

Not Fatal.

No Matter What Doctors Say—We Know That Heart Trouble in Many Cases Can Be Cured.

There are seven main features of heart disease, viz.: (1) Weakness or Debility; (2) Rheumatism or Neuralgia; (3) Valvular Disorder; (4) Dilation; (5) Enlargement; (6) Fatty Degeneration; (7) Dropsy.

Documentary evidence will prove thousands of so-called "incurables" have been absolutely cured by Dr. Miles' New Heart Cure.

Patients often have no idea their disease is heart trouble, but ascribe it to indigestion, liver complaint, etc.

Here are some of the symptoms: Shortness of breath after exercise. Smothering spells. Pain in chest, left shoulder and arm. Discomfort in lying on one side. Fainting spells. Nervous cough. Swelling of feet and ankles. Paleness of face and lips. Palpitation. Nightmare. Irregular pulse.

"I have great faith in Dr. Miles' New Heart Cure, and speak of its merits whenever opportunity presents. I can now go up and down stairs with ease, where three weeks ago I could hardly walk one floor. One year later—I am still in good health; the Heart Cure did so much for me, that I find it a far greater medicine than you claimed it to be."—S. D. YOUNG, D. D., 637 North Pine St., Natchez, Miss.

FIRST WORK ON NEW BUILDING

FOUNDATION FOR FEDERAL STRUCTURE BEGAN TODAY

A LARGE FORCE OF MEN

Is at Work Tearing up Stumps, Digging Foundation Trenches Etc., Etc.

A large crowd of men numbering about fifty or more, was assembled yesterday around the site of the Federal building to witness the first work on the erection of the foundation of the building proper. The rain dis-

were dug from the ground after setting having witnessed the start. A few days ago a force of men were put at work erecting a small building which should be suitable for an office and this work was finished this afternoon. The rain and general disagreeable weather has caused a postponement of a part of the work. Several stumps were dug from the ground after severe struggles on the part of horses and men and the stones which formed the foundations of the two houses which formerly stood there were hauled away. Everything to be used about the federal building will be new and of the strongest and most durable material. Mr. Spear will make the building one that Richmond may well be proud of, keeping of course, well within the contract price, which is high enough to build an especially fine structure. This morning the trenches for the foundation were begun and a good sized force of laborers set at work at digging them. The cellar will not be a very large one, but large enough for the purpose.

The work is attracting attention of the passerby and comment is free upon the work. The preparations have been systematic and business like and the work will go on at a rapid clip. The foundation is expected to be entirely completed within two weeks at the most.

AMENDMENT TO BE PRESENTED

FOR ABOLISHING OF HOG PENS IN CITY LIMITS

AT COUNCIL SOON

Probabilities are That it Will be Passed—Fight Against it is Expected.

It is probable that at the next session of the city council the amendment to the city ordinance on hog pens, will be presented, backed by the health authorities of the city and all who wish to make Richmond as clean as possible. As before stated the proposed amendment disposes entirely of hog pens in the city limits. The ordinance now in effect allows five hogs to each family within the corporation boundaries, and the amendment will allow none. It is said that this will be a blow to several poor families that keep hogs, deriving from them meat and money on their sale. While this may be true in a way, there are but a very few who would not rather work harder without hogs than to have this source of filth and disease in their backyards, even though a small profit may be derived therefrom. That the amendment will be fought is not doubted, but the health authorities are confident of getting it passed. Several of the councilmen have approved the amendment and it is to be hoped that it will be passed. The amendment, when completed, will call for "the abolishing of all hog pens within the limits of the city of Richmond."

A PROMPT HEADACHE CURE.

Probably no form of suffering is so general as that caused by headache. The value of time lost through this complaint is something stupendous.

If you are subject to headache from overwork or mental exhaustion—throbbing or splitting headache, nervous headache, or headache caused by indigestion—you should seek relief before the trouble becomes chronic.

Phen-a-mid Tablets are an invaluable remedy for all forms of this trouble. They are prescribed by hundreds of reputable physicians throughout the country, and are used extensively in hospital practice.

Phen-a-mid Tablets contain no injurious drug and never depress or weaken the heart. They may be safely administered by any one.

Phen-a-mid, the great pain destroyer, is a positive and speedy cure for headache and all forms of pain, including Neuralgia, Backache, Rheumatism, Sciatica, and is very efficient in all cases of Colds, Chills and Fever. No family can afford to be without a bottle of Phen-a-mid in the house. 25 cents at the druggist's, or by mail from the manufacturers, Osborn-Colwell Co., 46 Cliff street, New York. 1-5.

MODELS OF AMERICAN WARSHIPS.

Every Type of Man of War Represented in Miniature.

Of all the men employed by any one establishment in any other line of business, there are none probably whose patriotism exceeds that of the regiment of men employed by Barnum & Bailey's Greatest Show on Earth. This how during its long career of nearly thirty years, since Mr. A. J. Bailey effected the consolidation of his show with the show of the great and only P. T. Barnum, has made a number of trips abroad to foreign lands and each time has returned home with renewed love for American freedom and American institutions generally. Their last trip abroad, to foreign lands should emfwp mbr which was concluded nly last October, was for a period of five years and it took them in to nearly all the countries of Europe. When the huge steamship "Minneapolis" which brought the show back, arrived at its dock at Pier No. 40, North River, New York City, it presented a most amazing spectacle of men and women dancing, throwing their hats in the air and the eyes of many of them streaming with tears in very joy at reaching home again. With these people love of country is more than mere patriotism; it is their religion. One need only show the American flag to cause them to raise their hats in grateful salutation to "Old Glory." Perhaps the most enthusiastic patriot of them all is Mr. J. A. Bailey and he has given a most practical turn in the way of manifestation of

his patriotism.

The show had been abroad some two months when the "Maine" was blown up in the harbor at Havana. The rapidly succeeding months in which the history of the Spanish-American War was made followed and he saw the rapid transition of the regard for vast establishment from a matter of idle curiosity to profound respect. It was the battle in Manila Bay and in front of Santiago by the navies of the United States and Spain that brought about this vast metamorphosis in the consideration of America and it caused in him a determination to do his share toward inculcating among his fellow-countrymen an appreciation of the necessity and a proper regard to the value of a powerful American navy. He has done this by causing to be constructed eleven models of as many American naval war vessels representing the various types, from the submarine boat to the largest man-of-war. He enlisted the aid of the government itself in this project and was supplied for the purpose of securing an absolute reproduction of these vessels, the original Government plans upon which the vessels were built. Subsequently he secured the services of Mr. Charles F. Dressler, the expert electrician and mechanic of the College of the City of New York, who had the reputation of being the finest constructor of models in America, to reproduce these models of American navy vessels for him. The result of which is an exhibit the like of which has never before been seen in this or any other country. The vessels are built upon the generous scale of one-quarter inch to one foot and every line and every detail of these vessels, their equipment and their armament is reduced to this scale with absolute fidelity and exactness, to that measured by the most delicate instrument will not vary the thousandth part of an inch from absolute scale from stem to stern and front keel to topmast. This exhibit in itself is well worth any one's time and trifling expense necessary to see it. It is a single item and a single feature in the enormous exhibition of Barnum & Bailey's Greatest Show on Earth, which will be here on Friday, July 8.
