

How to be Rid of Rheumatism.

Go after it with Athlophorus.

All forms of Rheumatism owe their origin to the presence of Uric acid in the blood. The mischief may show itself in any or several of the following shapes: Acute, Chronic, Inflammatory, Muscular or Rheumatic Fever. Severe attacks may be brought on by exposure, errors in diet, or neglect of the laws of health. But all result from an excess of Uric acid in the system! Uric acid will only yield to one remedy.

This remedy acts directly on the cause of the disease. A remedy that dissolves the Uric acid.

Athlophorus cures the system, purifies the blood, relieves inflammation and permanently cures even the most stubborn cases.

An interesting booklet, "Rheumatism—Its Cause and Cure," mailed on receipt of four cents in stamps.

A STATE OF WAR

That Is the Only Way to Describe the Cripple Creek Situation.

HAD A PITCHED BATTLE

Miners and Soldiers Come Together at Dunnville In a Desperate and Deadly Encounter.

One Man Was Killed and Fourteen Taken Prisoners—Martial Law Is Declared.

Victor, Col., June 9.—A pitched battle between the military and union miners was fought at Dunnville, the new mining camp, thirteen miles out of Victor, last evening. John Carley, a union miner, was killed. The troops returned to Victor, bringing with them fourteen captives.

It was reported before the special train left Victor for Dunnville, bearing the force under General Bell, that the miners in the hills about Dunnville numbered about 250 men and that it was their intention to march into Victor in a body and attempt to liberate by force the inmates of the temporary bull-pen in Victor. That the force actually consisted of but twenty-one men is the statement of one of the number that was taken captive.

The train proceeded to the immediate vicinity of Dunnville without unusual incident. When about a quarter of a mile distant from the Dunnville temporary station, the officers could see the camp of the miners. It included one cabin and six or seven tents. The officers left the train at the command of General Bell and prepared to advance on the camp of the unionists in regular skirmish order. As they emerged from the cut in which the train had come to a stop they were greeted with a volley of shots which came from the points of vantage surrounding the hills.

Deputies returned the fire to the best advantage possible, and promiscuous shooting was engaged in for a period of ten minutes. From the character of the shooting from the hills General Bell immediately recognized the fact that the strength of the miners had been greatly over-estimated and that he had sufficient force under his command to make an immediate round-up and capture the entire opposing force. Accordingly he divided the deputies and soldiers into seven detachments and these set out to make a complete clean-up of all the surrounding hills. Fourteen men were taken prisoners. A second battle took place later in the night. Seven soldiers sent on horseback to Big Hill, two miles east of Victor, to arrest union miners, found them entrenched. The men refused to surrender, and the soldiers opened fire. Over 200 shots were fired. The miners opened fire on the soldiers as soon as they saw them coming up the hill. No one was wounded. Seven men were captured by the guards and taken to Cripple Creek. Intense excitement again reigns here.

Fair Trial Guaranteed.

Cripple Creek, Col., June 9.—General Bell has appointed a commission to try all prisoners. "The prisoners will be treated fairly," said General Bell. "It is not my desire to inflict upon any of them punishment that they do not deserve, and as fast as this is practicable they will be sent away or placed in the class that will be held indefinitely. I intend that every man innocent of the crimes that have been perpetrated in the district shall go free, and everyone who is guilty shall be punished. I intend to have matters in shape within a few hours so that every business house and every mine in the district can open and proceed with business unmolested."

Factions Tired Out.

Cripple Creek, Col., June 9.—Teller county is once more under martial law and the military is in supreme command. Declaration of military rule has already had a salutary effect. All factions in the camp are tired of the long-drawn-out controversy, and are planning a settlement.

Another Side of It.

New York, June 9.—When Hannah Elias, the negro under arrest for extortion, goes on the witness stand in her own defense Friday she will tell, it is expected, a story of how she was blackmailed for years and how threats of the relations between herself and John R. Platt drew thousands of dollars from her, a great part of which money Platt furnished, knowing for what it was to be used. Following her testimony two warrants will probably be issued for persons who rendered professional services to the negro, one of them a physician and the other a lawyer.

To Enforce Wage Scale.

Chicago, June 9.—Two-thirds of the 205 boilermakers employed in the various shops of the Illinois Central system are on strike to enforce a minimum wage scale of 42½ cents an hour.

The Fifteenth Victim.

Peoria, Ill., June 9.—Adam Weiner, who was injured in the explosion which wrecked Corning's distillery Saturday, is dead of his injuries. This makes the total number of dead fifteen.

WILL NOT MIX IN

Our Government Cannot Take Part In Morocco's Affairs.

Washington, June 9.—The state department has received unofficial assurance through Mr. Gummere, who had it from the British consul at Fez, that the sultan of Morocco will accede to all of Raisuli's terms. The bandit's demand that Great Britain and the United States shall guarantee the execution of the sultan's promises, however, is the sticking point, and this probably can be gotten around only by the acceptance of this obligation by Great Britain or France, or some other country not so strongly bound as the United States by its traditions not to entangle itself in the international affairs of other countries. It is stated positively that under no conditions can the United States government execute these guarantees.

Raisuli Gains His Point.

Tangier, Morocco, June 9.—The sultan's letter in reply to the diplomatic representations made in regard to the kidnapping of Messrs. Perdicaris and Varley, has arrived here. It is said by a person in the sultan's confidence that the sultan has given orders to grant all of the conditions demanded by Raisuli, the bandit leader, in order to expedite the release of the captives.

Sultan Delays the Game.

Tangier, June 9.—The sultan has not yet complied with all of Raisuli's demands. Those unsettled will necessitate considerable further negotiations. There is no likelihood that the captives will be released speedily.

SEEKING THE TRUTH

British Government Going After Facts as to Congo Horrors.

London, June 9.—The correspondence relating to the administration of the Congo independent state was issued last evening. It contains the Congo government's preliminary reply to the report of Roger Casement, British consul in the Congo state, who in December, 1903, after completing a tour of investigation undertaken under the orders of the British government, fully confirmed the worst reports of outrages perpetrated on natives of that part of Africa.

Lord Lansdowne suggests the appointment of a special commission composed in part of persons not connected with the Congo state empowered to collect evidence and take measures for the protection of witnesses. If such a commission is appointed the British government would be prepared to place at its disposal all information respecting the affairs of the Congo and would give it every assistance, confidently believing that an independent commission would elicit the truth and effect a settlement.

Woman Held to Answer.

Chicago, June 9.—A coroner's jury returned an open verdict in the death of Louis Miller, the wealthy saloon-keeper, who died Monday after suffering with a bullet wound in his abdomen, and exonerated Mrs. Jennie Bailey, his fiance, who was held in connection with Miller's death. No sooner had Mrs. Bailey been exonerated by the coroner's jury than a constable with a warrant charging her with murder, rearrested her. The warrant was taken out by a brother of the dead man.

Breaking Up Work of Touts.

New York, June 9.—Thirty professional touts or racetrack tipsters were arrested at the entrance to the Gravesend track. It has been the practice of touts to crowd and push through the trains on the way to the races, soliciting passengers to purchase "tips" on horses on the day's racing card. The nuisance had grown to such dimensions that there is a general demand for its abatement.

Claims Self-Defense.

East St. Louis, Ill., June 9.—Ben Garrett, twenty-three years of age, was arrested at the National stockyards on the charge of having killed Mrs. Maria Cantatecos at Berden, I. T., on May 28. After he had been taken to the police station he admitted his identity and confessed that he had killed the woman, but he claimed that he did so in self-defense.

Dowie Lives High.

Berlin, June 9.—John Alexander Dowie has arrived here from Switzerland. He has taken rooms lately occupied by one of the Vanderbilts, costing \$40 a day. He addressed a crowded meeting depicting glowingly Zion City, near Chicago.

YOU GET QUICK, CERTAIN STRENGTH

From the Celebrated Nerve Vitalizer and Tonic, PAINE'S CELERY COMPOUND. It gives almost instant effect.

The Father's Letter.

"This is to thank Paine's Celery Compound for the good it has done. Our daughter quickly got well again by taking your medicine. She was very sick and tired and not strong enough to go to school and more. She got thinner every day. We nursed her all night many a time. Our next door neighbor sent us Paine's Celery Compound for her; in two days she was better so she could be up. She kept right on improving and now she is so well you would not think she had been sick." —Mr. and Mrs. John J. Klotzbucher, Chadwick St., Philadelphia.

The Daughter's Letter.

"My father sent you a letter to tell you how I was cured after I was so weak and poorly I had to leave school. I was thankful to Paine's Celery Compound. Now we are grateful still more for we cured our father by the same good medicine. He is a blacksmith and a very large man. He is six feet and one inch tall. He was up all night and working in the daytime. Before I began to get well he began to get sick without knowing it. He got so poorly that his face was thin and he was complaining of his head and trouble with his stomach. He would be sick in bed for the first time in his life. Now, I thought, Paine's Celery Compound would do him good. It cured him very soon. He is strong and healthy more than before; it is all the benefit of Paine's Celery Compound." —Katie Klotzbucher.

"I will sign, also, thanking Paine's Celery Compound, for it made my husband strong and well for us." —Mrs. J. J. Klotzbucher, Chadwick St., Philadelphia.

Paine's Celery Compound gives Strength and Health when he was almost a wreck.

Triumphs of Modern Surgery.

Wonderful things are done for the human body by surgery. Organs are taken out and scraped and polished and put back, or they may be removed entirely; bones are spliced; pipes take the place of diseased sections of veins; antiseptic dressings are applied to wounds, bruises, burns and like injuries before inflammation sets in, which causes them to heal without maturation and in one-third of the time required by the old treatment. Chamberlain's Pain Balm acts on this same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness. Keep a bottle of Bain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering which such injuries entail. For sale by A. G. Luken & Co.; W. H. Sudhoff, 5th and Main Sts.
