

### Courage is a Matter of the Blood.

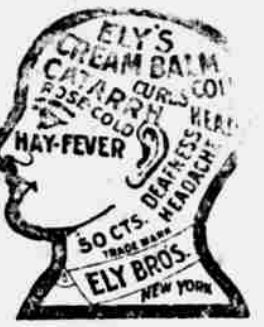

Without good red blood a man has a weak heart and poor nerves. Anemia means thinness of blood. It is common in men and young women and all those who work indoors, who do not get enough outdoor air and good oxygen in their lungs. There are too many white blood corpuscles in such cases, and there is often a peculiar sound in the heart, called a murmur, in cases of anemia. This heart murmur is caused by thinness of the blood passing through the heart. The murmur of anemia disappears when the blood regains its natural consistency and richness. It is not heart disease. Sometimes people suffer intense pain over the heart, which is not heart disease, but caused by the stomach. It is the occasion of much anxiety, alarm and suffering, for which its victim is dependent upon reflex disturbances from the stomach caused by indigestion. In the same way many bad coughs are dependent upon these reflex disturbances of what is called the pneumogastric nerve. To enrich the blood and increase the red blood corpuscles thereby feeding the nerves on rich red blood and doing away with nervous irritability, take Dr. Pierce's Golden Medical Discovery, which promotes digestion and assimilation of food so that the blood gets its proper supply of nourishment from the stomach. Get as near to nature's way as you can. A medicine made entirely of botanical extracts and which does not contain alcohol is the safest. Dr. Pierce's Golden Medical Discovery contains no alcohol or narcotics. Dr. Pierce's Pleasant Pellets are the best liver pills.

## BIG VARIETY OF TOYS AND TRINKETS

Gifts For Children Crowd Richmond Stores and Toyland Has Turned Out Some Wonderful Creations.

Richmond merchants are prepared to lend valuable assistance to Santa Claus this year in filling the Christmas stockings of the boys and girls of Richmond and vicinity. The toys have nearly all arrived from Toyland and are being arranged attractively in the various bazaars of the city. There are many Christmas shoppers out already, and this week has seen many of the tempting pieces laid away until time for good old Saint Nick.

This year it seems as if the manufacturers of toys had simply outdone themselves in trying to delight and amuse the children, and that there is nothing left to be desired. Dealers are especially proud of the large line of mechanical toys and indeed there seems to be everything from real little automobiles that will run, with rubber tires, and everything complete 1,000, to the cake-walking dog. The mechanical family includes a funny old clown that will beat a drum; the Boy Athlete, who swings dumbbells so fast it makes him dizzy; a dancing bear and an educated horse, almost as good as the High School horse, which was one of the attractions of the Boar War; Paderewski, the pianist, who plays classical music on a tin piano and trains and engines enough to content the heart of any boy.

Furniture, that splendidly imitates and reproduces everything to be found in the best modern home in the country has a prominent place in Toyland this year. There are refrigerators, sewing machines, lap-boards, with measurements, smoothing irons in fact, a little mother being fortunate enough to possess any or a great number of these wares would be unpardonable for not developing into the best of mothers and the most experienced of housewives.

There are dolls and dolls. Each year sees some little improvement in the manufacture of dolls, until they have attained very life-like proportions, indeed. Since the first doll was fashioned the doll industry has passed through many stages of development and improvement. People have now become so far-seeing that they not only want a doll that is pleasing to the eye, but one that is tangible to the touch, and the twentieth century toy answers both requirements.

Forty years ago a child whom Santa Claus brought an alabaster doll was a proud little mother indeed. The toy was then usually dressed in a showy costume and put in one corner of the front parlor, only to be brought down on state occasions then to be handled very carefully for fear of breaking. The dolls that will be sold in Richmond this year are constructed with an eye to usefulness as well as beauty, and the little mothers can carry them around everywhere without fear of spoiling or breaking.

One of the new holiday toys which is popular this year is the Humpty Dumpty circus. Brave the soldiers, "sturdy and staunch," of all nationalities, have arrived in regiments, and are going to do their share to please the babies.

There are many entertaining little games that have never been on the market before. One card game for the older boys and girls is "Down the Pike" taken from the St. Louis exposition. The new holiday books are now on sale and the list contains many of the latest copyrights. The "Marvelous Land of Oz" bids fair to become one of the most popular of holiday books. The illustrations are such as a child can understand and the type is large and plain.

Wilson Dennis, aged 91 years and a few months died the first of December and was followed to the Nettle Creek cemetery by a large concourse of relatives and neighbors. The funeral was preached by the aged Dr. James Ellis of Tipton County. He is aged 80 years. Wilson was a highly esteemed citizen and had many friends and neighbors who regret his passing away even at his advanced age.

Wilson had his peculiar ways but was a consistent christian man and many that have lived near him know of his many benevolent acts to the poor, sick and afflicted. Never in his middle life did he refuse to help care for those afflicted with his presence in their homes or his means if neces-

sary. A good man neighbor and friend has gone.

Oran Sambert, a United States soldier who enlisted early last year and went to the Philippines, died something over a year ago. The body arrived at Losantville station on Monday and was at once taken to his stepfather's, Thomas E. Dennis.
