Agitation Against Foreigners
Reaches Serious Stage
at Present.

EVEN WOMEN ARE MENACED

CINCINNATI MAN TAKING HIS
FAMILY HOME—THINKS UNCLE
SAM MAY HAVE TO INTERFERE
SOON.

[Publishers' Press]
New Orleans, July 21.—E. J. Mather one of a party of 62 men, women and children, who left Mexico because of anti-foreign threats, passed through New Orleans en route to Cincinnati. "One of the most alarming features of the situation," said Mather, "is the fact that Mexican servants join in the anti-foreign movement and wives of foreigners are in mortal terror of their families being poisoned. I was reluctant to leave the country but I simply could not resist the pleadings of members of my family. I am now taking them to our former home in Ohio."

As to the extent of the agitation, Mr. Mather said: "The anti-foreign movement is strongest in the northern and central portions of Mexico, where natives have been wrought up to a high pitch of excitement by agitators and agents of revolutionary societies. Along the Rio Grande border the movement is not so strong because Mexicans fear the Texans, who know how to shoot. The educated class of Mexicans is not in sympathy with the anti-foreign movement, but in the hopeless minority. The army is recruited from the lower classes and cannot be relied on. The uprising is scheduled to occur in September and if it starts it will probably be necessary for the United States to throw an army across the border to protect American citizens. "The anti-foreign sentiment has grown to such an extent that I do not believe the Mexican government can cope with it successfully."

Other members of the party include men with their families bound for Kentucky, Tennessee and states farther east.

DEATH TO GRINGOS

Is Cry of Agitators Who Insist On
Mexico for Mexicans.

Laredo, Tex., July 21.—There is trouble of a serious kind brewing beyond the Rio Grande. The air is full of rumors of uprisings, strikes and even the word revolution is freely mentioned. The developments of the last day or two indicate that it is, indeed, the latter that is portending.

There are threats against Americans, circulars distributed about the streets and posted in every public place warning Gringos to leave the country or suffer the consequences. These consequences are: That every American found in the republic after Sept. 16 will be "driven into the sea." September 16 is the Mexican Independence day. The burden of the cry in these circulars is "Mexico for Mexicans."

At San Luis Potosi, Monterey, Saltillo, Guadalajara, Durango, and, in fact, all the important cities of the republic, one is greeted at every turn by these printed signs, threatening death to Gringos if they don't quit the country.

A great strike of all the laboring classes in the country is proclaimed for Sept. 16. The entire laboring element is thoroughly organized, and secret meetings are being held nightly. The laborers demand a wage equal to that paid Americans, and as this was refused on railroads and in other lines the Mexican laborer proposes to drive his Gringo rivals from the country.

Many Americans are leaving, and the Brotherhood of Locomotive Engineers and Conductors on the national lines of Mexico, known as the merger system and a Mexican government road, sent an appeal to the state department at Washington asking protection from the Mexican labor element.

Supreme over all is said to be General Bernardo Reyes, governor of Nuevo Leon, and a general of division in the Mexican army. Up to two years ago he was minister of war, and held that place several years.

Electric Railway Project.
New York, July 21.—Announcement was made in this city that surveys and estimates have been completed in Illinois and Indiana for an electric railroad 70 miles long to be known as the Chicago, Lake Shore and South Bend railway. It is reported that the road will be financed by the Transit Finance company of New York. The terminals of the road will be South Bend and Hammond and it is planned that the line shall be continued from Hammond into Kensington by the Illinois Central railroad, thus connecting with its main line for through service into Chicago. A steamer service on Lake Michigan is planned in connection with the new road.

Death Due to Drugs.
Toronto, Ont., July 21.—Mrs. Agnes Brindant died suddenly in her apartment in the Bristol building. It is alleged, from the effects of drugs. Her husband, Edmund Brindant, a barber, and Mrs. Lillian Miller, have been arrested charged with murder. Mrs. Brindant came from Paris, France, to Toronto about two months ago. Mrs. Miller came here from Covington, Ky., where it is said she was also known as Mrs. Devers.

A WARNING BY WILSON
HOW TO GET GOOD MEATS

Crusade Advocating a General Cleaning
up in All the Slaughter Houses
of the Country—Only One Way to
Go About the Work

[Publishers' Press]
Washington, July 21.—Discussing the meat inspection law, Secretary Wilson said there is considerable misapprehension regarding its scope. It does not apply to any but slaughtering and meat-packing houses doing an interstate business.

"If the people of this country," said the secretary, "want to be assured that the meat that goes into their homes and those establishments doing a purely state and local business is clean and wholesome, they should enter upon a crusade for a general cleaning up. I am powerless myself, to act. Quite recently I went through some of these houses not embraced within the federal law and found them in a nasty, filthy condition, and in some cases using diseased animals. It is my one regret that the federal law does not reach them, but I earnestly hope the state and city officials will look after them as rigorously as we propose to look after the others."

MILLER SUSPENDED
Man Who Caused Public Printery to
Be Declared Open Shop.

Washington, July 21.—Public Printer Stillings suspended from office the assistant foreman, W. A. Miller, of the bindery of the government printing office on recommendation of the acting foreman, Ashbren, the charges being insubordination and insolence. Stillings will make an investigation before taking final action. Miller was the immediate cause of President Roosevelt's order declaring the government printing office and all places where workmen are employed by the government to be "open shops." This resulted from Miller's suspension from duty in May, 1903, and his removal a few days afterward. At the time of his former suspension and dismissal Miller was required by the bookbinders' union to face certain charges. The outcome was his expulsion from the union. Shortly afterward he appealed to President Roosevelt with the result that July 13, 1903, the president issued the order referred to and at the same time reinstated Miller.

ACTION CLOSED FOR TIME BEING

Atty.-General Miller Says the
State Is Done With French
Lick.

GAMBLING HAS CEASED

THOMAS TAGGART INFORMS THE
STATE THAT THERE ARE NO
VIOLATIONS AT THE FAMOUS
RESORTS.

[Publishers' Press]
Indianapolis, July 21.—Attorney-General Charles W. Miller said today, with reference to the letter of Auditor Bigler to the French Lick and West Baden Hotels, that the State would take no further steps now "if conditions remained the same."

"The State is informed by Mr. Taggart that there are no violations of the law by the French Lick Springs Hotel Company, and the State is informed, from other sources, that this is true," said Mr. Miller today. "As long as that is true there is no necessity for any further action on the part of the State. If conditions change, however, (that is, if gambling is permitted again), the State will have a basis for further proceedings under the voluntary association act."

Independent of Proceedings.
This action of Auditor Bigler in sending the two hotel companies the results of his examinations was independent of the court proceedings at Paoli, according to Mr. Miller.

"The Auditor made an examination of the two companies," said he. "This examination completed, it would have been strange, indeed, if the Auditor had not notified the companies of the results of the two examinations."

"Would the State proceed under this voluntary association act in the event that the Supreme Court upheld the lower court in the proceedings that were instituted on information?" was asked the Attorney-General.

"We do not cross a bridge until we come to it," said that official, "but you can put it down that the Supreme Court is not going to sustain the finding of the lower court."

THE PAN-AMERICAN CONGRESS OPENED

An Eventful Session Began
Yesterday Afternoon at
Rio Janerio.

AIM BOND OF REPUBLICS

UNITED STATES SENDS REPRESENTATIVES AS DO MOST OTHER COUNTRIES—VENEZUELA AND HAITI FAIL TO RESPOND.

[Publishers' Press]
Washington, D. C., July 21.—The most important of any of the pan-American congresses, with the possible exception of the first, held sixteen years ago in Washington, began today at Rio de Janeiro.

Treaties will result from the deliberations of the congress which not only will be of value in promoting pan-American relations, but which are certain to affect the attitude of Europe toward American questions.

The United States has sent a delegation of able men to impress its view of the various subjects to be discussed, upon delegations sent by all other republics of this hemisphere, with the sole exception of Venezuela and Haiti. Fearing the United States would force the congress to adopt a principle which might weaken the value of its "splendid isolation," Venezuela declined to accept the invitation to participate, thereby affronting the United States as well as Brazil. Haiti will not take part, not because of lack of sympathy with the purposes of the conference, but on account of the expense involved in sending delegates to the distant Brazilian capital.

Brazilian for Honor Post.
The honorary president of the conference will be Baron Rio Branco, minister of foreign affairs of Brazil, who is well and favorably known in the United States. The congress will elect its actual president, who probably will be Sig. Joaquin Nabuco, head of the Brazilian delegation and ambassador of Brazil to the United States.
