

A Wonderful Record.

As made up by improved and exact processes Dr. Pierce's Favorite Prescription is a most efficient remedy for regulating the womanly functions, correcting displacements, as prolapse, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. It cures the backache, periodical headaches, the dragging-down distress in the pelvic region, the pain and tenderness over lower abdominal region, dries up the pelvic catarrhal drain, so disagreeable and weakening, and overcomes every form of weakness incident to the organs distinctly feminine.

"Favorite Prescription" is the only medicine for women, the makers of which are not afraid to print their formula on the bottle wrapper, thus taking their patrons into their full confidence. It is the only medicine for women, every ingredient of which has the strongest possible endorsement of the most eminent medical practitioners and writers of our day, recommending it for the diseases for which "Favorite Prescription" is used. It is the only put-up medicine which does not contain a large percentage of alcohol, so harmful in the long run, especially to delicate women. It has more genuine cures to its credit than all other medicines for women combined, having saved thousands of sufferers from the operating table and the surgeon's knife. It has restored delicate, weak women to strong and vigorous health and vitality, making motherhood possible, where there was barrenness before, thereby brightening and making happy many thousands of homes by the advent of little ones to strengthen the marital bonds and add sunshine where gloom and despondency had reigned before.

Write to Dr. R. V. Pierce. He will send you good, fatherly, professional advice, in a plain, sensible, and absolutely free. Address him at Buffalo, N. Y. Dr. Pierce's Pleasant Pellets do not gripe. They effectually cleanse the system of accumulated impurities. The People's Common Sense Medical Adviser, by Dr. Pierce, 1008 pages, is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address as above.

LEAVES CITY WITH BANKS' MONEY AND YOUNG SWEETHEART

(Continued from Page One.)

First National Bank having deposited sums there before by check of the same man whose signature he forged. The fact that the young forger was known as a contractor and his brother, who is at Eaton is one, as is also his father made the presentation of the large check more plausible. The idea is entertained by some acquainted with criminal codes that the work is that of a professional which tends to show that young Eschenfelder was the probable tool of a clever crook. It savors of every precaution on the part of the young man to perfect himself in his manner and execution of the final rites of the bone game.

Has Done Time Before. This is the second turn in crime that Eschenfelder has been guilty of. About two years ago while he was living at Eaton he went to the pasture of a farmer and drove several cows from the field to a nearby town where he offered them for sale. He was prosecuted for this act, and convicted, being given a three year sentence in the Reform School. He had served one year last fall and was released on parole. For almost a year he was on good behavior when this last turn of the hand and pen has put the authorities on his track again. Elsie Embury, for the past two years has been a source of worry and concern to her parents. She seems to have gotten into the broad path and all that loving mother and father could do seems to have been fruitless. Not long ago her father called Mrs. Candler to his assistance and asked her to talk to the young girl. This was done and for a time some improvement was noticed in her conduct.

It is believed that the young couple have not been married yet. This absconding with \$800 of local bank money does not affect depositors in any way. The banks have to stand for the loss, if there be any, from their own individual accounts.

TWO CITY LEAGUE GAMES

GREAT INTEREST IN THEM

Pan Handles Will Play Stars and Try to Clinch Hold on Second Place While Pals Will Battle Against the Pogues.

In the City League today the Starr Piano and Pan Handle teams will play the first game and the Pogues and Palladiums the second. The season is drawing near to a close and a great deal of interest attaches to the games. The Pan Handles desire to win in order to clinch second place which the Kibbeys are after. The Pals want to win with the hope in prospect of getting out of last place. They are bunched there pretty securely just now and must win two straight games while the Pogues must lose the same for the hardware men to take the undesirable berth.

The Backbone of a Mighty Nation

is good food—food for brain food for brawn, food that is strengthening, that gives energy and courage. Without a proper appreciation of this great fundamental truth no nation can rise to greatness.

As an article of food, soda crackers are being used more and more every day, as is attested by the sale of nearly 400,000,000 packages of **Uneeda Biscuit**, which have come to be recognized as the most perfect soda cracker the world has ever known.

And so **Uneeda Biscuit** will soon be on every table at every meal, giving life, health and strength to the American people, thus in very truth becoming the backbone of the nation.

AERONAUT LOST HIGH IN THE AIR

Made Ascension Knowing that His Machine Was Not Fit To Make Trip.

DID IT TO PLEASE CROWD

FLIGHT BEGAN AT OCONTO, WIS., AND WHEN LAST SEEN UNFORTUNATE AIRSHIP WAS OVER GREEN BAY.

Oconto, Wis., Sept. 7.—After drifting helplessly 14 miles, 2,000 feet above earth, in an airship he could not control, William Mattery of Chicago, an aeronaut who made an ascension from here, disappeared from view. When last seen Mattery's unmanageable aerial craft was hovering uncertainly over Green Bay still buoyant and drifting out over Lake Michigan. Mattery made the ascension against his judgment, knowing that the machinery had been broken and spliced. But the crowds, eager to see a man risk his life, declared that the story of a broken propeller shaft was told as a ruse to avoid making an ascension. Therefore Mattery went up just to "make good."

A special from Green Bay, Wis., says: The aeronaut who made the ascension from Oconto is believed by some to be in Canada, while others believe him to be in Michigan. When last seen he was high over Green Bay. Efforts are being made to get some news from him.

CUBAN REVOLT

Menocal Has Conference With One of The Insurgent Leaders.

Havana, Sept. 7.—Insurgent forces commanded by Pino Guerra are moving nearer to the city of Pinar del Rio General Menocal, it is stated, will probably visit Guerra personally and confer with him regarding peace terms.

General Lorenzo Castilla was seriously wounded on the forehead by an insurgent subaltern, who struck him with a machete after the general struck the insurgent officer with the flat of his sword.

Advices received here from Cienfuegos confirm reports that 50 of the government troops in the province of Santa Clara joined the insurgents in the vicinity of Cienfuegos.

Armistice Declared.

Havana, Sept. 7.—An official armistice for 10 days was declared on by the government. The zones in which the opposing forces must remain will be determined at once. The armistice will be conducted under the regular war regulations.

BLOW UP BRIDGES

Cuban Rebels On a Foray In Province Of Pinar Del Rio.

Havana, Sept. 7.—Two bridges on the Western railway between Pinar del Rio and San Luis, south of that city, were blown up with dynamite. A force of men sent to repair the bridges, which were built of concrete and steel, was stopped by a body of rebels numbering at least 500 men.

General Avalos, commander of the government forces in the province of Pinar del Rio, telegraphed the authorities here asking them to send three rapid fire guns to the scene of the bridge destruction on the Western railway in order to enable him to protect the workmen sent to rebuild the structure.

With proper protection the railroad company officials think they can repair the bridges in five days. Guerra's force is becoming increasingly numerous in that part of the country. The people there do not think the government can suppress the insurrection.

Jackies Want Reduced Fare. Washington, Sept. 7.—The suggestion was made to the navy department that if arrangements could be made with railroad companies to carry sailors of the navy at half-fare or reduced rates, it would be of great benefit to the service, and would cause the enlistment of more men from inland towns who are compelled to pay full fare out of their own pockets when they wish to see their home folks. Sailors of the British navy are permitted to travel at reduced rates.
