

AT THE THEATERS.

Guy Stock Company—Gennett.

"Dr. Jekyll and Mr. Hyde" was presented by the Guy Stock Company last night. Mr. G. Carlton Guy in the title role portrayed two characters that are considered to be the hardest acting parts ever written. The contrast between the good, kind Dr. Jekyll and the demon Hyde was made with great care and shows that Mr. Guy has spent a great deal of energy to enable him to do this. His portrayal of the doctor was such as to win immediate sympathy from the audience and it was easily seen that Mr. Guy was devoting every energy to place himself in the character. The character of Hyde was made more demonic by Mr. Guy's physical aptitude. The many physical contortions which he made Hyde assume seemed almost beyond human possibility. Many actors have been seen in this role and Mr. Guy can be classed with the best of them. This afternoon they will present "My Jim" for matinee and at night "The Manxman" a dramatization of Hall Caine's famous novel.

Vaudeville at the Phillips.

The Nellios who are at the New Phillips this week in vaudeville, presenting a juggling act, are clever entertainers and make a pleasing stage appearance, as the act presented here with will show. The Nellios came on a hurry up call to take the place of the Heim Children, who were not able to fill their engagement and they have not proven a disappointment. There is much else on this week's bill of a pleasing nature and it is commended to all lovers of vaudeville. This afternoon there will be a souvenir matinee and on Saturday a special matinee.

TREASURE SHIP MISSING

HAD \$3,000,000 ABROAD

It is Feared That Crew of the Arabistan May Have Mutined as She is Overdue into San Francisco Four Days.

Washington, Oct. 23.—Fears are felt for the safety of the treasure-laden steamship Arabistan, which should have arrived at San Juan, Porto Rico, three days ago with \$3,000,000 in gold on board from the Argentine. She sailed from St. Lucie on October 12 and must have been in the heart of the great hurricane which swept the Caribbean sea. She was due at San Juan on October 19. No word has been received from her and the owners are said to be decidedly uneasy. The Arabistan was in trouble a year ago. At that time her crew mutinied and the vessel was compelled to put into Buenos Ayres, where one of her officers died from wounds received in a fight with the mutineers. Several others had been badly hurt. Her present cargo of gold is mostly in the shape of bars of pure metal.

HOUSE OF LORDS

MAY LOSE POWER

Serious Breach Occurs Between Upper House and Commons in England.

APPEAL TO PEOPLE LIKELY

STEPS MAY EVEN BE TAKEN TO ABOLISH HEREDITARY BODY UNLESS COMPROMISE CAN BE EFFECTED.

London, Oct. 23.—Extreme importance attached to the session of parliament which opened today, in view of possibility that before final adjournment comes the breach already existing between the commons and the house of lords will have become so wide that active steps will be undertaken to abolish the hereditary upper house.

The deadlock existed before the adjournment of the last session. A determined effort will be made by the government to force the lords to agree to the pending measures which have caused so much discussion and every indication shows that the lords will resist to the end. An appeal to the country on the proposition to either abolish the house of lords or to take away its powers, is regarded as the certain outcome of the struggle unless a compromise can be arranged.

One bill is the measure prohibiting a man from voting in more than one constituency. In some cases land owners are privileged to vote in 20 different districts where they have the property qualifications. As many of the lords are large land owners whose special privileges would be interfered with, the measure will meet with a cold reception in the upper house.

The education bill and the workmen's compensation measure, the latter fathered by the labor party, will come up for consideration at an early date.

Woman Suffragists Ejected.

Unusual excitement in connection with the reopening of parliament was caused by the presence of about 100 woman suffragists, many of whom, despite the protests of the police, managed to find their way into the outer lobby of the house of commons with the intention of buttonholing the members in support of their movement. A number of the suffragists mounted vacant chairs in the lobby and began to harangue the few members of parliament present in that part of the house. The police, being reinforced, made a strategic advance against the invaders, taking the women singly, and gradually ejected them, one by one, from the house. The most militant of the women struggled desperately and two officers were required to eject them. The hysterical shouting and screaming brought crowds from the house. During the height of the tumult a small band of the staunchest suffragists determined to attempt to break into the house itself. For several minutes the utmost disorder prevailed and the police had all they could do to eject the stern, determined women.

Isle of Pines Storm-Swept.

Havana, Oct. 23.—Contrary to the statements contained in the report received by the government, it now appears that the Isle of Pines suffered considerable damage from the storm. Many houses at Nueva Gerona and Santa Fe and in the intervening country were blown down, much damage was done to the fruit crops and the wireless station was wrecked. The garrison of American marines rendered valuable service at the height of the storm in saving lives and property at Nueva Gerona.

Paris, Oct. 23.—The French cabinet has been completed, as follows: Premier and minister of the interior, M. Clemenceau; minister of justice, M. Guyot-Dessaigne; foreign affairs, M. Pichon; education, M. Briand; finance, M. Caillaux; war, General Picquart; marine, M. Thomson; commerce, M. Dumergue; public works, M. Ruau; labor, M. Viviani. The portfolio of minister of the colonies has been offered to M. Millies-Lacroix.

Condemned to Death.

Warsaw, Oct. 23.—Fourteen members of the Socialists' fighting organization, who were arrested October 20, have been condemned to death by drumhead court-martial. It is expected the action of the court will result in a general strike. The military authorities continue their domiciliary visits in the residential districts. They recently searched the house of Count Krasinski, the most prominent of the Polish nationalists.

The Only One to Escape.

New York, Oct. 23.—The solitary survivor of 33 men who went adrift on the barge or houseboat Halcy from lower Matabombi Key on the coast of Florida during the terrific gale of October 18, was brought into this port by the steamer El Paso. He is John Russell of Salem, Taylor county, Florida, and he declared that he saw eight of the 32 others drowned and believes that all of them went down when the barge foundered.

"I tried all kinds of blood remedies which failed to do me any good but I have found the right thing at last. My face was full of pimples and black heads. After taking Cascarets they all left. I am continuing the use of them and recommending them to my friends. I feel fine when I rise in the morning. Hope to have a chance to recommend Cascarets."
