The migration of the Indiana Republican leaders to Chicago for the next national convention June 21 and 22, will begin the middle of next week. Congressman James A. Hemenway intends to be in Chicago by the 15th or 16th. Chairman Goodrich and United States District Attorney J. B. Keating are going about the same time. That so many of Senator Fairbanks' lieutenants are going so early may be regarded as significant, but they say that it is not. Mr. Hemenway says he wants to be on the ground early for the purpose of meeting his friends who are members of delegations from other states. Some of the party leaders here are inclined to contradict the predictions that there will be a larger attendance than ever before at the convention. They figure that the program is cut and dried and that there is not so much interest. However, it is not very likely that many of the men who are figured as party leaders will be absent. The fact that so many of them are arranging to be on the ground early is regarded as an indication that they are sure that Indiana will cut a very prominent figure. It may be stated on pretty good authority that the name of Senator Fairbanks for vice president will not be presented before the Chicago convention by the Indiana delegation. If the nomination comes there must be a spontaneous demand in which other states will have to take the lead. Men who are on the "inside" confirmed the report made public in these columns yesterday that there is to be no booming of Senator Fairbanks by the Indiana delegation, as it would be very distasteful to him. The senator, it was stated definitely today, is not anxious to have the nomination and will not accept unless there are circumstances over which he has no control. The reports that he had told a number of prominent Republicans in Indiana that he would accept were promptly and emphatically denied today by Congressman Hemenway.

Fremont Goodwine of Williamsport, who was yesterday renominated for senator from the district composed of Benton, Fountain and Warren counties, is one of the best known Republicans in Indiana. He has served with much credit to himself in the party and is known as a great friend of Governor Durbin. The latter twice appointed him a member of the legislative committee on visitation to the state benevolent and penal institutions and during the last session he introduced the "ripper bill." He was one of its staunch adherents. Just prior to the state convention there was an attempt on the part of the opponents of J. Frank Hanly to bring him out as a candidate for governor in hopes of dividing Hanly's Tenth district vote, but Goodwine refused to listen to the tempters, although it was said that he would have been a candidate for governor if Hanly had not entered the race first. It is already rumored that his friends may urge him for president pro tem of the senate.

Party leaders are much mystified over a conference held here yesterday afternoon by Congressman Hemenway, Congressman Watson, Chairman Goodrich, H. C. Starr of Richmond, and United States District Attorney Keating at the latter's office in the federal building. These men are the pillars of what is known as the Fairbanks organization, and that they should have held a secret conference at this time has excited much speculation, as it is generally believed they were discussing the Fairbanks vice presidential boom and what course should be pursued by the Indiana delegation. As all of them know how to keep their own counsel it is not certain just what was done. Mr. Hemenway was frank enough to state that he does not want Senator Fairbanks to accept and that other strong friends of the senator are of the same opinion. But whether or not they went to him with such a statement is not known.

Boodie Alderman Pleads Guilty.

Green Bay, Wis., June 7.—Alderman George J. Schwartz pleaded guilty to accepting three bribes aggregating \$130 from contractors and these furnishing material as used on city contracts. There are three other indictments against Schwartz. A change of venue to Fond du Lac county was taken in cases against Alderman A. L. Gray, City Attorney A. B. Fontaine and City Assessor X. Parmentier.

ATTENTION, FARMERS!

Why remain in the North and stay in doors six months in the year consuming what you raise during the other six months?

Go South where you can work out doors every month in the year, and where you are producing something the year round. If you are a stock raiser you know your stock are now "eating their heads off" and, besides have to be protected from the rigors of winter by expensive shelter.

Economical stock feeding requires the combination of both flesh-forming and fat-forming foods in certain proportions. Alabama and Florida produce in abundance the velvet bean and cassava, the first a flesh producer, and the latter a fat producer, and they are the cheapest and best fattening materials known to the world.

More money can be made and with less labor, in general farming fruit and berry growing and truck gardening along our road in the South than in any other section of the Union.

Triumphs of Modern Surgery.

Wonderful things are done for the human body by surgery. Organs are taken out and scraped and polished and put back, or they may be removed entirely; bones are spliced; pipes take the place of diseased sections of veins; antiseptic dressings are applied to wounds, bruises, burns and like injuries before inflammation sets in, which causes them to heal without maturation and in one-third of the time required by the old treatment. Chamberlain's Pain Balm acts on this same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness. Keep a bottle of Bain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering which such injuries entail. For sale by A. G. Luken & Co.; W. H. Sudhoff, 5th and Main Sts.
