

BRICK SOUNDS SLOGAN

(Continued From Page One.)

lips may voice the bugle call to arms and victory, but he is at rest.

The Coming Battle.

"The time has come again when the legions of thought are to meet once more in the peaceful conflict of the ballot. Upon this issue hang the hopes and fears, the weal or woe of a proud and prosperous people. In that silent contest, American expects every man to do his duty. You can't do it by letting some other person do your thinking for you. And we will not do it unless the poorest as well as the richest, shall remember the priceless privilege of American manhood. We'll not do it, till every son of perfect freedom, whether he toil with arm or brain, shall take up his place in that grand army of the Republic, and when the order comes to move forward, he will march as you will march, each with his forehead to the dawn, every man with his eyes upon the flag. And after all is said and done, this is the heroism of intellectual valor.

We are the government and if we make a mistake the fault is ours. When the government is great and strong and rich in prosperity, as it is today, we all have the joy and honor. When it goes wrong, as it did in the days of '93 to '97, the brand of humiliation sullies every brow.

"I want to believe in the country and the party which has been successful; always successful together.

"I believe in erecting, not tearing down.

"I don't want to win upon the woe of my country.

"I don't want to live in a political graveyard where the tombstone marks the grave of a dead desire.

"I don't want to dwell among the ruins of a dismantled industry.

"Just nine years ago the Dingley tariff law went into force and effect.

"Judged by its results, that have no parallel anywhere, it has been the most beneficent act of tariff legislation that ever emanated from the brain of man in this or any other country.

"Protection is Responsible.

"It may be truthfully said that other countries have been thriving in a degree, at the same time, but you must not fail to remember that every one of them which has prospered, has done so under a policy of protection emulating ours.

"And that free trade nations have not flourished as some would have you believe.

"Germany, our most important rival, and Canada, our next door neighbor, both in increasing prosperity, are protective countries while England, on the other hand, with free trade dogma has declined instead of going forward.

"I am serious to know if any body would vote to change the principles of the Dingley Act if he could test the effect of it before doing so. The fact is, to have attained the magnificently commanding position we hold, means that of all the world and every country in it, the genius and industry of our citizenship, reinforced by our resources and marshalled by our political policies, have been incomparably the best.

"Yes it means more than that, let us use our plain sense it means that any material change in our policies

"Germany, our most important rival, and Canada, our next door neighbor, both in increasing prosperity, are protective countries while England, on the other hand, with free trade dogma has declined instead of going forward.

SALIENT FEATURES IN REPUBLICAN PLATFORM.

The twelve most salient features in the Republican State Platform that will be adopted today at the state convention are as follows:

- 1—Declaring for a 2-cent railway fare bill for all roads operating within the State of Indiana.
- 2—Favoring a public depository.
- 3—Indorsing the administration of Governor Hanly.
- 4—Declaring that interest on public funds should revert to the public.
- 5—Placing private banks under the same regulation as State banks.
- 6—Abolishing the contract labor system.
- 7—Pledging the party to continue the nonpartisan management of all State institutions.
- 8—Urging the further regulation of life insurance and fraternal benefit companies.
- 9—Declaring in favor of a primary election law.
- 10—Heartily indorsing the administration of President Roosevelt.
- 11—Urging upon Congress the regulation of railway rates.
- 12—Indorsing the policy of making liberal provision for those who have borne the heat of battle and for their widows and orphans.

will immediately usher into every home a blighting era akin to the days experienced from 1893 to 1897.

"What the Republican party has

The Future's Guarantee.

done, what it is doing, and what it proposes to do, is an ample guarantee of what it will do in the future.

"Our work is not yet done, our mission is not ended.

"We are pressing now in the solution of problems as great and grave as any that have engaged the attention of the past.

"With sturdy tread we are climbing to the goal.

"In the last nine years, following with the Dingley bill and following every avenue of enlightened adventure, we have taken the place that belongs to us.

"We have been the creator of dignified and self-respecting labor.

"Labor enters into and holds up everything.

"It is the backbone of the nation.

"It breeds our children and nourishes and rejuvenates the race.

"Human toil of heart, and brain and hand, is the only true manhood, the only real nobility, the aristocracy of the republic.

"When labor is happy and prosperous our country is safe, the rest will take care of itself.

"Gold is good in its place, it is absolutely necessary to modern life; but man, brave, self-reliant, loyal, happy man is the most important question which commands public attention today.

"How splendidly have we fulfilled the trust?

"We have given every poor boy a right to aspire to riches, and always a competence.

"We lighted a torch over every cradle and placed a crown of laureled citizenship on every brow.

Industrial Evolution.

"Now while all this has been going on to excite the marvel and admiration of the world, and evolution has gradually taken place in industrial affairs.

"We have read of the glacial period, the stone age, the iron age, and the age of bronze.

"This is an age of organization and combination.

"It belongs to no one party or country.

"They are formed with equal facility under a free trade or protective policy.

"Everywhere they are conceived in the mind of restless motion. And the question is not who is responsible for them.

"But who shall harness them against wrongful injury to others?

"Republicans enacted the Sherman anti-trust measure in 1890.

"Then came Cleveland and democracy, they did nothing.

"After that McKinley and Roosevelt, and during their terms a republican congress has passed four practical bills supplementary to the Sherman act, and we are engaged now in the passage of another, the proposed railroad rate legislation.

"And we have not yet fulfilled the precursory message of our birth.

"The device of railroad rebates is the life crippling, death dealing arm of organized oppression.

"There can be no doubt but that many business men have been doomed to despair and destruction through the unfair use of the power of rebate.

"It is well to have a giant's strength but wrong to make the tyrannical arbiter of success and failure.

"There is a vast deal of talk nowadays about governmental ownership of railroads. This talk has been largely excited by the abuse of commercial power and the unfairness of rate inequities.

"The republican party, true to the ancient traditions bequeathed to us true to the unflinched courage, baptized into our being by our God-fearing ancestors is now battling in the house and senate of the nation, upheld by the strong right arm of Theodore Roosevelt, to relieve the people so far as legislation can relieve them, of unjust discrimination, and to secure even-handed and steady rates to all shippers.

Praise For Indiana.

After reviewing the Nations Work in the Philippines, Congressman Brick said: "And now a word about Indiana. We are comparatively young in years, but pride in the material and intellectual wealth. And we have a right to be proud. No state in the union can point to a more splendid development of industrial and mental prosperity than Indiana. We meet today, happy in all the comforts and conveniences of life, and proud of the self-respect that comes from the distinguished achievements of our citizenship. Indiana stands today the equal of other states without exception. In the statesmen she has given to the nation and the world. Indiana at this hour is giving more creative literature to the English-speaking world than any other single commonwealth of the republic. And here as elsewhere, republican predominance has meant surpassing prosperity of the people, economic expenditure of the public money, reduction of the debt and wise legislation. Labor is fully employed at remunerative wages. The farmer has enjoyed a steady increase in the value of his land, good prices for his produce and a growing bank account. Our merchants and manufacturers have been everywhere on

AT THE THEATERS

The Guy Stock Company continue to fill the Gennett theatre daily. The company is more than meeting the expectations of the public. The engagement will close Saturday evening.

There is probably not a theatre-goer in this wide land, who is not familiar with the name of "Buster Brown" and his attendant misfortune, laughed at his mischievous pranks, as drawn by that humorous artist, Richard F. Outcalt and published in the colored pages of the New York Herald. By special arrangement with that paper and Mr. Outcalt, one of the most successful playwrights, has constructed a farcical comedy, which embodies many of "Buster Brown's" most amusing adventures.

"Buster Brown" will be seen at the Gennett Theatre next Monday night.

No performer ever seen at the New Phillips has worked harder to entertain than Mr. Gordon, of the team of Harry and Alice Gordon, who are at there this week. Gordon appears in the role of an ignorant fellow who undertakes to assist a beautiful and talented woman present a portion of a drama. He is versatile and the dialogue provided is more than ordinarily entertaining. Holmes and Walton, novelty comedy instrumentalists, seem able to play about any instrument imaginable and get music out of almost anything. They give a good imitation of steam callopes. The Three Hillbillys in their "A Study in Rags," and Prof. Dunbar, with his herd of Belgian goats, continue to prove strong drawing cards, as they well deserve to do. Great amusement is caused by the antics of the goats, who appear much more intelligent than the ordinary "billy" variety.

Humor and Philosophy

By DUNCAN M. SMITH

PERT PARAGRAPHS.

Hoping for the best isn't sufficient to avert the worst.

A man's work is known by the hit he makes.

There's not so much disgrace as discomfort in poverty.

There are people who acquire great skill in picking a quarrel and dodging the consequences.

Seeking for a reward is a thankless task.

Dignity must be used every day to make the user comfortable.

do more work and earn still more money.

5¢

NATIONAL BISCUIT COMPANY

The Fickle Month.

Speaking of scrambled weather, streak of fat and streak of lean. Fifteen cents' worth of sunshine. A quarter's worth of showers. And about seven cents' worth of blizzard.

Following each other in rapid succession and sometimes trying to occupy the center of the stage all at the same time.

That's April. First she smiles, and you say to yourself, "There is a girl that looks good to me."

But beware! She is only trying to lure you on.

About fifteen seconds later by the Waterbury watch she may be throwing water at you by the bucketful.

That's her way. Sometimes she smiles like a typewriter lady who has just received a raise in pay.

Add then again to see her weep. You think that the poor girl must have lost some of her folks.

And while you stand around sympathizing with her she slips up behind and takes you in the neck with a big silver.

From the backbone of winter. That is her style. Or lack of style.

Whichever you want to call it. When she is good she is very, very good.

And when she is bad you feel like calling the police.
