

The New Way to Health

With the discovery of VITONA, the "New Way to Health," there is really no longer any excuse for remaining sick. This remedy acts on all the vital organs directly through the blood, which is the only scientific way to prevent and cure disease. If you are suffering from any disease, it is best to consult a physician. The Liver, Kidneys and Stomach are highly sensitive. Every disease to which we are subject is the result of some derangement of one of these organs; and the state of the blood is back of it all. Nature has her own way of warning us of the approach of disease. Here are a few of her danger signals:

SIGNS OF BAD BLOOD

Indigestion, Headache, Coated Tongue, Backache, Sallow Complexion, Poor Appetite, Exhaustion, Biliousness, Constipation or Spleenitis.

Is your blood pure? It isn't—if you even have **SINGLE ONE OF THESE SYMPTOMS**. An occasional headache may seem a trifling malady, but it is frequently a symptom of disease that checked in time may lead to serious, perhaps fatal, results. Protect it! Ask **TODAY** for "VITONA," the prescription of a physician who has tested it thoroughly in private practice and has demonstrated in hundreds of cases just what it will do! Your blood is your life! Written guarantee given with each bottle.

**A NEW RESORT
FOR SWIMMERS**ICE POND WILL BE FITTED UP
BY E. K. SHERA**A SWIMMING POOL**

Resort Will be Opened Next Monday

—Many Improvements to be
Made.

Within another week the people of Richmond, men, women and children, will have an up-to-date swimming pool, which, if it has not marble shower baths, elegant dressing rooms, etc., has at least the advantage of being out of doors. Not will the dressing rooms be lacking in any sense, although they will not be marvels of excellence.

The double pond about five hundred feet north of the Glen Lake, known as the "ice pond" will be transformed into a swimming pool by Mr. E. K. Shera. The bottom will be dredged, all the weeds and the few posts now in it taken out, and the mud removed from the bottom so as to make a hard, smooth, level. The two ponds, which now are separate, will both be cleaned and arranged so that if wanted they may both be made to form a single lake of good sized proportions.

Mr. Shera said this morning that fine spring-boards would be placed in the banks and that everything possible would be done for the accommodation of the patrons of the pool.

Two good sized buildings on the banks of the lakes will be fitted up in good style and used as dressing rooms, for men and women respectively. They will have many modern appliances and everything will be fitted up in a thorough manner.

Mr. Shera said this morning to The Palladium, "The swimming pool will be ready for use by Monday probably and by Tuesday at the latest, if nothing intervenes. Tomorrow we will have houses and dredges out and everything will be cleared up, the bottom scraped, the dressing rooms fitted up, etc. The price for the season will be \$1.00 per person and the season tickets will be good all this year. We hope to make a paying investment, and if the pool proves popular enough to warrant it, we intend to do things on a more elaborate scale next year. The rules will be simple, just these—'There shall be no swearing or profane language spoken on the grounds. No blackguardism or other acts will be tolerated for an instant. Behave yourselves.' The resort will not be a cheap affair, nothing of the sort, but we hope to gain the patronage of a number of Richmond people."

A large number will join the swimming pool association and this year at least, it will not prove a losing venture.

Richmond has long needed something of this kind, and many complaints have been registered on account of the lack of it. This will be a great boon for a large number of the local people.
