

GROCERS IDEAS ON THE FOOD LAW

Says That Its Enforcement
Should be Gradual, Not
Immediate.

SUGGESTIONS OFFERED

THE RICHMOND GROCERS, ES-
PECIALLY THE WHOLESALERS
METHODS INTERESTED IN THE
THEORY TO BE PURSUED.

Richmond grocers, especially the wholesalers, are much interested in the work of the Federal commission that is preparing rules and regulations under the pure food law. At the recent meeting of the commissioners in New York many of the manufacturers of foodstuffs as well as dealers submitted oral suggestions as to what the forthcoming rules shall provide. Formal suggestions in the form of briefs prepared by attorneys for the interests to be affected are now being submitted to the commission. The National Wholesale Grocers' Association, through its attorneys, has just presented its views at great length. In the first rules published a reasonable time before they become operative. The commissioners announce that they will accommodate the association. It is the hope of the commission to have the rules ready for publication shortly, and thus afford the manufacturers and dealers at least two months in which to prepare to observe the law.

Should Proceed Slowly.
The grocers' association expressed the opinion that the Government ought to proceed slowly in enforcing the law. It lays special stress on the plea that canners should have until January, 1908, to dispose of the stock of goods they will have on hand January 1, 1907.

PREPARE FOR ELECTION

INSPECTORS ARE NAMED

County Commissioners in Session
Yesterday Named Persons from all
Townships in the County to Serve
November 6.

The county commissioners in session at the court house yesterday, named the inspectors, who are to serve at the election November 6. The complete list is as follows:

Abington, Will J. Robbins.
Boston, Albert B. Parks.
Center, first precinct, William K. Cheesman; second, Francis McMinn; third, John F. Smelser.
Clay, first, Frank C. Underhill; second, Florence Boyd.
Dalton, Albert Chamness.
Franklin, first, Albert Anderson; second, Nathan Graves.
Green, first, Frank S. Reynolds; second, William T. Blair.
Harrison, Martin Coffman.
Jackson, first, William B. Woodward; second, William H. Turner; third, Charles M. Sowers; fourth, J. E. Copeland; fifth, Abraham Rummel; sixth, Park Gipe.

New Garden, first, Lemuel O. Anderson; second, Asa Pitts.
Perry—John M. Manning.
Washington, first, Theo. P. Crist; second, Elbert C. Caldwell; third, Charles Hale.
Wayne, first, James C. Howell; second, Sanford Henning; third, Uriah E. Norris; fourth, Levi Meyers; fifth, William W. Spaulding; sixth, Oscar E. Mashmeyer; seventh, Clinton Shurley; eighth, Edward E. Holman; ninth, Henry Scherby; tenth, Edmund C. Dickinson; eleventh, Elam Hill; twelfth, John E. White; thirteenth, William H. Plummer; fourteenth, Richard R. Van Zant; fifteenth, Lewis E. Bliff; sixteenth, Elmer E. Hall; seventeenth, Albert Rockhill; eighteenth, Eli S. McDiuid; nineteenth, John F. Davenport; twentieth, Albert Oler; twenty-first, Joseph E. Edwards; twenty-second, August Thomas; twenty-third, Lewis K. Harris; twenty-fourth, Isaac Gause; twenty-fifth, Charles E. Potter; twenty-sixth, Alonzo E. Massey; twenty-seventh, Carey R. Tingle; twenty-eighth, George Knollenberg; twenty-ninth, E. G. Hill; thirtieth, Charles Ross; thirty-first, William Clark Walls; thirty-second, Carl L. Baker; thirty-third, George F. Matthews; thirty-fourth, Omar T. Jones.

Webster, Charles Harris.

Obituary of Isabelle B. Webb.

Isabelle B. Webb was born in Washington, Pa., in 1842, and died Sept. 30, 1906. On November 1, 1864 she was married to Wm. H. Webb and has ever since lived in the city of Richmond. To them were born four children, Theodore, John, deceased, Charles and Arden, all of whom are living in this city. She was a woman of fine character and cheerful disposition and made many friends to join the family in their loss. She was a good wife and mother and she was buried under the auspices of the Garfield Circle and the Rathbone Sisters both of which she was a prominent member. There were many beautiful floral tributes and a large attendance of friends. She was laid to rest in the Earlham Cemetery Wednesday afternoon, Oct. 3, 1906, Rev. Graham officiating. Oct.

FOR THROUGH SERVICE

The Indiana and Ohio Traction Syndicate is now planning for Great Improvement.

D. G. Edwards of Cincinnati, vice-president in charge of traffic of the Indiana, Columbus & Eastern Railway Company, was in Indianapolis yesterday consulting with traffic officials of the so-called merger traction lines in Indiana relative to schedules and rates. One of the important questions considered had to do with the re-es-

tablishment of through cars between Indianapolis and Dayton, and the establishment of limited service all the way to Columbus. It is understood that the traffic officials are now considering the feasibility of running the new interstate limited cars on through to Columbus, instead of providing for a change of cars at Dayton. The through service to Dayton and Columbus will be by way of the Indianapolis and Eastern, Dayton and Western, and the Indiana, Columbus & Eastern, which is the holding company of the Schoepf properties in Ohio.

THE BATH COMEDY

BY AGNES AND EGERTON CASTLE
Copyrighted Illustrated by Heyer

We have secured for our columns this fine story from which, it will be remembered, David Belasco wrote for Henrietta Crossman that phenomenally successful play

Sweet Kitty Bellairs

Kitty is the heroine of the story and a charming one she is, wondrous wise withal. Listen to her:

"There are three great rules to be observed in our dealings with men. The first rule comprises an extraordinary number of minor details, but briefly and comprehensively it runs thus: Never be monotonous. Second rule: Never let a man be too sure of you. Oh, that is a wonderful, wise maxim! Reflect upon it. Third: Never let a man see how—well, how far from lovely you can look."

The Bath Comedy is a rollicking story of light intrigue in which sparkling dialogue leads to exciting action; a story of sudden quarrels, brilliant sword play and the rushing hither and thither of two distracted women to stop impending duels.

Miss Kitty Bellairs, bewitching widow of twenty-six and belle of Bath, is back of it all. Finding her husband, Lady Standish, bride of three months, in tears because of her husband's neglect, Kitty advises her to make him jealous, which she proceeds to do with surprising results.

SUGGESTIONS TO SCHOOL TEACHERS

Superintendent Cotton Issues
Bulletin to Them of Much
Interest.

PUPILS ALSO INCLUDED

THE OLD PLAN OF SPITTING ON
SLATES IS "TABOOED"—CHIL-
DREN TOLD NOT TO SWAP AP-
PLE CORES, ETC.

In the monthly bulletin just issued state superintendent of public instruction offers the following suggestions to school teachers and pupils, and urges their adoption:

1. Do not spit except in spittoon or a piece of cloth or a handkerchief used for that purpose alone. On your return home have the cloth burned by your mother or the handkerchief put in water.
2. Never spit on a slate, floor, sidewalk or playground.
3. Do not put your fingers in your mouth.
4. Do not pick your nose or wipe it on your hand or sleeve.
5. Do not wet your fingers in your mouth when turning the leaves of a book.
6. Do not put pencils in your mouth or wet them with your lips.
7. Do not hold money in your mouth.
8. Do not put pins in your mouth.
9. Do not put anything in your mouth except food and drink.
10. Do not swap apple cores, candy, chewing gum, half-eaten food, whistles, bean blowers or anything that is put into the mouth.
11. Peel or wash your fruit before eating it.
12. Never cough or sneeze in a person's face. Turn your face to one side or hold a handkerchief before your mouth.
13. Keep your face and hands and finger nails clean; wash your hands with soap and water before each meal.
14. When you don't feel well, have cut yourself or have been hurt by others, do not be afraid to report to the teacher.
15. Be just as careful and cleanly about your person at home as in school.
16. Clean your teeth with tooth brush and water, if possible, after each meal, but at least on getting up in the morning and on going to bed at night.
17. Learn to love fresh air and learn to breathe deeply and do it often.

BUSINESS COLLEGE NEWS

THE NIGHT SCHOOL NOV. 1

Recent Rains Interfere With Tennis,
a Sport Which is Popular With the
Students—Circle Work Has Been
Organized.

A number of former graduates have made pleasant calls at the college this week, and have expressed their appreciation of what it has done for them, and their hearty wishes for its continued success.

The recent rains have somewhat interfered with games of tennis, which seems to be a favorite sport on the campus.

Mr. Charles Cring, General Manager of the Indiana Business College, and family of Indianapolis, are guests of Mr. and Mrs. W. H. Carrier on North D street.

Night school will begin the first of November this year and continue for six months instead of three, as formerly.

Messrs. Blansett and Thomas have re-entered the Commercial Department. Mr. Thomas will soon finish his work in that department, when he intends to take the Shorthand course.

The Circle work has been organized this week thus bringing into use the Wholesale House, Jobbing House, Commission House and Transportation Office, which were also organized and are doing very good work.

Miss Maude Christopher has been doing some stenographic work for Superintendent Jordan this week. Raymond Dunning has been absent from school for a few days owing to sickness.

Miss Zella Warfel entered school this week.

Miss Goldie Brook from Missouri has entered Shorthand department again this week. She reports a good time while home.

Mr. Davis has been absent this week. He has been having trouble with his eyes.

New Boiler is Here.

The new boiler which is to be installed at the Municipal light plant has arrived in the city and the Stirling Consolidated Boiler company of New York, from which it was purchased, was notified of its reception. Within the next few days a man from that concern will arrive in the city to superintend the setting of the boiler. It is one of the most approved makes and has a three hundred and ten horse power capacity. The work will not interfere with the lighting of the homes and streets, but all connections will be made without the loss of any service to the company's patrons.

BILLIONS FOR NEW BUILDINGS.

Greatest Building Boom in World's History--National
Fire Protection Association Urge Improved Building Code

New York, October 6.—Never before in the history of the world has there been such a boom in building construction as is now taking place in the United States. From all parts of the country reports are coming in which show that billions of dollars are being spent in the endeavor to provide homes for a population which is increasing by leaps and bounds.

Chicago is enjoying a boom without parallel in the history of that city. Baltimore has just been celebrating its remarkable rise from the ashes of the great fire. San Francisco bids fair to excel Baltimore's record. New York is constructing new skyscrapers representing investments amounting to \$100,000,000, while in the city and outlying boroughs builders are expending an average of \$150,000,000 a year in hotels, apartment houses, dwellings, etc. The total number of buildings throughout the country is close to 12,000,000, valued at nearly \$15,000,000,000.

The materials used in many of the new buildings are of such a flimsy character that, in spite of all efforts, the terrible fire waste of this country has continued unchecked, until it now averages \$200,000,000 a year. The National Fire Protection Association, in endeavor to reduce these losses, makes an urgent appeal to all interested to co-operate in bringing about better conditions by adopting improved methods of construction; it also recommends that the adoption of an improved building code along the lines of the Building Code recom-

mended by the National Board of Fire Underwriters.

The need for such ordinances was tragically shown in the recent collapse of a concrete garage while in course of construction at Mineola, L. I. Five men were killed and eight badly injured. It was learned after the collapse that some of the men mixing the concrete refused to go on, saying that the proportion of cement mixed with the gravel and loam was not enough to solidify it. Workmen said that the work was being rushed with such haste that sufficient time was not allowed for the concrete to harden.

People are beginning to ask. When is this sort of thing going to stop? Since the collapse of the Darlington Hotel, in March, 1904, the exceedingly treacherous nature of concrete, unless mixed in strict accordance with the formula of standard engineering, has been shown in similar collapses all over the country. The situation is becoming so serious, especially in view of the vast amount of money being put into new buildings, that the International Congress of Architects, at a recent meeting in London, adopted the following resolutions:

That an inquiry into the causes of failure of reinforced concrete and their causes would be most desirable. That an inquiry into the causes of failure of reinforced concrete and their causes would be most desirable. That where reinforced concrete is intended to be fire-resisting the greatest possible care must be taken as to the nature of the aggregate and its size, and also as to the protection of the steel.

MAGOON CONFERS WITH PRESIDENT

New Governor of Cuba Gets
Instructions How to Handle the Situation.

MANY TROOPS TO BE USED

TAFT TELLS ROOSEVELT THAT
ALTHOUGH TROUBLE MAY NOT
ARISE, THAT IT IS BEST TO
HAVE SOLDIERS THERE.

Washington, Oct. 6.—Owing to the satisfactory aspect of affairs in Cuba, Secretary Taft has been asked by cable if, in his judgment, it is necessary to send to the island more troops than the 900 now on board the transport Summer. Meanwhile the preparations will continue for the dispatch of the entire force of 5,500 men, as originally planned.

Governor Taft replied that he has no intention of turning back any portion of the expedition of 5,500 regular troops ordered to Cuba. He feels that this number is needed as a precaution against future trouble. Although he

GENERAL J. FRANKLIN BELL.

does not pay serious attention to the rumors of opposition to the disarmament of the insurgents, he says that the troops to be sent to Cuba will be sufficient to fully garrison the towns and will establish confidence among the disbanded insurgents that they will not be imposed on by the municipal police or rural guards.

Secretary Root and Governor Magoon were in conference with the president at the White House for some time, the purpose being to instruct the governor relative to his treatment of the Cuban question when he assumes office at Havana. General Bell, chief of staff, who left Washington in the afternoon with Governor Magoon for Havana by way of Tampa, also called on the president.

It is now stated that there is no present intention of departing from the program originally outlined for the dispatch of troops for Cuba, and it is expected that some of the troop ships will soon be leaving Newport News for Havana. Whether or not other detachments in addition to those originally ordered to Cuba will be sent will, it is now declared, depend entirely upon Secretary Taft's report upon conditions there.

Insurgents Arrested.
Havana, Oct. 6.—A detachment of 200 insurgents rode into Caridad, suburb of the city of Puerto Principe, waving machetes and threatening people. Twenty American marines from the detachment on duty at Puerto Principe went to Caridad, dispersed the insurgents and arrested 39 of them. General Caballero, the insurgent leader, with 100 men, thereupon
