

JUMPING UP

Is a great deal harder than jumping down. And yet people who have been for years running down in health expect to jump back at once. It takes years generally to make a man a confirmed dyspeptic, and he cannot expect to be cured in a few days.

There is no quicker means of cure for dyspepsia or other forms of stomach trouble than by the use of Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition and builds up the body with sound flesh and solid muscle.

"I was taken sick two years ago," writes Rev. W. H. Patterson, of White Cloud, Ark., "with what the doctors called a gastric indigestion or nervous dyspepsia, also constipation and inactive liver. Tried many different doctors with but little result. I had gotten so feeble that I was almost past traveling about; had got down to 114 pounds. I went to the two bottles of 'Golden Medical Discovery,' and got the 'Pellets' and began following directions. When I had taken about a dozen of them, I felt very much better and was greatly improved, and weighed one hundred and thirty-eight pounds. I will say that Dr. Pierce's medicines are the Godsend to poor suffering humanity, and I advise any and all chronic sufferers to give them a fair trial, and they will be satisfied."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach.

Dr. Pierce's Pleasant Pellets cure biliousness and sick headache.

PEOPLE TRUST HIM

President Roosevelt Has Won the Confidence of the Country.

WAS NOMINATED AT THE FIRESIDE

Senator Beveridge's Eloquent Tribute to Republican Standard Bearer—The American People Will Elect Him Because They Know That He Does the Things the People Want Done.

One of the most notable speeches of the Chicago convention was that of Senator Albert J. Beveridge seconding the nomination of President Roosevelt. His stirring words moved a vast audience to enthusiastic demonstrations. Senator Beveridge said:

One difference between the opposition and ourselves is this: They select their candidate for the people, and the people select our candidate for us.

This was true four years ago when we accepted the people's judgment and named William McKinley, whose perfect mingling of mind and heart, of wisdom and of tenderness, won the trust and love of the nation then and makes almost holy his memory now. His power was in the people's favor, his shrine is in the people's hearts.

It is true today when we again accept the people's judgment and name Theodore Roosevelt, whose sympathies are as wide as the republic, whose courage, honesty and vision meet all emergencies, and the sum of whose qualities make him the type of twentieth century Americanism. And the twentieth century American is nothing more than the man of '76 facing a new day with the old faith.

No Seer Could Foretell.

American methods changed, but American character remained the same. They outlived the stage coach, but not the Bible. They advanced, but forgot not their fathers. They delved in earth, but remembered the higher things. They made highways of the oceans, but distance and climate altered not their Americanism. They began as children of liberty, and children of liberty they remain. They began as servants of the Father of Light, and his servants they remain. And so into their hands is daily given more of power and opportunity that they may work even larger righteousness in the world and scatter over ever widening fields the blessed seeds of human happiness.

And these tasks as they come we will accept and accomplish as our fathers accomplished theirs. And when our generation shall have passed and our children shall catch from our aging hands the standard we have borne, it will be the old flag of Yorktown and Appomattox and Manila bay; the music to which they in their turn will then move onward will still be the strains that cheered the dying Warren on Bunker Hill and inspired the men who answered Lincoln's call; and the ideals that will be in them triumphant as they are in us, will still be the old ideals that have made the American people great and honored among the nations of the earth.

The people's thought is his thought; American ideals, his ideals. This is his only chart of statesmanship—and no other is safe. For the truest guide an American President can have is the collective intelligence and massed morality of the American people. And this ancient rule of the fathers is the rule of our leader now.

Theodore Roosevelt is a leader who leads; because he carries out the settled purposes of the people. Our President's plans, when achieved, are always found to be merely the nation's will accomplished. And that is why the people will elect him.

They will elect him because they know that if he is President we will get to work and keep at work on the canal. After decades of delay when the people want a thing done, they want it done.

They know that while he is President the flag will "stay put," and no American advantage in the Pacific or the world be surrendered. Americans never retreat.

While he is President no wrongdoer in the service of the Government will go unwhipped of justice. Americans demand honesty and honor, vigilant and fearless.

While he is President, readjustment of tariff schedules will be made only in harmony with the principle of protection. Americans have memories.

While he is President peace with every nation will be preserved at any cost, excepting only the sacrifice of American rights, and the vigor with which he maintains these will be itself a guarantee of peace.

People Will Elect Him.

The American people will elect him because, in a word, they know that he does things the people want done; does things, not merely discusses them—but does things; and does only those things the people would have him do. This is characteristically American; for wherever he is, the American is he who achieves.

On every question all men know where he stands. Americans, frank themselves, demand frankness in their servants. Uncertainty is the death of business. The people can always get along if they know where they are and whither they are going.

His past is his proof. Every great measure of his administration was so wise that, enthusiastically sustained by his own party, it won votes even from the opposition.

Do you name Cuban reciprocity? The opposition resisted and then opposition votes helped to ratify it.

Do you name corporate legislation? The opposition resisted and then opposition votes helped to enact it.

Do you name the canal—that largest work of centuries, the eternal wedding of oceans, shrinking the circumference of the globe, making distant peoples neighbors, advancing forever civilization all around the world? This historic undertaking in the interest of all the race, planned by American

statesmanship, to be wrought by American hands, to stand through the ages protected by the American flag; this vast achievement which will endure when our day shall have become ancient, and which alone is enough to make the name of Theodore Roosevelt illustrious through all time—this fulfillment of the republic's dream accomplished by Republican effort, received votes even from an opposition that had tried to thwart it.

Love Him as a Man.

Of what measure of Theodore Roosevelt's administration does the opposition dare even to propose the repeal? And when has the record of any president won greater approval?

And so the people trust him as a statesman. Better than that, they love him as a man. He wins admiration in vain who wins not affection also. In the American home—that temple of happiness and virtue where dwell the wives and mothers of the republic, cherishing the beautiful in life and guarding the morality of the nation—in the American home the name of Theodore Roosevelt is not only honored, but beloved. And that is a greater triumph than the victory of battlefields, greater credit than successful statesmanship, greater honor than the presidency itself would be without it. Life holds no reward so noble as the confidence and love of the American people.

The American people! The mightiest force for good the ages have evolved. They began as children of liberty. They believed in God and his providence. They took truth and justice and tolerance as their eternal ideals and marched fearlessly before them—they subdued them. Mountains rose—they crossed them. Deserts obstructed—they passed them. Their faith failed them not and a continent was theirs. From ocean to ocean cities rose, fields blossomed, railroads ran; but everywhere church and school were permanent proof that the principles of their origin were the life of their futurity.

No Seer Could Foretell.

Indianapolis, Aug. 4.—The Democrats of Indiana in adjourned session yesterday nominated a ticket to lead the forces of that party in this state during the campaign, adopted a platform of principles upon which to stand in the conflict now being waged, and adjourned after a record-breaking session of three hours. Everything was done literally with "neatness and dispatch," the tumultuous scenes which marked the first session of the convention a few weeks ago being entirely lacking. There were but four ballots taken, all nominations being made by acclamation save those for lieutenant governor, reporter supreme court, statistician and superintendent of public instruction. In these latter cases the nominee in each instance was an easy winner, therefore the convention was wholly lacking in sensational incident. The platform, a lengthy document, after reaffirming the St. Louis declaration, turns to state issues and scores the claims of the present administration to a wise and economical management of the state's affairs, which are denounced as "false in statement and implication," and a long series of figures is presented to show that former Democratic administrations are, after all, responsible for whatever of good showing in a financial way has been made under the present administration. Governor Durbin is not spared in these platform declarations, his administration is declared to be "a mournful and humiliating illustration of the decadence of the Republican party in Indiana under its present leadership." The platform concludes by pledging a repeal of the metropolitan police law if the party is given power to act.

IN RECEIVER'S HANDS

Farmers' Livestock Insurance Company Finds Itself Embarrassed.

Greenfield, Ind., Aug. 4.—Edgar Underwood, a stockholder of the United Farmers' Livestock Insurance company, has asked for the appointment of a receiver for the company, which was incorporated in 1902 and has been doing an extensive business in Hancock, Henry, Wayne, Madison, Delaware, Marion and Randolph counties. Numerous livestock owners in all the counties named hold policies in the company. The complaint alleges that the liabilities exceed \$1,000, with "no money nor property with which to pay." Thomas H. New has been appointed receiver. The suit is the outgrowth of an effort on the part of Edgar Underwood to collect \$100 on a policy held by him. The offices of the company are in this city.

Mail Was Destroyed.

Wabash, Ind., Aug. 4.—The general store of William Templeton, in Treaty, this county, burned. An oil tank filled with oil ignited, followed immediately by the explosion of two large cans filled with powder, wrecking the buildings. The store contained the postoffice and telephone exchange. No mail was saved.

Sick Headache.

"For several years my wife was troubled with what physicians called sick headache of a very severe character. She doctored with several eminent physicians and at a great expense, only to grow worse until she was unable to do any kind of work.

About a year ago she began taking Chamberlain's Stomach and Liver Tablets and today weighs more than she ever did before and is real well," says Mr. Geo. E. Wright of New London, New York. For sale by A. G. Lukens & Co., and W. H. Sudhoff, Fifth and Main streets.
