Two cents at all places of sale.

TOOT! TOOT! FOR
WEDDING MARCH

SHRILL WHISTLE OF ENGINE
TAKES PLACE OF SWEET
MATRIMONIAL MUSIC.

A ROMANTIC ELOPEMENT

Marriage Carried Out Along the Most
Modern Lines of Procedure.
At Anderson.

Anderson, Ind., Jan. 5.—Blasts of a big steam whistle that sounds the weather forecast for this city and vicinity took the place of an organ and wedding marches Wednesday evening, in a marriage that was marked with the features of an old fashioned romantic elopement.

Miss Anna Lelia McGuire, eighteen years old, and Chester Cox, age twenty, were married in this city, although the young woman had to deceive her parents and sister and then join her lover for a fast three mile drive through the darkness to this city, where she had her wedding gown concealed at the home of a friend. She quickly made a change of costume while Mr. Cox rushed around town to get the county clerk to issue a license, and then engaged a minister, the Rev. John S. Aldridge.

Before the parents and sister of the bride became alarmed by her absence from home, she telephoned to them that she had been married, and was forgiven as far as possible, over a telephone.

The bride is a daughter of Mr. and Mrs. Henry McGuire, who have been living three miles east of this city, and are preparing to move to West Virginia. Mr. Cox is the son of a farmer near this city, and is employed in a local factory. The bride's parents objected to the marriage because of her age and undertook to restrain her from carrying out her plans. The elopement was originally arranged for Tuesday evening, but Mr. Cox was told that if a lighted lamp was at a certain window she could not get away. When he drove out to the McGuire home Tuesday evening the lamp was at the window. Meanwhile she had slipped her best dress to a girl friend in this city. It was then arranged that he should drive out Wednesday evening, and as soon as she heard the weather whistle she would leave the house, ostensibly to call on a neighbor across the road, and he should drive up quickly. He did so, and was accompanied by another couple, who assisted in the wedding that followed, while the parents of the bride thought she was at the neighbor's home.

MORE THAN BILLION
DOLLARS ARE SPENT

Amount Done by Manufacturers in
Commerce of the Nation.

Washington, Jan. 5.—Manufacturers participated to the extent of more than a billion dollars in the \$2,500,000,000 of commerce of the United States during the eleven months ending with November, 1905. Statistics announced by the Department of Commerce and Labor show that the value of manufacturers' material imported was \$513,000,000 during these eleven months, and of manufactures exported \$520,000,000, against \$459,000,000 the previous year. The value of crude material for use in manufacturing imported in this time was \$239,000,000, against \$309,000,000 in

the same months of the previous year. During those months there was a remarkable increase in the exports of agricultural products, especially of corn, the value of which rose from \$21,000,000 in the previous year to \$50,000,000 during the first eleven months of this year.

TWENTY-SEVEN TEETH
OF MASTODON FOUND

Were Fished Out of the Kankakee
River by a Dredge.

Danville, Ind., Jan. 5.—John R. Pritchett, who has been working with a dredge in the Kankakee swamps, has returned home, bringing some relics of which he is proud. One day recently the dredge lifted from the swamp twenty-seven teeth and the jaw bone of a mastodon. The largest of the teeth weighed almost nine pounds and the jaw-bone was six and one-half feet long.

There was a scramble among the workmen for the prizes, Mr. Pritchett obtaining a tooth weighing nearly four pounds. He has been offered \$12 for his find but refuses to part with it.

SILVER DOLLAR PASSING

ITS USEFULNESS IS FAST
WANING.

Slowly, But Surely, Paper Money Is
Coming Into More General Use.

Slowly, yet surely, the silver dollar is disappearing as a circulating medium in this country. It is still very common in the western states, more particularly beyond Indiana, but even in this western country, paper money is coming into larger use, and in time, under the government policy of abandoning the coinage of dollars, it promises to be as plentiful as it now is in the East. One trouble with paper money in the West has been that it could not be kept clean, and in many cities boards of health have pronounced against it for sanitary reasons. This argument, however, is losing its force in the face of the possibilities of supply now offered by a large number of sub-treasuries in Western cities. There was a time when the only sub-treasury of importance in the West was in Chicago, and bankers doing business at points more or less remote from that place, did not feel justified in paying the expressage on new money to take the place of the old. In such a situation the silver dollar, already popular in the West, because of Western interest in silver production, naturally came into common use. It was sanitary and the fact that it was bulky did not seem to trouble the general public.

HOWARD SAYS HE HAS
SOME NEW EVIDENCE

In Spite of Supreme Court's Decision
Prisoner Still Has Hope.

In the near future a surprise may be sprung by the attorney for Jim Howard, whose case seems to have been closed by the decision of the Supreme Court reaffirming the Kentucky tribunal, as Howard last night for the first time stated definitely that he had developed new and important evidence, and that although he was not yet willing to reveal it, he would do so when it became necessary.

W. M. Smith his attorney, is waiting for the full decision of the Supreme Court, and will try to find a legal opening in his opponent's armor upon which to work. Howard, however, is anxious that instead of the case being made purely upon a legal and technical basis it should be now begun on the strength of the evidence he has gathered.

"Ever since I have been here," he said last night at the county jail, where he has been confined for several years, "I have devoted my time to working out theories of my own regarding Goebel's death. I have gathered a mass of evidence, and have learned things which are of importance. Just what they are I do not care to say at present, and shall wait until my attorney completes his examination of the court decision. I still feel hopeful."

IMMIGRANTS TO
HOOSIER STATE

NEARLY ONE-SIXTH OF THOSE
WHO COME TO STATE ARE
HUNGARIANS.

ONLY ONE FROM AFRICA

Commissioner General's Report of
Tide of Civilization in His
Report.

Nearly one-sixth of the immigrants who are coming to Indiana are Hungarians. They belong to the Magyars, a class of Hungarians who sprang originally from the Ural country of Europe.

Some interesting facts concerning the stream of immigration that is turned toward Indiana are told by Commissioner General of Immigration Sargent in his annual report just made public. During the fiscal year ended June 30, 1905, the number of immigrants who come from the old world and found homes in Indiana was 6,742, out of a total immigration to this country of 1,026,499.

Only one black man from Africa located in Indiana during the entire year. The commissioner general, of course, has no record of the black men from Kentucky and other southern states who cross the Ohio and find a congenial atmosphere in the Hoosier state.

The commissioner general's report of the composite elements that entered into the tide of immigration that swept into Indiana in the fiscal year 1905 is as follows: Magyar, 1,025; African, 1; Bohemian and Moravian, 231; Croatian and Slovenian, 401; Cuban, 11; Dalmatian, Bosnian and Herzegovian, 13; Dutch and Flemish, 291; English, 331; Finnish, 56; French, 140; German, 739; Greek, 95; Hebrew, 199; Irish, 195; Italian (North), 302; Italian (South), 293; Japanese, 1; Lithuanian, 84; Polish, 643; Roumanian, 618; Russian, 2; Ruthenian or Russniak, 22; Scandinavian (Norwegians, Danes and Swedes), 186; Scotch, 214; Slovak, 323; Spanish-American, 1; Syrian, 107; Turkish, 131; Welsh, 49; all other peoples, 7.

PENNSYLVANIA HAS
PHENOMENAL EARNING

Gross Income for November Increased
\$2,127,000 Over Last Year.

New York, Jan. 5.—Gross earnings of the Pennsylvania lines east of Pittsburgh and Erie for the month of November show an increase of \$2,127,200 compared with last year, and a net gain of only \$962,800. For the eleven months of the fiscal year 1905 gross earnings increased \$14,666,100, and net \$3,969,500. The Western lines of the system reported an increase of \$891,500 in the gross and \$436,000 in the net for November, and a gain of \$7,008,000 gross and \$1,421,100 net for the eleven months.

ANNUAL REPORT

Trustee of Harrison Township,

Bent Her Double.

"I knew no one, for four weeks, when I was sick with typhoid and kidney trouble," writes Mrs. Annie Hunter of Pittsburg, Pa. "and when I got better, although I had one of the best doctors I could get, I was bent double and had to rest my hands on my knees when I walked. From this terrible affliction I was rescued by Electric Bitters, which restored my health and strength, and now I can walk as straight as ever. They are simply wonderful." Guaranteed to cure stomach, liver and kidney disorders: at A. G. Luken & Co.'s drug store; price 50c.
