MARRIED OVER SEVENTY YEARS

ARE MR. AND MRS. WALTER CARPENTER, BOTH OVER 90.

WEAR OLD TIME GARB

Two Friends Are Growing Old Gracefully—Mr. Carpenter's Fine Record.

Perhaps no place in the country furnishes a more striking example of growing old gracefully than is seen in the case of Mr. and Mrs. Walter T. Carpenter, of this city. Both are now past 90 years of age and for more than seventy years they have been traveling life's road together. Despite their advanced age both are in fair health and they are active. Twice a week their carriage may be seen going to the Quaker meeting house, where for so many years they have attended services.

Mr. Carpenter takes care of his own horse and it is no uncommon thing to see him riding horseback, sitting as straight as a man thirty years his junior might do. Mr. and Mrs. Carpenter are among the few who cling to the garb that was once a distinguished mark of the Quaker—quaint bonnet and plain dress for the woman and high hat for the man. They are typical of a generation that has passed never to return.

Superintendent of Earlham.

Mr. Carpenter was born in Albany, N. Y., January 1, 1811, and is now 94 years old. His wife, who was Susan Mabie, was born in New York, December 27, 1811, and is nearly 93 years old. A great deal of their married life was spent in Ohio. They resided at different times in Clinton and Warren counties, at Wilmington and Cincinnati. When they removed to Richmond it was that Mr. Carpenter might take the superintendency of Earlham College, a position that he filled with credit for fifteen years. After retiring from the position he was still active in the management of the institution.

Now, in the evening of their life, Mr. and Mrs. Carpenter are living in peace and happiness within sight of the institution in which both have taken so much interest. The ending of their pilgrimage will be a fitting climax for the long and useful life they have led.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

THANKFUL PEOPLE AN INDIANA HEIRESS

They Are Found in Every Part of Richmond.

Many citizens of Richmond have good reason to be thankful for burdens lifted from aching backs, which they bore patiently for years. Scores tell about their experience publicly. Here's a case of it:

Mrs. L. Aldrich, of 407 North Thirteenth street, says: "For several years my kidneys were out of order and two or three times each year I was laid up and had to take medicine. I had at such times constant aching pains through my loins and in the kidneys. I could not rest comfortably and in the morning was lame and sore all over and was often scarcely able to get up. Learning about Doan's Kidney Pills I secured them at A. G. Luken's drug store and began taking them. I soon felt better and continued to improve steadily until cured."

For sale by all dealers. Price 50 cents a box, Foster-Milburn Co.

ICE MINE

In West Virginia Supplies a County With Cold Storage.

(Wheeling (W. Va.) Cor. Chicago Inter Ocean.)

The greatest natural curiosity in West Virginia is the ice mountains in Hampshire county.

The mountain, which is 4,000 or 5,000 feet in height, is situated about 16 to 18 miles beyond Romney, on a mountain road, and is known to many of the people thereabouts as the "mountain of ice."

One side of the mountain—the western—is covered from apex to the river's edge with loose ore or shale to the breadth of at least a quarter of a mile. Beneath this shaly rock, no matter at what season of the year, there is always plenty of ice to be found. When the natives want to get a supply of ice they go to the mountain, lift up some of the flat stones, and dig or pick out all the ice they want. Ice has been got there as late in the season as September 15, and that always near the surface.

The people say that there is plenty of ice the year round, only requiring a little deeper digging to get it. Snakes and other reptiles which seek to cross the spot on which ice is found freeze and become torpid before they succeed, as the frozen and dead bodies of many found lying on top of the ground go to show.

Nothing will grow on or near the ice deposit; it is too cold for that.

Below, at the foot of the mountain, a progressive farmer has built a big log dairy or cold storage house. The log structure has been erected partly in and partly beyond the earth, and the interstices between the logs for the depth of several feet on the mountain side are packed full and tight with ice, while the same frozen liquid covers the floor to the depth of several inches.

No effort is made to keep out reptiles, for, although meat, butter, eggs, &c., are kept in the dairy, as it is called, snakes and other such vermin always become torpid before they can do mischief.

This strange curiosity has been known for some time, but only lately have the people concluded to put it to use.

The only explanation of the freak given by persons familiar with the ice mountain is that the part of the mountain where the ice is found is composed of loose rock or shale, and that during the rainy seasons the spaces in the loose rock are filled with water, which during the long, hard winters which prevail in that section freeze so solid that the heat and rains of summer never reach it strong enough to melt it.

Better Than a Plaster.

A piece of Flannel dampened with Chamberlain's Pain Balm and bound on the affected parts, is better than a plaster for a lame back and for pain in the side or chest. Pain Balm has no superior as a liniment for the relief of deep seated, muscular and rheumatic pains. For sale by A. G. Luken & Co., W. H. Sudhoff, fifth and Main streets.

MRS. MICHENER OF MT. CARMEL EXPECTS TO RECEIVE

\$150,000,000 FORTUNE

With Others She May Get a Vast English Estate—Pressing Her Claims.

Indianapolis, Ind., September 14.—Believing she is one of the principal heiresses to an old English estate valued at \$150,000,000, Mrs. Telitha Jane Michener, of Carmel, Ind., together with relatives, has engaged English attorneys to press her claim.

If Mrs. Michener can prove that she is entitled to her share of the estate she will receive about \$15,000,000. Other relatives, of which there are about fifty in this state, will also receive large portions.

Mrs. Michener says that her grandfather, Lord Lawrence, at one time owned two counties in England, upon which he erected a palace known as Marble Hall. After his death, years ago, in some manner his wife, Lady Lawrence, did not come into his estate. She died several years ago in England.

For years John Mazingo, of Greentown, Ind., a cousin of Mrs. Michener took it upon himself to look up the descendants and try to claim the estate. After long correspondence he was convinced that his relatives were entitled to the money and immediately notified them.

About a week ago Mrs. Michener received a letter stating that she was one of the principal heiresses and that if all went well she would receive \$15,000,000. Yesterday she received another letter stating that all that was now necessary was some small matter of looking up several marriages and births.

Mrs. Samuel Michener, a daughter, said last night that her mother has already said what she would do with the money. Part of it she would divide among her eight children, and the rest she would use in building a fine residence, and place some on interest that she might live comfortably the rest of her life.

Cholera and Diarrhoea Remedy.

In Praise of Chamberlain's Colic, "Allow me to give you a few words in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mr. John Hamlett, of Eagle Pass, Texas. "I suffered one week with bowel trouble and took all kinds of medicine without getting any relief, when my friend, Mr. C. Johnson, a merchant here, advised me to take this remedy. After taking one dose I felt greatly relieved and when I had taken the third dose was entirely cured. I thank you from the bottom of my heart for putting this great remedy in the hands of mankind." For sale by A. G. Luken & Co., W. H. Sudhoff, fifth and Main streets.
