Batteries—Overall and Moran; Richie and Donovan. Umpire—O'Day.

HONORS WERE DIVIDED. New York, Sept. 29.—Defeating the St. Louis Nationals in easy style in the first game today, the New York Nationals were themselves beaten in the second contest, owing to Frohmes' good pitching. Scores: First game—R.H.E. N. Y. 0 0 2 0 1 0 0 3—6 11 3. St. L. 2 0 0 0 0 0 0 0—2 4 3. Batteries—McGinnity and Bresnahan; McGinnity and Noonan. Second game—R.H.E. N. Y. 0 0 0 0 0 0 0 1—1 4 2. St. L. 2 0 0 0 0 0 0 0—0 6 2. Batteries—Frohme and Noonan; Wiltse and Bresnahan.

THE REDS LOST. Boston, Sept. 29.—Boston drove Mason out of the box in the seventh inning of today's game. Essick, who succeeded him, was both wild and ineffective. Both teams played loosely in the field. Score: R.H.E. Bos. 0 0 1 3 0 0 2 1—7 11 2. Cin. 2 1 0 0 0 0 0 0—3 6 2. Batteries—Lindaman and Brown; Mason, Essick and McLean. Umpires—Conway and Supple.

PITTSBURG BREAKS EVEN. Brooklyn, Sept. 29.—The Brooklyn and Pittsburg Nationals split even on a double header today. The Trolley Dodgers being shut out in the first, but winning the second game by opportune hitting. Score: R.H.E. Brook. 0 0 0 0 0 0 0 0—0 3 1. Pitts. 0 0 0 2 0 0 0 0—3 10 1. Batteries—Stricklett and Berger; Ritter, Willis and Gibson. Umpires—Emslie and Johnstone.

FACTS FROM FRANCE. A Paris Joiner named Dereboul made a bet that he could consume ten yards of sausages. He won it, but died afterward from congestion. For the first time a party group has been formed in the French chamber for the defense of the rights of women headed by Henri Cheron. Making postal cards carrying insulting allusions to the German emperor is a pleasing Parisian industry. The partisan political postal card is quite common. The Paris budget committee in taking up the estimates for 1907 struck out the salary of Diebler, the public executioner, thus foreshadowing the disappearance of the guillotine. French officials are considering a scheme for providing a standing army of long service men, one feature of which is to be the compulsory enlistment of all French schoolboys in national rifle corps, so that from their earliest years they may be accustomed to habits of discipline and knowledge of arms.

Castle Williams. Castle Williams, on Governors Island, in New York bay, was named for Colonel Jonathan Williams, first superintendent of West Point, known as "father of the engineer corps" and designer of most of the fortifications around New York harbor, including the one which bears his name. **Mighty Mice.** The Hindus have a proverb to the effect that women fear mice, mice fear men and men fear women.

The Rhinoceros. The rhinoceros is the thickest skinned quadruped, its hide being tough enough to resist the claws of a lion or tiger, the blows of a sword or the balls of an old fashioned musket.

Just Among Sports. The finish is not to the swift. Regardless of his haste. But to the nifty gentleman. On whom the bets are placed.

ARRANGING A SCHEDULE

The High School Foot Ball Players Getting Ready to Meet Numerous Teams.

Manager Murray of the High School foot ball team, who has so far scheduled but two games, which are both with Steele High School of Dayton, wrote today to Greenville and Rushville concerning games. The prospects for a good foot ball team at high school are now very bright for the candidates in Thursdays class game made a very good showing. The men for the regular team will not be picked until a coach can be secured. The team expects to play at least four games two of which will be played at home.

NEW YORK CITY.

New York City has ready for duty in the state militia 10,367 men. During the last twelve months \$40, 218,000 in precious stones were brought to New York city.

Out of every hundred persons in New York city sixty-one are unmarried, thirty-one married, five widowed and three divorced.

New York being an alleysville city, its streets are too often marred by long arrays of ash and garbage cans. Along ten Harlem blocks 322 of these iron clad decorations (?) were counted on a recent morning.

In the 865 square miles of water that is in New York city, with its 333 miles of water front, is wasted enough energy every day to supply the continent with needed power. In this body of water the tide daily raises and lowers 6,000,000,000 tons of water an average of four feet.—New York Herald.

PITH AND POINT.

Fools brag where wise men only admit.

Most people like to tell their imaginary troubles.

Habit is stronger than either judgment or passion.

The man who lacks polish doesn't always lack humanity.

After all, the easiest way to do a thing is to do it right.

In prosperity the proud man knows nobody; in adversity nobody knows him.

A man's worth to others sometimes depends on how much they can work him for.

It's a pleasure to make wishes, and that is about all the satisfaction the most of us get out of them.—Chicago News.

DON'T QUARREL

Life is too short for quarrels.

Keep away from people's pet abominations, avoid subjects they are sensitive about.

Don't quarrel with any one if you can possibly help it. One quarrelsome member of a household can poison the entire home atmosphere.

There is no pain equal to that of being unable to forgive because it is too late. It is only ugly, stubborn pride that keeps you from asking or granting forgiveness.

Remember that "many go forth in the morning who have never come back at night," and never let any of your dear ones go off in the morning with hard feelings between you and them.—Brooklyn Times.

EDITORIAL FLINGS.

Have you tried the peekaboo style of spelling yet?—Toledo Blade.

And think how cheap the man must feel who has just finished paying the installments on his new dictionary.—Washington Post.

American girls who marry German bachelors should remember that in Germany desertion is not punishable by law. Doubtless it is argued the wife suffers no hardship.—Boston Transcript.

Soft Shelled Eggs.

Farm Poultry has some good suggestions in a recent issue about eggs. In regard to soft shells it says the hens get either insufficient shell forming material or the egg organs are deranged. We incline to the latter opinion. In one case we know positively some hens do not lay at all. Careful watch of a doubtful hen some years ago proved it. When killed she showed some incipient eggs, but otherwise was a mass of fat. The only noticeable thing about her was her alternate excitement and sluggishness and a deep posterior.—Poultry News.

(Publishers' Press) Cleveland, Sept. 29.—A decided crimp was put in Cleveland's pennant aspirations this afternoon by "Smiling Al" Orth and the Highlanders bettered their own bunting chances by taking the final game of the series, four to one. Score: R.H.E. Cleve. 0 0 0 1 0 0 0 0—1 6 2. N. Y. 0 0 0 0 0 2 2 0—4 14 0. Batteries—Hess and Clarke; Orth and Thomas. Umpires—Connolly and Hurst.

We hope it is true, as reported, that the antinose movement is making headway in other cities. It certainly is not doing that in Chicago. In this town the notion always has obtained that noise is indispensable to activity and that the noisiest man must necessarily be the most active one. It is going to take a long time to eradicate this fallacy. In the meantime the interior of the loop is about as restful a place as a great battlefield. It is a perfect hell of noises, most of them absolutely wanton and unnecessary.—Chicago Chronicle.

War of the Future. It cannot be long before the torpedo controlled and directed from a depot ship becomes an actual factor in modern warfare. The advantages of such an arrangement are so obvious that progress in this direction will be watched with the greatest interest. A machine made war, governed as all wars are, simply by the question of cost, is a consummation devoutly to be wished.

LOW RATES ARE OFFERED

CALIFORNIA IS BOOMING

Workmen Needed and Railroads will Make Special Inducements to Get Them to San Francisco Next Spring When Building Begins.

San Francisco, Sept. 29.—Charles S. Fee, passenger traffic manager of the Southern Pacific, announced that the Southern Pacific would make low rates both next spring and next fall to California, to induce workmen and laborers to come to San Francisco and colonists to come to the state generally. These rates will be \$25 from Kansas City, \$33 from Chicago and \$50 from New York and corresponding rates from other points. Stop overs of five days will be allowed at any point in California.

Record Rainfall. Birmingham, Ala., Sept. 29.—During 24 hours the rainfall here was 6.63 inches, breaking all records. A maximum velocity of 50 miles an hour was attained by the wind. Sewers overflowed and much damage was done to streets, sidewalks and parks. Village creek, just outside of the northern part of the city, overflowed its banks and several families whose homes became surrounded by water had to be rescued by city firemen.

Sargent's Blind Pupils. J. S. Sargent tells of an artist in Paris who had much difficulty in getting his pupils to make use of the extremely "impressionistic" ideas of art. One evening at a large dinner party he asked an elderly gentleman next to him, who was very shortsighted, how the gentleman at the foot of the table appeared to him. "Well," replied the nearsighted one, "I see a very white spot, which I take to be his shirt front, and a flesh colored spot, which I know to be his face." "Ah," exclaimed the artist enthusiastically, "how I wish my pupils could see things as you do!"—Searchlight.

Music for the Masses. There are several kinds of music. That are rated pretty fair. Some of it you have to pay for. Some of it is free as air. But no music is so gladsome as the bright and cheerful tune that comes floating round the corner when the whistle blows at noon.

Slowly drags away the morning in the office or the shop; Time is certainly a laggard. Almost threatening to stop; Heavy grows the pen and ledger. Saw and hammer take on weight. But they fall down when the whistle opens up the noonday gate.

In the piercing intonation of the message that it sings There are promises in plenty Without any kind of strings—Rest, rap, cheever or a saunter And a pipe or two, no doubt, Not to mention the substantial That the dinner pail pans out.

There are melodies in plenty That assail our weary ears—Ragtime, classical, steam pianos And the music of the spheres; There is piping in the gloaming; There is baying at the moon. But they're every one back numbers When the whistle blows at noon.

THE GOLD MINE RAIDED

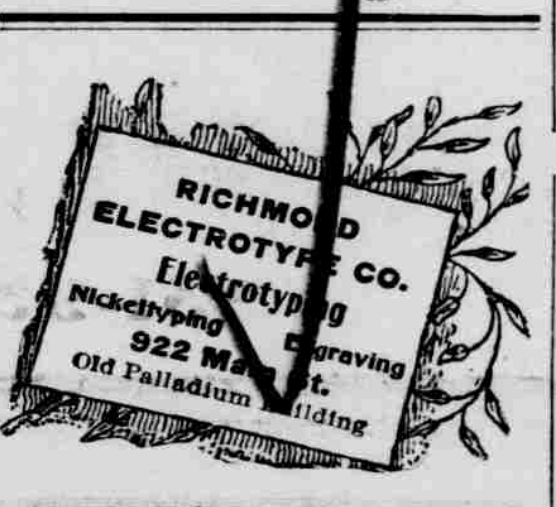

RICH HAUL WAS MADE

Four Masked Men Took Sensational Method to "Get Theirs" and They Succeeded—They Looted the Sluice Boxes of Their Riches and Escaped

Victoria, B. C., Sept. 29.—News from Australia of a sensational raid on "Pampan" rewards mine at the famous Kalgoolie gold fields, recalls the doings of "Captain Starlight" and the Kell Bushrangers. Four masked men with revolvers suddenly attacked the mine staff, two binding and gagging the miners at the battery, while the others covered them with revolvers. One of the robbers then went for buckets and the quartet washed out considerable gold from sluice boxes. To secure themselves from possible interference the robbers had cut the telephone wires. They secured over \$10,000 worth of gold and decamped.

California Booming. San Francisco, Sept. 29.—In its bulletin of progress, the California promotion committee says: September has been a notable month in the progress of San Francisco toward recovery from the effects of the big fire. Reports from railroads entering California show that the tourist and colonist traffic has increased enormously. Labor supply is still inadequate, especially ordinary laborers and skilled artisans in the building trades in San Francisco. Every educational building in San Francisco is crowded to its limit, the enrollment of pupils being 29,803. Investigation into cost of living in San Francisco shows that in all but rent there is no increase over prices prevailing before the fire.

Plight of Castaways. Victoria, B. C., Sept. 29.—The steamer Cambrian, which returned to Sydney from a south sea cruise, reported picking up two American seamen, Charles Green and William Brown, who had lived for seven and a half months on green bananas for the most part when they were cast away from their wrecked Chilean schooner, Saratia, on Easter Island. The Chileans on the island succored their countrymen, but refused food to the Americans as well as refusing them lodging. The two were shown a cave to sleep in, but found it a number of skeletons and they slept in the open.

...Minck's Beer Still Leads...

Brewed by

The Minck Brewing Co.

Richmond, Ind.

MINCK'S BEER is a product of scientific brewing. First comes the selection of hops that have the greatest food percentage. We import hops from Bohemia -- there is none better. The proper blending of the ingredients of beer give to it the flavor. Minck's Beer is unsurpassed in this respect. It's the flavor that gives it popularity among discriminating people who know good beer from poorer grades. There is nothing in our brewery from mixing vats to ageing casks and bottling apparatus that is not fully sterilized before the unfinished or finished product comes in contact. That is what insures purity.

Nearly 90 per cent of all the beer consumed in Richmond comes from the MINCK Brewery. This big business did not "just happen." There was some cause for it. When it became a fixed fact that MINCK'S BEER was BETTER than five-sixths of the varieties sold in this country, and EQUALLED the other sixth, there was an instant demand created. This demand has been growing daily. Not only as a beverage is Minck's Beer popular, but its health-giving properties make it a prime favorite as a tonic. When a physician advises beer for his convalescent patient, he can conscientiously recommend Minck's.

"A Beer For All The Seasons."
