## CZAR'S TROOPS IN UGLY MOOD

More Mutiny in Russia is Almost a Daily Occurrence, With Poor Outlook.

### UNDERMINERS GET BUSY

ORGANIZED LEAGUE AT WORK CREATING DISTURBANCES IN ARMY RANKS—ITS SEAL AND DOCUMENTS SEIZED.

[Publishers' Press]

St. Petersburg, July 4.—The minister of war received a number of telegrams to the effect that a serious mutiny has broken out in the second and third battalions of the Tirailleurs and the first railway battalion at Askaniya. It originated in the now familiar way of the arrest of soldiers and their comrades demanding their release and the formulation of a list of grievances, including a demand for the removal of officers and their replacement by men from the ranks. The mutineers set the governor general at defiance. Reinforcements of infantry, Cossacks and artillery have been dispatched to Askaniya from Merv. Agrarian disorders continue in the central and southern provinces.

The administrative and parliamentary views of the Bialystok exiles are published here, the first in the report of Baron Ruzicki, president of the council of the empire, to Minister of the Interior Stolypin, published in the Official Messenger, and the latter in the report of the parliamentary commission. Though they differ in many important respects, they unite in holding certain officials, or at least the inferior police officials, guilty of inciting and participating in the excesses. It is significant that Shiremetiev, prefect of police of Bialystok, has been summoned to St. Petersburg.

There is a slight discrepancy in the statements of casualties. According to the report of Baron Ruzicki, 82 were killed, of whom 75 were Jews, and 78 wounded, of whom 60 were Jews, while the property loss is placed at \$100,000, whereas the parliamentary commission reports 82 Jews and six Christians killed and approximately the same number wounded. The commission's report will be discussed Thursday. It gives the details in practically every case of killing, and in eight instances it cites the names of soldiers or policemen who murdered one or more Jews, as absolute proof of participation of the military and police.

All of the prevalent doubts as to the existence of an organized military revolutionary league, which is inspiring mutinies and uprisings in the army, has been set at rest by the discovery of the seal and documents of the league during the search of soldiers attached to staff headquarters at Vilna and detailed to various regiments of the Third corps. War Minister Rudiger has ordered strict investigation to be made of all detachments of troops, in order to determine the extent of the revolutionary propaganda and the best methods of counteracting it. Martial law has been proclaimed at Odessa on account of the ferment among the troops there.

Many a Richmond Reader Knows It Well.

There is a way open to convince the greatest skeptic. Scores of Richmond people have made it possible. The public statement of their experience is proof of the like of which has never been produced before in Richmond. Read this case of it given by a citizen.

Mrs. Jennie Landig, 16 South Eleventh street, says: "As a result of a severe attack of diphtheria, my daughter was troubled with a weakness of the kidneys. I tried numerous remedies and was treated by various physicians, but the relief was only temporary. Learning about Doan's Kidney Pills and seeing them so highly recommended, I procured a box at A. G. Luken's drug store and she began their use. In a short time the trouble entirely disappeared. After several weeks it again began to appear. She used Doan's Kidney Pills and the attack was promptly ward off."

THE BELL IS HISTORIC

It Told the Death of President Lincoln and Also Called Country to Arms.

Greenfield, Ind., July 4. (Spl.)—Montgomery Marsh, of this city, has presented the bell that hung in the old court house steeple to the Presbyterian church. The bell was bought by the County Commissioners in 1853, and it hung in the courthouse until the building was torn down in 1896. It was then offered for sale as junk. Mr. Marsh opposed this disposition of a bell that had tolled the death of Lincoln, Grant, Garfield and other noted men, and which called the county to arms when Ft. Sumter was fired upon. The bell was then presented to Mr. Marsh, who loaned it to the city as a curfew bell. The older people of the city are wonderfully attached to the old relic.

### STANDING BY KINKADE

Toledo Lawyers are Supporting the Judge in His Popular Fight Against Ice Men.

[Publishers' Press]

Toledo, O., July 4.—Although attorneys for Miller and Breinig, convicted ice dealers, requested a consideration of the motions thrown out of common pleas court, failed to appear in circuit court when that body convened, and the matter went over until Thursday. Judge Kinkade refused a reconsideration of the contempt case, and the matter is now regularly before the circuit court. Attorneys from all over the city are lending Kinkade their moral support and C. A. Selders and C. H. Masters, assistant city solicitor, donated their services in his behalf. Mr. Waters, an ice man, refuses to allow a "false-as-hell motion" to be presented in his behalf and discharged his attorneys, preferring to let the court do as he will.

### WASHINGTON ICE FAMINE

An Investigation is on to See if Present Shortage is Due to Conspiracy of Dealers.

[Publishers' Press]

Washington, July 4.—The municipal officials have instituted steps with a view to the prosecution of the responsible individuals, if upon investigation it develops that the present ice famine in Washington is the result of a conspiracy to raise the price of that commodity in restraint of trade. District Commissioner West called the attention of the corporation counsel to the action under way in other cities into the alleged illegal operations of ice dealers and asked to be informed whether developments here warrant similar steps, and if so whether such action should be initiated by the federal or the municipal authorities.

### Caught the Right Shark.

New Orleans, July 4.—A week ago one of the students at St. Stanislas college at Bay St. Louis, on the Gulf coast, was captured by a man-eating shark while swimming about a half mile from shore. The boy was never seen after he was dragged under water. Since that time Gilbert Marshall and his brother Carl have been making a determined fight on large sharks and landed four. The largest was caught after a hard fight of three hours. They cut him open and found a part of the head and arms of the missing student in the fish's stomach.

### Root Off For South America.

Washington, July 4.—Secretary Root, accompanied by his private secretary, W. T. Sherman Doyle, left Washington for New York. Mrs. Root and the secretary's son and daughter, who are to accompany him on his South American tour, are at Southampton, Long Island, and will join Mr. Root in New York. The entire party will leave the New York Yacht club in a launch for the cruiser Charleston, which is lying off Staten Island.

### Six Shots Failed.

Norwalk, O., July 4.—Frank Lamoreau, son of a prominent Ripley town ship farmer, shot himself six times in an effort to commit suicide, but he will recover. All six of the bullets lodged in his head above the temple, but all were successfully extracted by a physician. Earlier in the day, while boating with several companions, he was thrown into the water by the overturning of his skiff and narrowly escaped drowning.

### IS HEIR PRESUMPTIVE

BABE IS WELL FORMED AND THE MOTHER IS DOING NICELY—EMPEROR HEARS NEWS BY WIRELESS.

[Publishers' Press]

Berlin, July 4.—Crown Princess Frederick William gave birth to a son Wednesday morning.

The crown princess and the prince are in the best condition. The babe is strong and well formed.

All the public and many private buildings are decorated with flags. The guns of a battery of artillery began to fire slowly in the square opposite the palace, and thousands with in hearing of the salute stopped in the streets, or paused in their work to count, for it was announced that 72 shots would be fired for a girl and 101 for a boy. When the seventy-third gun was fired the city knew an heir presumptive was born. An hour later half a million copies of the Official Gazette, containing the proclamation were given away.

News of the birth of his grandson was communicated to Emperor William by wireless dispatch from Kiel to the steamer Hamburg, on which his majesty is proceeding to Trondheim, Norway.

There was great rejoicing at Potsdam, when it became known that the crown princess gave birth to a son. A salute was fired and the town was decorated.

### Jurors Drawn.

Cleveland, O., July 4.—The names of the grand jurors who will meet Monday to investigate the relations existing between the Standard Oil company and the Lake Shore railroad were chosen by Jeremiah J. Sullivan, president of the Superior Trust company, John D. Rockefeller's bank. Sullivan formerly was president of the National Bankers' association. He is a United States jury commissioner for this district, and, with Clerk H. F. Carleton, selected the names of the federal grand jurors. "What do I care if the case is against Rockefeller?" said Sullivan. "We don't know in what case jurors are to sit."
