## RICHMOND MARKETS

There is a considerably firmer feeling in the market for dried fruits. A slight advance has been made in prices of currants, and other advances are expected. Prices of Brazil nuts and of hard-shelled and soft-shelled almonds have advanced 1/2 to 4 cents a pound. Canned onions are up 5c a dozen on one-pound cans, demand being unusually heavy. With more fruit coming into the market prices have declined 15 to 20c a dozen on three pound goods. Tomato prices are firm, with demand strong. Prices of cheese are expected to advance within a short time on account of the continued good demand.

## INDIANAPOLIS MARKETS

**[Publishers' Press]**  
Indianapolis, Oct. 23.—Receipts, 7,000 hogs, 1,450 cattle and 650 sheep, against 9,273 hogs, 2,151 cattle and 293 sheep a week ago and 6,877 hogs, 1,486 cattle and 221 sheep a year ago.

Receipts of hogs were equal to requirements of local packers, outside buyers having few orders. Market opened with the bidding lower. Trading was active at a general decline of about 5c. Some heavier grades were unchanged, but sales of ordinary light hogs were at times 10 cents lower.

**Cattle Market was Down.**  
There was a falling off in receipts of cattle compared with a week ago, but there were as many in all departments as needed. There was poor demand for all kinds of steers even at a decline of 10c. There was a fairly liberal demand for female butcher cattle, but at a reduction of 10c many cattle were unsold.

**HICKORY NUTS SCARCE**  
Unusual Condition Confronts the Hunters For Nuts This Fall—Other Varieties Plenty.

Hickory nutters must forego the pleasure of their hunts this fall or come home in the evening embellished with "stick-tights" and Spanish needles, and nothing else to show for the weary climbs over hills and valleys.

Most of those whose autumn favorite pastime is nutting will content themselves this fall in the walnut groves and where the butternuts rattle from their spreading branches after the frosts. They know that the hickory nut crop is a failure and none of the old time bumper for the trees have been constructed.

There are some of the boys in the city who have not learned that there are none of these coveted nuts and they have already gone to the country.

**THE IDEAL WAY.**  
How fine and dandy it would be, how very, very nice, if we could travel on our shape, nor think about the price; if we could take a railroad train whenever we would go hence to any portion of the land regardless of expense. If we could order up a cab or buy a touring car, and feel, when we received the bill, no symptom of a jar; if we could own a private yacht and sail the public sea, and sail to those who shook their heads, "Expense can't bother me." If we could pick a suit of clothes, the finest in the store, and say offhandedly to the clerk, "Send up a dozen more." If we could purchase right and left whatever we might see, the same as though we owned the mint. How lovely it would be! Alas, the thing that hampers us, when we would cut a dash, is not our modesty—oh, no; it's lack of tainted cash. How fine and dandy it would be, how very, very nice, if we could cut about and say, "Expense can't bother me!"

Coddish aristocracy isn't gratified to hear its functions spoken of as coddish.

A tale of horror was told by marks of human blood in the home of J. W. Williams, a well known merchant of Bae, Ky. He writes: "Twenty years ago I had severe hemorrhages of the lungs, and was near death when I began taking Dr. King's New Discovery. It completely cured me and I have remained well ever since." **A THRILLING MINUTE.**  
It Made Up in Intensity of Terror What It Lacked in Time.  
The adventure of a contributor to Science lasted but a minute, but it made up in intensity of terror what it lacked in duration of time. The writer tells his own story:  
Some years ago while I was making researches in an excavation near Frankfort, O., the center wall of the mound was undermined by the work men, and I was struck by a mass of falling earth. I had just stooped to examine a small bone which had been uncovered when earth to the amount of several cart loads dropped on me. No one else was in the excavation, the men having gone to the top of the mound.  
The falling mass knocked me backward, and I fell with my head and shoulders on a small heap of earth. The falling wall of earth looked back to me, and I will remember the rush of wind it brought.  
At first I felt little pain, only intense pressure, which forced the buttons of my costume partly inside my flesh. My watch was pressed tight against two ribs which were broken. The skin on my forehead seemed cut, but it was the pressure of my hat forcing the flesh between the straw. The knife in my pocket seemed burning hot. Just under the small of my back was a large cold which gave me unendurable pain, as if my spine were slowly breaking. Then it stopped, and I felt nothing.  
Thoughts raced through my head like lightning, thoughts of the past, present and future. I remember trying in vain to move a hand or a finger. I was perfectly motionless. My chest could not be inflated, and the downward pressure had forced the air out of my lungs. I could move my chin and open and shut my mouth. I tried to keep my mouth closed to prevent its being filled, but it instinctively opened, and the earth fell in. Then the assurance of strangling came to me, but I did not much care. It was just sixty seconds, the survivor said, before the men reached me and I felt the earth move slightly. A shovel struck my scalp and cut me. It felt like red-hot iron. When my head was uncovered the pressure on my body was so great the blood was forced to my head until my rescuers feared my veins would burst.  
I observed everything, but could not move. The partial paralysis lasted several days. I have never wholly recovered from the effects of my adventure. I cannot enter a cave or stand near a bank of earth without terrible sensations.

## CHICAGO MARKETS

**[Publishers' Press]**  
Chicago, Oct. 23.—The wheat market was firm on a moderate amount of trading. Commission houses were good buyers and receipts in the Northwest were smaller than had been expected. The unsettled weather was also a feature.  
The corn market was quiet but firm, the wet weather throughout the corn belt being the principal factor. The oats market was firm on covering by shorts.  
The provisions market was easier because of a decline in the prices of live hogs.

Richmond People Must Recognize and Heed It.  
Kidney ills come quietly—mysteriously. But nature always warns you through the urine.  
Notice the kidney secretions. See if the color is unhealthy. If there are settlements and sediment. Passages too frequent, scanty, painful.  
It's time then to use Doan's Kidney Pills.  
To ward off Bright's disease or diabetes.  
Doan's have done great work in Richmond.  
Martin Bulach, tailor, of South 5th street, Richmond, Ind., says: "A number of years ago I was troubled with backache and the kidney secretions were too free and discolored. This was brought on, I think, by the trying nature of my work. Doan's Kidney Pills were recommended for similar cases, and I secured a box from A. G. Luken's drug store. After taking them only a short time, the aches and pains disappeared and the kidney secretions became normal again. I thank Doan's Kidney Pills for the relief I found, and recommend them to anyone suffering in this way."  
For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.  
Remember the name—Doan's—and take no other.

**THE IDEAL WAY.**  
How fine and dandy it would be, how very, very nice, if we could travel on our shape, nor think about the price; if we could take a railroad train whenever we would go hence to any portion of the land regardless of expense. If we could order up a cab or buy a touring car, and feel, when we received the bill, no symptom of a jar; if we could own a private yacht and sail the public sea, and sail to those who shook their heads, "Expense can't bother me." If we could pick a suit of clothes, the finest in the store, and say offhandedly to the clerk, "Send up a dozen more." If we could purchase right and left whatever we might see, the same as though we owned the mint. How lovely it would be! Alas, the thing that hampers us, when we would cut a dash, is not our modesty—oh, no; it's lack of tainted cash. How fine and dandy it would be, how very, very nice, if we could cut about and say, "Expense can't bother me!"

Coddish aristocracy isn't gratified to hear its functions spoken of as coddish.
