## DOES NOT FEAR NEW CASTLE CO

ALTHOUGH THE HENRY COUNTY PEOPLE CLAIM THEY WILL PUMP GAS.

## HIBBERD SAYS ITS TOO LATE

Richmond Has Drop On Its Northern Neighbors and Gets The Fuel.

It is reported that the Citizens Natural Gas Company of New Castle, will soon establish a pumping station in the Henry County Gas field, the district from which Richmond received its supply of natural gas, and considerable alarm has been felt by those in this city who are dependent upon gas as fuel. The people of New Castle and Henry County are embittered against the Richmond Natural Gas Co., as they claim that the latter has been depriving them of their natural fuel, and they now intend to get what still remains of the supply.

When asked if the establishment of other pumps in the gas fields would noticeably affect the pressure in this city, E. G. Hibberd, secretary of the Richmond Gas Company said that he did not believe that it would make and change in the situation here, but that in the first place, he did not think that the New Castle gas companies would start pumps at this time. Mr. Hibberd said, "It would be locking the barn after the horse was stolen for the New Castle people to attempt now to pump gas. The pressure has so decreased that it is almost zero and it would not pay them to start their pumps after the gas is gone."
