### A PROGRAM OF INTEREST

BESIDES GOOD PREACHING WILL BE MUSIC BY A JUVENILE BAND—MAY BE MADE AN ANNUAL AFFAIR.

The Christian churches of Wayne County will hold a county meeting which will probably hereafter be an annual affair at Jackson's Park Aug. 9. A large assembly of the members of the church and their friends is expected. The Rev. James Vernon of Winchester will deliver an address at 2 o'clock. In the morning reports will be read from the various congregations followed at 11 a. m. by an Evangelistic service, by Evangelist Buchan and his singer, Mr. Gardner. Other ministers outside of Wayne County are also expected and the day will be full of interest. A juvenile band will play and will delight the children in attendance.

### City Has a New Doctor.

Edwin H. Mendenhall filed a physician's certificate on State examination at the county clerk's office yesterday afternoon. He will take up his office at his father's place on South 9th street. Mr. Mendenhall drew eight 100 per cent marks out of twenty-one examinations, a thing which seldom happens.

### Farmers' Sunday Paper

**T**HE Richmond Palladium is the only paper published in Richmond on Saturday which reaches the people living on their rural routes for Sunday. Mail for rural free delivery is not delivered on Sunday, therefore Saturday morning's Palladium is the only local paper which is delivered before Monday.

This fact proves conclusively the value of the Palladium as a medium in reaching the rural routes. Saturday morning's Palladium is the only paper they have to read on Sunday—the day they have the most time to read.

### MANY HORSES ARE KILLED

#### OUTBREAK OF GLANDERS

Dayton Horse Owners Much Wrought up and State Authorities Get to Work in Effort to Stamp Out the Disease.

While there has been no suspicion of the disease in this locality, horse owners are considerably alarmed over the outbreak of genuine glanders, near at hand. At Dayton yesterday twenty-two horses afflicted with the disease were killed by order of the State veterinarian who has pronounced the disease genuine.

Scores of animals have been stricken in and near Dayton during the past two or three weeks and veterinarians are now scouring the city and county about Dayton investigating all suspicious cases of sickness among horses. According to local horse owners it has been many years since glanders has appeared in Richmond or Wayne county although there have been supposed cases several times.

Glanders in its genuine form is a rare equine disease, but is highly infectious and once started in a locality is difficult to check. Some of the Dayton veterinarians have been disposed to call the disease influenza, but according to dispatches from Dayton there absolutely is no doubt that the disease is glanders.
