

## AT THE THEATERS.

Jay Quigley in "Prince Karl" at the Gennett next Wednesday Night.

**Guy Stock Company—Gennett.** The Guy Stock Company played to a full house last night and presented "Caught in the Web." This is a sensational detective play and as good if not better than the average sensational plays. Mr. Guy and his support uphold the excellent standard which they have held all week. The specialties were exceptionally good. This afternoon they will present for matinee "Home Folks." This is purely a rural comedy drama and one especially pleasing to ladies and children. At night they will close their engagement with "The Dice of Death."

"Way Down East"—Gennett.

A mock marriage can sometimes cause a lot of trouble—it did for Anna Moore, the heroine of "Way Down East" which returns to this city at the Gennett next Monday evening. It is needless to tell of her trials and tribulations as no doubt many of our theatre-goers have seen and heard of them time and again and will be pleased to hear them once more. Manager Brady will present the organization in its entirety with the original cast and scenic settings.

Phoebe Davies and Robert Fischer head the cast which includes Ulric B. Collins, Ella Hugh Wood, Frank Currier, Mabel Strickland, Frank Bell, Mary Davenport, John E. Grennan; Estelle Ward, Jas T. Galway, Jeanne Millard, Burt Flansburg and the famous village choir.

Like the scent of new mown hay, "Way Down East" is always a welcome visitor.

"Prince Karl"—Gennett.

Miss Fay Courtney, leading woman for Vaughan Glaser, who will present "Prince Karl" at the Gennett on next Wednesday evening is one of the most charming young actresses on the American Stage. She is a California girl, and made her debut on the stage as an ingenue with the Frawley Stock company of that city. She starred in Shakespearean productions on the Pacific coast, and coming East she was engaged by B. F. Keith as leading woman in his well known stock companies. As Florence Lowell, the American girl, in "Prince Karl," she charmingly represents the type, and one can scarcely blame the young prince for falling in love with her.

Vaudeville at the Phillips.

Manager Murray has secured what to all appearances is a splendid bill for his patrons next week, bearing as does the names of some of the best known entertainers in vaudeville, visiting cities the size of Richmond. Paul E. Poole, known as the king of cards, will give exhibitions of his marvelous skill in this line and it is claimed

that in some features of his work he has no equal. Mahoney and Lake will be seen in the role of tangle-talkers and singing comedians and are said to be at the top of the heap in this line. A novelty aerial contortion act will be put on by the La Jresses. Weston, Walters and Wesson have a comedy playlet entitled "A Trip to Washington." Miss Ruby Cohen will sing the illustrated songs, two new ones, beautifully pictured, and the Philo-scope will show three new motion pictures entitled "Tom Removes," "In Too Much of a Hurry" and "A Tenacious Cat." The present week will close with the special matinee of to-day when children are admitted at five cents and the double performance of tonight. At each Wednesday matinee souvenirs are given.

New York, Oct. 26.—The strike of chauffeurs employed by the New York Transportation company, spread to one of the company's sub-stations. Ninety of the 120 chauffeurs employed at the sub-station joined the 300 strikers. Thirty of the sub-station men remained at work and as they took their cabs from the garage each was accompanied by an officer in plain clothes. The men are striking for an increase in wages and regular hours of labor.

**Developed Hydrophobia.**

Marietta, O., Oct. 26.—John Fogus, a well-known war veteran, was bitten by a small family dog three weeks ago and developed hydrophobia. He became unmanageable and was taken to jail. The disease made rapid progress and he died Friday. This is the first case of hydrophobia in this city. Others who were bitten by the same dog, will be taken away for treatment.

## GOSHEN WOMAN KILLED

### HER HUSBAND ARRESTED

\$120 is Missing. Harness in Barn Cut to Pieces and Window on First Floor of House Was Broken Open—A Peculiar Case.

Goshen, Ind., Oct. 26.—Mrs. Lou Fuller, the wife of a farmer and stock buyer living north of Goshen, was shot and killed while in bed. More than \$120 belonging to her is missing. The harness in the barn was found cut to pieces. Mr. Fuller, husband of the dead woman, says he was aroused from his sleep by two shots and running to the head of the stairs, was confronted by a burglar, who ordered him to return to his room. A window was found broken open down stairs. Noah Baker and wife, who live across the road from Fuller, say they heard but one shot.

Fuller, the husband of the woman, was arrested.

**Mosquito Extermination.**

Milwaukee, Oct. 26.—At the closing session of the American Civic association convention Professor Frederick D. Washburn, state entomologist of Minnesota, read a paper on mosquito extermination, going into detail as to the history of the various kinds of that pest. Dr. Washburn advocated drainage as probably the best solution of the problem and said that all shore lines of ponds should be improved. He advised the association to take up the matter of cleaner back yards as tin cans and broken crockery where water would be likely to lodge, were breeding places for the insects.

**Bomb Destroys Schoolhouse.**

Berlin, Oct. 26.—The schoolhouse at Bendziko, Prussian Poland, was set on fire and burned to the ground by the explosion of a petroleum bomb.

The outrage was presumably committed by Poles, as a result of the action of the Prussian authorities in requiring Polish school children to say prayers and recite the catechism in German.

In the Bombing district alone 20,000 children are striking against being compelled to receive religious instruction in German. Dr. Stude, the minister of education, is going to personally investigate the situation.

**Rebel Leaders' Flight.**

Cape Haytien, Oct. 26.—After the recent complete defeat of the Dominican revolutionists near Monte Christi by the troops of President Caceres, the greater part of the former surrendered and were pardoned. But a number, including Generals Guellat and Rivas and other leaders of the revolution, fled across the frontier into Hayti, where they joined General Navarro and started for Cape Haytien.

They will embark for some foreign country, as the government of Hayti will not allow the revolutionists to remain within this republic.

**Chairman Ihmser's Charges.**

New York, Oct. 26.—Max F. Ihmser, chairman of the executive committee of the independence league and manager of the campaign of W. R. Hearst for governor, made a statement in which he charged that the Republicans are attempting to raise an enormous corruption fund for the purpose of electing Mr. Hughes. He also declared that Postmaster General Cortelyou had come to New York to show Chairman Woodruff, of the state Republican committee, how to raise such a fund.

**Animals That Sell.**

In regard to selling stock the Southern Cultivator says:

The man that has well fitted animals for market does not have to hunt for a buyer. The buyer comes to him. The man whose stock is in poor shape for marketing has to hunt his buyer and sell at a discount.

The demand for mutton is constantly on the increase. With the improvement in quality due to the introduction of mutton breeds much of the prejudice that has existed against mutton has disappeared.

The early maturing steer is most profitable.

**Vegetable Oyster.**

The cultural directions given for the parsnip apply to this plant. It is very easily grown and generally comes through the winter in the extreme western states without injury. It is safer, however, to dig the roots in autumn and put in pits until spring or for use during winter. The root is highly esteemed and has the flavor of oysters.

The best variety is the Mammoth Sandwich Island, which is far superior to any other.—Green.

**Roughage Rack.**

In the accompanying cut is shown a roughage feeding rack that was used with considerable success upon the Nebraska experiment station farm last winter. The corners of the rack stand

between seven and eight feet high, with a plank sided bottom. The width is about four feet, and the length can be whatever may be desired. The general plan of the work is brought out in the accompanying illustration. — Prairie Farmer.

**CABINET'S STAND**

Regarding the Application of the New Separation Law.

Paris, Oct. 26.—The cabinet has reached a decision regarding the application of the law providing for the separation of church and state, by which the property and revenues of the churches, in the event of the clergy persisting in their present rebellious attitude, will be sequestered December 11, but the churches themselves will remain open for public worship, under the laws of assembly of 1881, during the ensuing year before the law goes fully into effect.

In the meantime should the clergy refuse to yield, a ministerial declaration will be issued, indicating very clearly the intention of the cabinet to ask parliament for special legislation to meet the situation.

### AWAY WITH LOOT

Citizens Hear Robbers and Running Fight Ensues, 30 Shots Being Fired.

### SIZE OF BOOTY UNKNOWN

**BANDITS WORKED IN WILD WESTERN STYLE AND MADE THEIR GETAWAY IN GOOD SHAPE—WAS IT JOHN LOCKE?**

Odin, Ill., Oct. 26.—The Bank of Odin was dynamited and looted by a gang of safe robbers. The report of the explosion attracted a crowd of citizens to the scene and a running fight ensued, in which more than 30 shots were fired. The bandits escaped with all their booty, the amount of which is not known.

Ed A. Parks, night telephone operator of the Bell Telephone company, was the first man on the scene after the explosion. When he heard the report he ran from his office toward the bank. He was halted on the way by the lookout of the robbers, who fired at him. Parks emptied his revolver at the robbers and ran back to his office. By this time Robert Lockhart, night station agent; Arnold Jacobs, a telegraph operator, and a half dozen others, arrived on the scene and opened fire on the robbers with the weapons they carried in discharge of their duties. The robbers fled from the bank by the back door and ran west along the Baltimore & Ohio tracks, firing as they ran, and escaped in the darkness. None of the citizens who engaged in the battle was hurt.

The Bank of Odin is a private institution. It is not known at present how much money was taken.

**Another Bank Looted.**

Jefferson City, Mo., Oct. 26.—Information was received here that the Bank of Jamestown in Moniteau county, was entered by robbers, who secured \$2700 in cash and escaped.
