

FACTS IN NATURE.

Not Only Do We Get Inspiration From Nature, But Health as Well.

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, biliousness, or torpid liver, coated tongue with bitter taste in the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more apparent that Nature's most valuable health-giving agents are to be found in forest plants and roots.

Nearly forty years ago, Dr. R. V. Pierce, now consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., discovered that by scientifically extracting and combining certain medicinal principles from native roots, taken from our American forests, he could produce a medicine which was marvellously efficient in curing cases of blood disorder and liver and stomach trouble as well as many other chronic or lingering ailments. This concentrated extract of Nature's vitality he named "Golden Medical Discovery." It purifies the blood, puts the stomach and liver into healthy condition, thereby helping the digestion and assimilation of food which feeds the blood. Therefore, it cures weak stomach, indigestion, torpid liver, or biliousness, and kindred derangements.

It cures nervousness, with its attendant headache, feeling weak, easily tired, stitches or pain in side, back gives out easily and sleep, feeling of gas, constipation, or irregular bowels, feel flashes of heat alternating with chilly sensations or kindred symptoms. They point to derangement of your stomach, liver and kidneys, which the "Golden Medical Discovery" will correct most rapidly and permanently. It contains no alcohol or habit-forming drugs. All its ingredients are printed in plain English on wrapper.

The sole motive for substitution is to permit the dealer to make a little more profit. He cannot lose by substituting for "Golden Medical Discovery."

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. One or two or three are cathartic.

MURRAY WILL NOT BUILD

GIVES UP THEATRE PLAN

Now That the Gennett Has Dropped Vaudeville, Murray and Sun Will Not Erect a New Vaudeville House in This City.

It was rumored earlier in the season that Richmond was to have a new vaudeville theatre, which was to be built by Sun and Murray, as an addition to their circuit of vaudeville theatres in Indiana and Ohio. Mr. Murray stated yesterday, however, that no theatre would be built in this city this season as it was not required since the Gennett has dropped vaudeville. Mr. Murray will keep vaudeville running at the Phillips and during the course of the coming season he will have several stock companies at his house. He has already booked five repertoire companies, for week stands during the coming season.

TRAIN AND TRACK.

An ordinary European railway engine is equal in strength to 500 horses. French railway companies are fitted for each train which arrives more than ten minutes late.

Car wheels made by pressure from the steam power are strong enough to take a second set of steel tires after the first set has been worn out by a run of 200,000 miles.

Scotland's fastest railway point to point runs from Forfar to Perth, where the thirty-two and one-half miles are traversed twice daily in thirty-two minutes, which means a speed of 60.94 miles an hour.

Pen Sifting.

The center slit in the pen is cut by a machine which seems almost too thick. It consists of two chisels which barely pass each other when the slit is made, and the exact way in which the pen is poised so as to place the chisels in the proper position for cutting is one of the marvels of penmaking.

The Greeks' Fattening.

The Greeks, notwithstanding their genius in other matters, having only a glimmering of the use of the arch, could not construct bridges of any size.

GAMES THIS AFTERNOON
Palladiums Play Pogue Millers and Starr Pianos Meet the Pan Handle Team Under New Rules

In the city league today the Pan Handle team will meet the Starr Pianos and the Palladiums will cross bats with the Pogue Miller aggregation. The new rules are now in effect and some of the imported faces will not be seen on the play ground diamond this afternoon. The Palladium team is not affected by the new rules as all the players are eligible to play. The Pan Handle team will be hurt the most by the rules, losing Ridge, Tibbits and Gould. Pogue Miller has played some out of town players which they will not be allowed to use hereafter while the Starr Piano team is within bounds of the rules.

WANT TO PLAY GIANTS
DAYTON TEAM CHALLENGE

Strong Buckeye Team Wants to Play Richmond Colored Aggregation and the Offer Will Probably be Accepted—Means Good Game.

The famous Dayton Shiloh base ball club has challenged the Richmond Giants for a game August 19. The Dayton team claims the championship of that city and is reputed to be one of the strongest independent teams in Ohio. Among its players are several minor league stars. The Giants will probably accept it as they are anxious to play the Dayton team. The Giants have made an enviable record so far this season having won sixteen out of seventeen games played. They have games scheduled for the next six Sundays.

SEYMOUR WANTS PART OF \$10,000

Ex-Red Refuses to Play with New York Until He Gets Money He Asks For.

CONFERENCE WITH BRUSH

FAST OUTFIELDER SAYS THAT PART OF THE MONEY PAID TO NEW YORK BY CINCINNATI SHOULD GO TO HIM.

[Publishers' Press] New York, Aug. 3.—James Bentley Seymour, who figured in the recent exchange of players between New York, St. Louis and Cincinnati, kicked over the traces today and refused to play in the game scheduled for the polo grounds with St. Louis. "Cy" says he has nothing against the New York management, who have conceded him all rights, but he holds to the belief that in view of certain promises made him by the Cincinnati management he is entitled to some of the \$10,000 Cincinnati received for his release. Seymour had a conference with Mr. Brush this afternoon and it is the general opinion that the difference will be fixed up so that "Cy" will be in the game tomorrow against Chicago.

ANOTHER MUNCIE TEAM

Oyamas of Muncie Will Cross Bats With Fairview Team Sunday—A Strong Organization.

The strong Muncie Oyamas base ball team will cross bats with the Fairview team at the Fairview ball diamonds Sunday. The Oyamas are probably the strongest independent bunch of ball tossers in Muncie as they have defeated the Muncie Shamrocks. They come well recommended and the game at Fairview Sunday ought to attract a large crowd.

Made a Big Catch.

Dr. and Mrs. E. H. Mendenhall of 114 South 9th street have returned from a two weeks stay in the country. They were visiting near Abington, and while they were gone the doctor spent much time along the river banks fighting mosquitoes and fishing. He reports a very successful catch and an enjoyable time.

HE PROVED HIS RIGHT.
It Was Quite a Roundabout Way, but He Got His Water.

A western lawyer says that he was once in a court in Missouri when a young man most fastidiously dressed sauntered into the temple of justice. Some of the officials of the court had ever seen him before, and as the proceedings were unimportant and somewhat tedious it chanced that the stranger attracted some attention. On his part he eyed the judge narrowly, sized up all the attorneys, drummed loudly on the bench in front of him and finally rose and sauntered up to the bar, where he poured out for himself a glass of iced water.

The judge presiding, a nervous and testy old fellow, had himself observed the young man and by his frowns had given evidence of his disapproval. When the stranger had boldly marched up to the bar and had taken the water it looked as if the judge would boil over with indignation at this exhibition of temerity, amounting almost to contempt. "That water, sir," roared the judge, "is for attorneys and other officials of this court."

Whereupon the strange young man turned red and left the courtroom. But the court was to hear more of him, for in about half an hour he returned, bearing in his hand a roll of parchment. The judge now glared at him in the most savage manner, but the young man flinched not. Finally, during a lull in the proceedings, the eccentric young person addressed the court:

"Your honor!"
"What is it, sir?"
"I wish, your honor, to submit to this honorable court my certificate of admission to practice in the supreme court and all other courts of this state."

"Well, what of that?" growled his honor.
"Simply this, your honor. Now that I have presented the proofs of my admission to the bar I would move the court that I be permitted to drink from the official pitcher."

The young attorney got his water—Lippincott's Magazine.

Honest Man.
"Will you love me when I am old?" asked the kittenish damsel with the corkscrew curls, the false frizzes, the suspiciously bright teeth and the large bank account.

"Why, I love you now, don't I?" asked the plain, everyday, matter of fact, unadorned man who was trying to provide for his future.

And, oh, brethren, the voiceless wind that drifts across the open polar sea was a hot wave compared to the atmosphere that surrounded him in a minute.—Judge

Indian Soldiers.
Only the Indians from the hills, where the air is pure and exhilarating, make good soldiers. The plainsmen, as well physically and as gentle mentally as women, have neither the strength nor the desire to fight.

Bakers' Marks

There is a story of an old lady who made up a batch of mince and apple pies. Wishing to be able to distinguish one kind from the other she marked the mince pies **TM** for "tis mince" and the apple pies **TM** for "taint mince."

The baker's marks on the ordinary run of bakery products are of little more value for purposes of identification than the marks on the old lady's pies.

But **HERE** is a trade mark that really identifies—that enables you to distinguish the world's best baking—the Biscuit, Crackers and Wafers made by the **NATIONAL BISCUIT COMPANY**. This trade mark appearing in red and white on each end of a package guarantees the contents to be of highest quality—pure, clean and fresh. To learn something of what this trade mark means try a package of either of the products mentioned below.

Lemon Snaps

The landlaid answered: "Don't you see? They're booming my hotel!"—Washington Star.

Ancient Wisdom.

Anaxagoras, an Athenian philosopher who lived in the fifth century before Christ, taught that wind was the result of rarefaction; that the rainbow was the result of reflection and refraction; that the moon's light was all borrowed from the sun, and that the fixed stars were of immense size and far beyond the sun.

Graphite.

Inexhaustible supplies of superior graphite, almost pure and eminently suited for pencils, are found in Siberia.

Memory Bells.

Memory bells are toys peculiar to Japan and are given by Japanese youths to their sweethearts. They are constructed of slips of glass so delicately poised that the least vibration sets them jingling. The memory bells are hung in a window, where the breeze will set them in motion. The delicate tinkling serves to remind the owner of the giver; hence the pretty, fanciful name.

We Like Fruit.

For strictly orchard products which found markets and presumably were consumed during the year ending June 30, 1905, the American farmer received \$87,751,840, and we raised in American vineyards 1,500,000,000 pounds of grapes, which crop brought our American vineyardists over \$15,000,000 more. American subtropical fruits brought the producers nearly \$10,000,000, and we imported from the West Indies and southern Europe \$25,000,000 worth of tropical fruits.—Ernest C. Rowe in Leslie's Weekly.

Hoarseness.

A bit of borax the size of a small pea allowed to dissolve in the mouth will remove hoarseness for a considerable time and is very useful for those who have to sing or speak in public.
