

Benbow Balloon Demonstrates Its Dirigibility.

St. Louis, Mo., Nov. 4.—The trip on Thursday at the World's Fair by the airship meteor, invented and built by T. C. Benbow, of Columbus, Montana, with the collaboration of H. J. Wells, of the same place, demonstrated the dirigibility of the machine. Mr. Benbow propelled it in various directions and at different angles, raising and lowering it in the air several times, and finally returning to the place of starting.

The Benbow dirigible balloon is constructed on entirely different principles from the Baldwin, which had made such a brilliant successful flight on the 25th. It is also much larger, the cigar-shaped bag being seventy-four feet long, and 21 1-2 feet in diameter, with a capacity of 14,000 cubic feet, and carrying a weight of 900 pounds. Directly beneath the central line of the gas-bag and attached to its cords, is a horizontal spar, about two-thirds as long as itself, made of steel with the exception of a short prolongation of bamboo aft to which the rudder-post is attached. From this rod is suspended the car proper, which is a framework of aluminum sustained by steel rods and further strengthened with braces of piano wire. The car, which is prolonged fore and aft into long beaks similar to and parallel with the main spar, is divided into two compartments, the forward one containing a ten-horse power Hercules-gasoline engine, and the other rectangular wicker basket in which the aeronaut stands. The gasoline tank is in front of the basket and is connected with the carburetor and engine is kept cool by an ordinary electric fan wheel attached immediately in front of it.

The propelling apparatus is geared to the engine by a broad leather belt, consists of two wheels, one on each side of the car and at the exact center of gravity of the whole apparatus. These wheels are twelve feet in diameter, and make eighty revolutions a minute. Each is composed of four six-foot blades or wings, made of canvas stretched on bicycle tubing with piano-wire braces. The wings are collapsible and by an ingenious mechanical device are made to close up at every revolution, remaining open just long enough to seize and grasp the air, and presenting a minimum of resistance while returning to the point of greatest efficiency. This application to aerial navigation of the principles governing the motions of the human hands in swimming and the change of position of the vases on the feathers of birds during flight, is looked upon by Mr. Baldwin and other aeronautical experts at the Exposition as of great and unquestionable value. The operation of the wings may be modified, by means of a crank placed conveniently to the hand of the navigator, is such wise as to make the vessel ascend or descend in the air at will. While the vertical direction is thus controlled by causing the opening and closing of the wings to take place at different points in their revolution, the horizontal direction is governed by means of a cord attached to a rectangular rudder, eight feet by five, made of canvas stretched on a bamboo frame.

A three pronged anchor is swung over a pulley at the bow, and is let down by means of a hundred feet of rope coiled at the side of the basket. It is considered a special merit in this form of airship that is able to gradually rise or sink by means of a hundred feet of rope coiled at the side of the basket. It is considered a special merit in this form of airship that is able to gradually rise or sink by means of a hundred feet of rope coiled at the side of the basket.

Nasal CATARRH

In all its stages there should be cleanliness.

Ely's Cream Balm cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spread over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Drug stores or by mail; Trial Size, 10 cents by mail.

ALY BROTHERS, 56 Warren Street, New York

Every Woman

is interested and should know about the wonderful **MARVEL Whirling Spray**. The new Vaginal Syringe. It cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Ask your druggist for it. If he cannot supply the MARVEL, send no money, but send stamp for illustrated book—will give full particulars and directions in valuable to ladies. **MARVEL CO., Times Bldg., New York.**

CHICHESTER'S ENGLISH PENNYROYAL PILLS

For Biliousness, Indigestion, Headache, Neuralgia, Rheumatism, Gout, Gravel, Catarrh of the Bladder, and all the ailments arising from a disordered state of the bowels. They are the only pills that can be taken with perfect safety, and they are the only pills that can be taken with perfect safety, and they are the only pills that can be taken with perfect safety.

French dirigible balloon belonging to Hippolyte Francois and the very remarkable man-power flying machine of A. L. Reynolds; to say nothing of several man-lifting kites and aeronaut planes.

DEPARTMENT DAY

Will Be Celebrated at First M. E. Church Next Sunday.

At the First M. E. church next Sunday will be Home Department day. The Sunday school has arranged to make the day one of profit to the members of the Home Department as well as to the school itself.

Dr. Swadener will preach an excellent sermon in the morning bearing upon the work of this department of the Sunday school, while the remainder of the service will be appropriate to the occasion.

White ribbon badges bearing the words Home Department have been furnished each member accompanied by the following invitation:

Richmond, Ind., Oct. 31, 1904. Dear Friend:

In order to bring the Sunday school and its Home Department in closer touch and sympathy, the pastor and superintendent, and other officials have planned for a Home Department day in our church and Sunday school on next Sunday, November 6th, 1904. At 9:15 in the Sunday school there will be special features that we hope will be pleasing and helpful to each member.

The sermon at 10:30 will be specially interesting for members of the Home Department. We beg you one and all to embrace it and, if need be, to put yourself to some real inconvenience to be present at both services.

Sincerely and hopefully yours, Rev. M. Swadener, Pastor.

Prof. Wilbur A. Fiske, Superintendent Sunday School.

S. E. Beery, Superintendent Home Department.

The Best Liniment.

"Chamberlain's Pain Balm is considered the best liniment on the market," write Post & Bliss, of Georgia, Vt. No other liniment will heal a cut or bruise so promptly. No other affords such quick relief from rheumatic pains. No other is so valuable for deep seated pains like lame back and pains in the chest. Give this liniment a trial and become acquainted with its remarkable qualities and you will never wish to be without it. For sale by A. G. Luken & Co., and W. H. Sudhoff, Fifth and Main streets.

WILL WEAR SHORT SKIRTS.

Louisville, Ky., November 4.—Thirty pretty Louisville girls went on record today for short skirts when it comes to stage costumes.

The girls are to take part in "The Daughter of the Regiment," to be given at Macaulay's Theatre next Thursday evening for the benefit of the Confederate Home.

There has been much discussion as to the length of the skirts to be worn. Some wanted ankle "dips," while others insisted that shorter ones would present a better stage effect, and they would not appear in the longer ones.

They won when the question was put to a vote, and skirts which will come just below dimpled knees were ordered from a Cincinnati costumer.

Chamberlain's Cough Remedy is Pleasant to Take.

The finest quality of granulated loaf sugar is used in the manufacture of Chamberlain's Cough Remedy and the roots used in its preparation give it a flavor similar to maple syrup, making it quite pleasant to take. Mr. W. L. Roderick, of Poolesville, Md., in speaking of this remedy says: "I have used Chamberlain's Cough Remedy with my children for several years and can truthfully say it is the best preparation of the kind I know of. The children like to take it and it has no injurious after effect. For sale by A. G. Luken & Co., and W. H. Sudhoff, Fifth and Main streets.

A Sure Thing.

It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for Consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. B. Van Metre of Shepherdstown, W. Va., says, "I had a severe case of bronchitis and for a year tried everything I heard of but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely." It's infallible for Croup, Whooping Cough, Grip, Pneumonia and Consumption. Try it. It's guaranteed by A. G. Luken & Co., druggists. Trial bottles free. Regular sizes 50c and \$1.00.

How this Credit Store Prepares for Men

And What it will do for You, if You will let it

WHEN the Credit Store has Men's Suits made, it superintends every detail of the making. Every material, every trimming, every lining, every style is planned by us. That's why this store's men's clothes are superior; that's why they wear longer. They are better tailored, better shaped, better value for your money.

Overcoats go through the same rigid inspection. They are not made as ordinary ready-to-wear garments are. Do you know how the majority of men's stores select their clothes? An agent comes through with samples and the buyer selects the styles. He doesn't see the garments until they are finished and arrive at the store. He doesn't know how, or under what conditions, they were made, nor anything about them except that they look like the sample.

That's one way to run a men's store, but it isn't our way.

If you'll compare our clothes with others you'll see which way is the better.

All kinds of Suits \$8 to \$25 **Latest Styles in Overcoats, \$10 to \$25**

Your Credit is Always Good

Will MONEY HELP YOU?

If so, call on us and we will loan you any amount you need, from \$5 to \$200, for from one week to one year, on your household goods, piano, live stock, or any other personal property, without removal, at the very lowest rate of interest. We make loans at a few hours' notice, and ALL OUR BUSINESS IS STRICTLY CONFIDENTIAL.

Some of our weekly payment plans giving you one year in which to pay us back, are as follows:

- 50c is a weekly payment on a \$25 loan.
- \$1.00 is a weekly payment on a \$50 loan.
- \$2.00 is a weekly payment on a \$100 loan.

Other sums in like proportion.

We GUARANTEE to loan on diamonds and watches at about ONE HALF the regular rate usually charged by similar concerns.

Letter and phone applications receive prompt attention.
