## Rev. Ellis Is Insane Says Board

SIX OF RICHMOND'S LEADING  
DOCTORS TAKE PART

VERDICT UNANIMOUS

Regular Board Consisted of Dr. I. S.  
Harold, Dr. Johnston and Dr.  
Davis.

Six of Richmond's leading physicians and Judge Abbott and several witnesses have examined the Rev. Elwood O. Ellis and the unanimous verdict is that he is insane, suffering from paresis. Each of the six physicians—Drs. Harold, Grant, Stephenson, Johnston, Marvel and Davis, spent an hour with Mr. Ellis yesterday and satisfied themselves of his condition.

This morning the examination required by law was conducted by Drs. Harold, Johnston and Davis and Judge Abbott, while the other doctors were used as witnesses together with Samuel Cowgill, Myrtle Winslow (a sister) Joseph Mills and Arthur Ellis.

The examination lasted some time and resulted in a unanimous verdict if insanity, the kind of insanity resulting from paresis.

The inquest was held in the office of Squire Abbott. The board recommended that Mr. Ellis be confined in an asylum for treatment. Arrangements have been made to have Mr. Ellis taken to the sanitarium at Oxford, Ohio, today.

After the doctors had spent the greater portion of yesterday with Mr. Ellis he told Dr. Harold he thought he was thoroughly examined by the doctors.

The action of the board will certainly be a great relief to the family and friends of Mr. Ellis, who have been suffering under the terrible strain for so long.

## LATIN IN NEW YORK

Foreign Born Children Can Communicate in No Other Way.

New York, July 19.—Latin, the pure Latin of Cicero, Caesar and Virgil, supposed to be a dead language, is a living tongue in this city, and a mighty useful one, too. In all Roman Catholic colleges and secondary schools Latin is taught, of course, very thoroughly and carefully. In many of these institutions Latin conversation is practiced as it is in Catholic schools alike in France, Italy, Germany and Ireland.

And educated Catholic immigrants,

unacquainted with English, find it possible to get along away from their own countrymen by use of the common tongue.

For example, the other night a reporter wanted to interview an Italian woman in Brooklyn who spoke no English. A German priest, ignorant of Italian, offered to help. He found an Italian boy just two weeks in this country, hailed him in Latin and pressed him in as interpreter. The reporter would ask a question in English, the priest would turn it into Latin, and the boy would put it to the woman in Italian. The answer would travel back from Italian to Latin and thus to English. The priest and the boy kept it up for a quarter of an hour and were never stumped once.

"I use Latin in a third of my parish work," said the priest. "It is really of more practical use to me than any living tongue except English."
