

### The Best Guaranty of Merit Is Open Publicity.

Every bottle of Dr. Pierce's world-famous medicines leaving the great laboratory at Buffalo, N. Y., has printed upon its wrapper all the ingredients entering into its composition. This fact alone places Dr. Pierce's Family Medicines in a class all by themselves. They cannot be classed with patent or secret medicines because they are neither. This is why so many unprejudiced physicians prescribe them and recommend them to their patients. They know what they are composed of, and that the ingredients are those endorsed by the most eminent medical authorities.

The further fact that neither Dr. Pierce's Golden Medical Discovery, the great stomach tonic, liver purgative, heart regulator and blood purifier, nor his "Favorite Prescription" for weak, overworked, broken-down, nervous women, contains any alcohol, also entitles them to a place all by themselves.

Many years ago, Dr. Pierce discovered that chemically pure glycerine, of proper strength, is a better solvent and preservative of the medicinal principles residing in our indigenous, native, medicinal plants than is alcohol; and, furthermore, that it possesses valuable medicinal properties of its own being demulcent, nutritive, antiseptic, and a most efficient antiferment.

Neither of the above medicines contains alcohol, or any harmful, habit-forming drug, as will be seen from a glance at the formula printed on each bottle wrapper. They are safe to use and potent to cure.

Not only do physicians prescribe the above, no secret medicines largely, but the most intelligent people employ them—people who would not think of using the ordinary patent, or secret medicines. Every ingredient entering into the composition of Dr. Pierce's medicines has the strongest kind of an endorsement from leading medical writers of the several schools of practice. No other medicines put up for like purposes has any such professional endorsement.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. One "Pellet" is a gentle laxative, and two a mild cathartic. Druggists sell them, and nothing is "just as good." Easy to take as candy.

### ENCAMPMENT AT AN END

#### LARGE SUPREME TRIBUNAL

Knights of Pythias Will Have Five Members in Their Judicial Body in Place of Three as Formerly—Other Legislation.

[Publishers' Press] New Orleans, Oct. 21.—With services today by the supreme lodge, the Knights of Pythias annual convocation and encampment which has been in progress here for a week, was brought to a close. The supreme lodge, which consists of 175 representatives, increased the members of the Supreme Tribunal from 3 to 5. The names of Judge W. M. Calk, of Portland, Oregon, and Judge W. D. Jones, of Reno, Nevada, are mentioned for the new places which will be filled later. Legislation was adopted uniting Oklahoma and Indian Territory and bringing them into one domain under the name of Oklahoma, with a combined membership of 8,000.

### PLAN IMMENSE HEALTH RESORT AT HAMMOND

[Publishers' Press] Chicago, Oct. 21.—The United States Steel Corporation is reported behind a plan to build an immense health resort at Kimball Springs, Indiana, just east of Hammond, where officers of the corporation say the waters have highly beneficial qualities. Former Mayor Knotts of Hammond, the corporation's representative in northern Indiana, has already purchased the springs and is superintending the laying of a model city.

### FOR COMMITTEEMEN TO REMEMBER.

Republican precinct committeemen should remember several things on election day.

All polls should be ready to be opened at 6 o'clock in the morning and should be opened at that time. Members of the board should be at the polls in sufficient time to have papers signed and the oath administered so as not to delay the opening of the polls. If no Democrat appears to serve on the board a Democrat who is present should be pressed into service and in case no one will serve, the board should be organized from those present, no matter what party they belong to, the oath administered, and the taking of votes proceeded.

According to a law passed at the last legislature the inspector is required to make a report of the vote in his precinct to the canvassing board at the circuit court room AT ONCE. This does not mean that the inspector may go home and go to bed and attend to it the next day. The canvassing board is required to be in session from 6 o'clock on the day of election and remain in session until the last precinct is in. It means that it must be done at once. Inspectors must report AT ONCE TO THE BOARD.

### SENATOR BURTON

#### ON WAY TO PEN

Accompanied by Wife, Goes to Serve Sentence Imposed by Federal Court.

#### MAY WRITE BOOK ON CASE

TWO HUNDRED OF HIS FELLOW TOWNSMEN GATHER AT STATION TO BID HIM FAREWELL, WITH KIND WORDS.

[Publishers' Press] Abilene, Kan., Oct. 21.—Former U. S. Senator J. R. Burton accompanied by Mrs. Burton left Abilene at 1 o'clock this afternoon over the Union Pacific on his way to jail. He will arrive in St. Louis early Monday morning. Mr. Burton will be met at the St. Louis Union Station by his attorney and together the party will proceed to the office of the United States Marshal, where the former senator will deliver himself into the custody of that officer. Later in the day he will be taken to Ironton, Mo., and turned over to the sheriff of Iron county to begin a sentence of six months imposed by the federal court for violating the statutes by appearing before one of the departments for a client while serving as U. S. Senator.

Two hundred people gathered at the station to see the party leave. Mr. Burton shook hands and amused the men by relating incidents of his political career. Mrs. Burton was the center of a group of women. Abilene today saw Mr. Burton as the citizen and friend of a quarter of a century. Both Republicans and men who have opposed him politically had nothing but kind words.

During the six months of Mr. Burton's imprisonment his wife will take up her abode in Ironton. It has been said by some of Mr. Burton's close friends that during his incarceration the senator would write a book giving the inside history of the incidents which led up to his conviction.

Asked today if he was contemplating anything of the kind Mr. Burton changed the subject. He also refused to discuss his case or the probability of his being pardoned.

### SIR THOMAS IS IN

#### FAVOR OF MERGER

English Sportsman Denies However, That he is Financially Interested.

#### HE THINKS IT IS LAWFUL

PUTTING ALL PACKING HOUSES UNDER ONE MANAGEMENT HE THINKS WOULD BE TO BENEFIT OF CONSUMER.

[Publishers' Press] Chicago, Oct. 21.—Sir Thomas Lip-ton says he knows nothing of the reported merger of all the packing plants in the United States. However, he thinks they ought to be merged and is sure it could be done without violating the anti-trust laws. Sir Thomas has been mentioned as having come to America to take a hand in the consolidation.

"I am sorry that I know of no such plan," he said today, "but it ought to be true. A merger of the packing houses would have advantages of economy and efficiency which everybody, and especially the consumer, would be benefited by."

"It would take a lot of money to handle it but it would be a good investment. Some day it may be an accomplished fact."

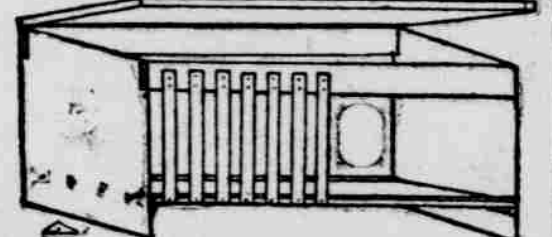

"It could be done without violating any law. If organized in England as a limited company, with none of the stocks or securities watered or inflated, there is no reason why there should be a clash with any law or any government."

### AN EXCELLENT FEEDER.

A Simple Device That Has Served Its Purpose Admirably.

As I could find in none of my papers or books a description of a feeder to my notion, I set about to devise and build one, says E. E. Whitney in American Poultry Journal. I succeeded to my entire satisfaction. The accompanying illustrations and description will enable any one to build similar ones. Mine are eight feet long, twenty inches high and twelve inches wide, and will easily accommodate thirty-two hens or forty-eight half grown chicks without crowding. Calculate four hens to each foot—that is, two on each side of feeder—or six chicks, and build any length desired. It requires but little more labor to build a long one than a short one, though a five or six foot feeder would be more convenient for one person to carry.

Of dressed lumber seven-eighths or one inch thick it requires two pieces 12 by 19 inches, one piece twelve

inches wide and eight feet long, one nine inches by eight feet, three four inches by eight feet and sixteen laths which are two inches by four feet. Cut notches 1 by 4 inches in the top corners of the two 12 by 19 end boards and nail cleats below a line five inches from the bottom ends. Bore four laths and nail them on the twelve inch by eight foot board, the thick edges flush with the edges of the board. These will prevent the feed being raked off the sides. Then set up the end boards, lay the bottom board on the cleats and nail to them with light nails; also nail through the end boards into the ends of the bottom board with long nails. Then a four inch board is to be nailed into the notches at the top on each side, and the frame is made. Cut laths into twelve inch pieces and nail on each side. The easiest way is to lay the feeder on one side, leave the width of a lath and nail a lath right through. Use small nails for tops of laths so that none will protrude inside of the feeder. No. 2 will do for top, No. 3 or 4 for bottom. Finish both sides alike, and you are ready for the cover. Nail a four inch strip on top at one edge and hinge to it a board nine inches wide. This allows the lid to project over the side one inch, making it convenient to open.

### SHILOHS TAKE A FINAL FLING

Dayton Defeats Giants in Game at Athletic Park Yesterday Afternoon.

#### A LARGE CROWD PRESENT

OTLEY KEEPS LOCALS' HITS WELL SCATTERED WHILE THE VISITORS TOOK THEIR BINGLES AT RIGHT TIME.

In the final appearance of the Dayton Shilohs on the Athletic Park diamond yesterday afternoon, the Giants were again defeated, the score being 7 to 4. The Dayton team has proved a splendid drawing card and despite the lateness of the season a large crowd was present to see the contest. That Richmond is base ball crazy was certainly demonstrated at yesterday's game and the indications seem to point to success for Manager Hunkins if he puts a team in Richmond next season.

The game yesterday was a pretty good one. The Giants could not hit Otey effectively, although they got more hits off his delivery than common. The visitors were fortunate in profiting by the Giants errors and getting bingles when they were needed.

### TAKE DEFEAT GRACIOUSLY

Cincinnati Is Not Raising any Hollar Over Game Here Saturday—What Enquirer Says.

The Cincinnati Enquirer says in part about the football game here Saturday:

"Earlham played a nice, steady game and seemed to understand the formation under the new rules better. They were quick to take advantage of every misplay of their opponents and were at a decided advantage both in punting and passing, two very important features of the game in its present form. Cincinnati played a creditable game under the conditions prevailing, and with several of the foremost men off the line because of faculty regulations. During a part of the first half they rushed the ball steadily down the field on a series of fine, solid bucks, and it appeared as if they would score, but a misplay spoiled the chances within a few yards of the Quaker goal. Then again the defensive work was heroic at times, especially early in the first half, when they held Earlham within a yard of the goal line."

### JOHN L. SULLIVAN'S FAMED BELT PAWNED

[Publishers' Press] Chicago, Oct. 21.—Tom Donnelly, who has a loan office at No. 188 Dearborn street, has the diamond-studded championship belt of John L. Sullivan in his possession—the great championship belt, given to John so long ago by the sporting men of more than twenty cities.

The belt, which is estimated to be worth \$25,000, has John's name on a great centre plate, and an immense amount of chasing and etching, while it fairly sparkles with diamonds, sapphires, emeralds and rubies.

The Donnelly people will not reveal where or how they got it.

### ANXIOUS TO TAKE ON NELSON AGAIN

Joe Gans Names Liberal Terms Under Which he is Willing to Fight.

#### IS NOW AT MILWAUKEE

COLORADO LAD OFFERS TO GIVE ONE HALF OF THE MONEY HE RECEIVES TO SOME CHARITABLE INSTITUTION.

[Publishers' Press] Milwaukee, Wis., Oct. 21.—"I will willingly fight Nelson again under terms much more liberal than he gave me. I will insist on only two conditions, and they are that the weight be 133 pounds stripped at 3 o'clock and that I receive the larger end of the purse."

The above statement was made today by Joe Gans, conqueror of Battling Nelson and the champion lightweight of the world, who will be at a local theatre for one week. He expressed his willingness to meet Nelson in another battle to prove, he says, that he is the Dane's superior at every stage of the game.

In order to show his good faith Gans says that he will give Nelson 35 percent of the purse, which is 10 percent more than the Dane allowed him and furthermore Gans says that he will give one half of his share to any charitable institution that a committee of newspapers may select.

Gans, however, will not agree to Nelson's proposition that the winner take the entire purse.

"I make the condition that the bigger part of the purse be given me because it is exactly what Nelson demanded when I fought him at Goldfield, but to show the public that it is not money I am after I will now offer to give one half of my share to a charitable institution, said Gans yesterday. "This offer goes, and the public may rest assured that I will keep my word. Nelson professes to be anxious to meet me again. If he is in earnest he can arrange for a match tomorrow under the terms I have named."

### BACK TO KLONDIKE: RELATIVES ARE DEAD

New Castle, Ind., Oct. 21. (Sp)—After twelve years in the Klondike, Samuel Harvey, a former Henry county citizen, arrived in this city today for a visit with old-time friends. Harvey left this county twelve years ago and this is his first return since. Several times he started and one time got as far as Seattle, but the fever came upon him again and he returned to the frozen north. Since his departure his wife has died as has also a number of other relatives and such radical changes have taken place that he hardly knew this city when he alighted from the train. He will probably spend the winter in this county.
