

LAWLESSNESS NOW RULES ALL RUSSIA

An Epidemic of Crime Sweeping Over the Great Empire.

RUSSIAN POLAND AFFAIRS

LAST NIGHT ANOTHER BOMB OUTRAGE OCCURRED IN WARSAW—PASSENGER TRAIN ATTACKED BY REVOLUTIONISTS.

[Publishers' Press] Warsaw, July 28.—An epidemic of crime is sweeping over Russian Poland, and the authorities seem powerless to check it. Tonight another bomb outrage was committed near where the murder and robbery occurred during the morning on a mail train. A band of fifty men, apparently peasants, boarded the train in Warsaw and took seats in one of the third class cars. They seemed to be together and it was assumed by the railroad officials that they were farm hands going home.

When the train had reached a point six miles outside of Warsaw some one applied the automatic brakes and the train came to a complete standstill. Immediately the men swarmed out and surrounded the engine and mail van at the same time producing automatic revolvers which were freely discharged to cow the other passengers in the train.

Held Up Officials.

One of the men then uncoupled the engine and mail van and two men got aboard of the train covering the engineer and stoker with revolvers. The others then clambered aboard of the van and the crew was compelled to run the train two miles farther where the postal car was broken open and all of the valuable mail and some \$50,000 in cash taken. The party mounted horses that they had in waiting and soon made their escape. A band of Cossacks in pursuit, but they have little chance of catching the robbers who made a quick get away.

It is believed that some of the men are railway employees, at least three of the band evinced considerable familiarity with the operation of railroad trains.

MOST PROSPEROUS YEAR CONDITIONS OF COMMERCE

Dun's Trade Review Shows Conditions to Be Exceptionally Encouraging in the United States—All Other Sections Are Eaten.

[Publishers' Press] New York, July 28.—R. G. Dun & Co.'s weekly review of trade tomorrow will say:

"Comparisons of the volume of current business with previous years are so uniformly favorable that the outlook can only be regarded with confidence. Semi-annual statements are now sufficiently complete to make it certain that the first half of 1906 was the most prosperous six months period in the nation's history, and, unless heavy cancellations occur, the last half of the year will establish a still higher record. Contracts come forward freely in the iron and steel industry, and footwear factories are receiving orders for delivery next February, while even the textile mills report that purchasers have ceased efforts to secure more attractive terms. Complaints of inadequate labor supply are universal. Building operations are extensive, and would be much greater if the cost of labor and materials had not caused the abandonment of many plans.

Failures this week numbered 216 in the United States, against 214 last year, and 15 Canada, compared with 27 a year ago.

TO REVOKE THE CHARTER RAILROAD IS IN DANGER

Maryland Prosecutor Takes Steps to Make the Cumberland and Pennsylvania Railroad See the Line—Action Causes Much Interest.

[Publishers' Press] Cumberland, Md., July 28.—Several days ago state attorney A. A. Wilson filed a petition to have the charter of the Cumberland and Pennsylvania railroad annulled. The road is a subsidiary of the Baltimore and Ohio and it was alleged that the latter road charged more for hauling coal from Georges Creek Road than it does for the same distance from Fairmount, W. Va., of Pennsylvania railroads.

The petition was based on an act passed by the Maryland legislature which stated that unless the differential was adjusted before the fourth of June, the state attorney should take proceedings to have the C. & P. charter forfeited. Counsel for the latter will all in their answer that said C. & P. road which connects with the Baltimore and Ohio at Piedmont and Cumberland and with the Pennsylvania road here is doing an interstate commerce business, hence the act of the Maryland legislature is unconstitutional and that Congress has assumed full control of such traffic under the passage of the Hepburn act. The outcome of the case is awaited with much interest by the people of the three states.

NO AGREEMENT REACHED

BOTTLE MEN IN WRANGLE

Union Closures Will Go to Work in September for all Firms that Sign the Scale—Many Men, However, Likely to Be Idle.

[Publishers' Press] Atlantic City, N. J., July 28.—The glass bottle blowers, who have been meeting all week, adjourned tonight without having come to an agreement on the wage scale for 1906 and 1907. The blowers wanted the same scale as last year, but the manufacturers urged a cut of 33 per cent. Another meeting may be called later by Chairman John H. Wilson of Pittsburgh.

A FREE MAN

Murder Suspect, Held at Poughkeepsie, Is Discharged.

Poughkeepsie, N. Y., July 28.—Fritz Constantine, the young man who was arrested at the Tivoli last week, charged with being the alleged murderer of Mrs. Arthur W. Gentry, of Chicago on January 6 last, was discharged from the Dutchess county jail, a free man. Constantine is not the man wanted by the Chicago authorities, although he bears a remarkably close resemblance to the murderer. Arthur W. Gentry, the husband of the murdered woman, saw Constantine and was impressed with the prisoner's close resemblance to the man who had roomed at his house last January and had taken the life of his wife. At the conclusion of the interview, Mr. Gentry gave the prisoner a check, shook hands with him and said "He is not the man."

Defeated by Cloudburst.

Antena, Italy, July 28.—A cloudburst has devastated the Camerino region. The village of Castel St. Angelo suffered most seriously. A number of buildings there fell and the water, forming an impetuous torrent, carried off and drowned from five to 10 persons.

Will Play Tuesday.

The next base ball game between the Newspaper men and the city officials will be played at the Athletic Park next Tuesday afternoon. It is rumored that several city officials will lose their places on their team as Capt. Jack Taggart is completely disgusted with the way some of them "cut up" in the last game. Scott Winters, the husky patrolman says he positively refuses to play as it is too much like work to suit him. The newspaper men will have only catcher and it is thought that the officials will have a hard time in holding the score down to forty. It is assumed that the city boys will not get a run for they did not earn one in the last game played. All their scores, being made on passed balls by the catcher.

Alvin Law and Saloons.

Columbus, O., July 28.—The Alvin law, increasing the Dow tax from \$350 to \$1000 per year, has put 275 Ohio saloons out of business, and for some time has more than doubled the revenue derived from the saloon tax. The final Dow tax settlements were completed by Auditor of State Gilbert Saturday for the current six months. They show that 9256 saloons were doing business July 1, as compared with 12,924 July 1, 1905. The reduced number of saloons paid more than double the amount of tax paid by the larger number last year. The Dow tax collected in this settlement aggregates \$4,637,233, of which the state receives \$1,295,045 and local revenue funds \$3,342,187.

TONS OF DYNAMITE LET GO

FREIGHT CAR BLOWN UP

Strange to Relate None of the Members of the Train Crew Was Injured in an Explosion Which Shook the Utah Hills.

Salt Lake City, Utah, July 28.—A car containing thirty tons of dynamite and powder caught fire on the Tintic branch of the Rio Grande western railroad today and the resultant explosion shook the hills for miles around the little town of Goshen, Utah, tore a large pit in the earth and scattered the fragments of the car to the winds.

The dynamite was consigned to James Morgan, a dealer in supplies at the mining town of Eureka, and the car was attached to the end of the regular accommodation train No. 122, just after passing Goshen. The train crew discovered that the car was on fire, the train was stopped and an effort made to put out the fire. Seeing that this was impossible, however, a quick run was made for a convenient siding and the car was abandoned. The explosion occurred shortly afterward. Nothing was left of the car except a few trucks scattered along the hillside. No one was injured, and no damage done except to the car and track.

The game proved a good drawing card, there being probably four hundred persons in attendance. The Fairview team took the lead in the scoring department early in the game and maintained it throughout. The girls put up an excellent article of base ball during the first few innings but owing to fatigue were not able to keep the shut up. The woman pitching the first few innings, had the Fairview batsmen at her mercy with a quick underhand delivery but her other shoots were easily solved.
