QUESTION RETURN OF GEO. HAZZARD

New Castle Courier Doubts if Historian Will Come Back to His Home.

RESULT OF VAN MATRE SUIT

FAILURE TO PUT IN AN APPEARANCE HERE IS TAKEN AS AN INDICATION THAT HE WANTS NO LITIGATION.

The New Castle Courier says: Many believe that George Hazzard will not be again seen for some time in Henry county, since the historian made no appearance or motion for a continuance in his collection suit against Cyrus VanMatre at Richmond Monday, the case having been venued to the Wayne circuit court. It was very naturally expected that Mr. Hazzard would make representations to the effect that it was a physical impossibility for him to be present at the hearing and would ask a continuance, in view of his reported runaway accident at Trenton, N. J., recently. The plaintiff presented nothing and Judge Fox promptly dismissed the case.

Mr. VanMatre and his attorneys were at Richmond ready to proceed with the case. A cross-complaint had been filed in which Mr. VanMatre alleged that his signature to the contract was secured through fraud and he asked that the agreement be cancelled. Judge Fox rendered a decision on this complaint and the contract was cancelled.

It was fully expected that Mr. Hazzard would prosecute his suit against Mr. VanMatre, and if successful, use it as a foundation for similar suits. His failure to make any kind of a move in the case has led many to believe that he has abandoned all suits of this kind.

It remains to be seen if the historian will make an appearance to defend himself against the charge of forgery, which has been continued until the December term of court. If he does not, his bond will be forfeited, and the chances are that Henry county will have seen the last of George Hazzard.

DEMAND A PROTECTORATE

LATEST MOVE IN CUBA

Foreign Element in the Island is Preparing Petitions to Be Presented to President Roosevelt at An Early Date.

[Publishers' Press]

Havana, Nov. 21.—The sentiment in Cuban industrial and financial circles in favor of the establishment of a United States protectorate over the island, is crystallizing. There are two independent movements for this purpose, the instigators of which are gathering signatures to petitions to President Roosevelt opposing the idea of annexation, pointing out the inability of the Cubans to direct their own affairs unaided and declaring that only by a protectorate can Cuba be preserved for the Cubans. It is reported that a considerable number of signatures have been secured, but they are being kept secret pending a development of the movement.

The process of recovering rifles which the disbanded government volunteers failed to surrender at the end of their services is progressing rapidly. Of the 21,200 rifles issued to volunteers, 16,250 are stored in Havana, and these, together with others in the possession of United States officers in various towns, leave only 1,800 not accounted for. It is expected that the remainder will be recovered.

New Martinsville, W. Va., Nov. 21. George Wilson and Arthur Steepleton, oil workers, narrowly escaped death in a remarkable accident. The two men cleaned an oil well and were putting on the cap, which weighed 4,000 pounds. Their tools accidentally slipped, causing the cap to fall on their hands. Oil and gas began to escape, threatening both men with asphyxiation. With a mighty jerk Steepleton released his hands, tearing three fingers off. Almost dead, Steepleton released Wilson and both men fell unconscious from pain and inhaling the escaping gas. They will recover, but their hands were badly crushed and will have to be cut off.

ORDER TO STAND; PRESIDENT IS FIRM

Discharge of Negro Troops Must Be Enforced as Originally Ordered.

TAFT ISSUES STATEMENT

HIS INTERVENTION IN FACE OF THE EXPLICIT COMMAND OF THE PRESIDENT MAY BRING A NEW FACE INTO THE CABINET.

[Publishers' Press]

Washington, Nov. 21.—The war department issued the following statement concerning the negro troops ordered dismissed at Fort Reno:

"In the matter of the order discharging the enlisted men of the three companies of the Twenty-fifth infantry issued by the president, application was presented to the secretary of war by a number of persons of standing asking for a rehearing by the president, on the ground on which the action was taken. The secretary telegraphed the president of the application and delayed the proceedings of the discharge until the president could indicate his wishes. The secretary was meantime called out of town. No answer was received from the president. The secretary on his return did not feel justified in further delaying the execution of the order of the discharge, especially in view of the fact that the secretary then learned that the president had fully and exhaustively considered the argument against the order of the persons who applied for a rehearing. Accordingly the secretary directed that the proceedings for discharge be continued without delay."

Secretary Taft received a dispatch from President Roosevelt and issued the following additional statement: "A telegram was received from the president after the previous statement was given out at the war department, in which he declined to suspend the discharge unless there are new facts of such importance as to warrant cabling him. He states that the action was taken after due deliberation, and that the only matter to which he can pay heed is the presentation of facts showing the official reports to be in whole or in part untrue or clearly exculpating some individual. If such facts later appear he can account as he deems advisable, but thus far nothing has been introduced to warrant the suspension of the order, and he directs it be executed."

Secretary Taft says that immediate steps will be taken to recruit colored soldiers to replace the men discharged. The members of the three companies, who were on furlough at the time of the Brownsville affair and three members who are to be tried by courtmartial will not be mustered out.

Secretary Taft flew straight in the face of the president when he suspended the order directing the discharge without honor of three companies of the Twenty-fifth infantry for declining to divulge the names of the soldiers who "shot up" the town of Brownsville, Tex.

President Roosevelt is an arbitrary man and the outcome of the difference between him and the secretary of war is awaited with much interest and anxiety. It is conceded that serious results may follow, as serious as retirement of Taft from the cabinet.

Price of Peanuts Fixed.

[Publishers' Press]

Norfolk, Va., Nov. 21. — Peanut growers of Virginia and North Carolina will demand an increase of one-half cent a pound for prime grade peanuts this year's crop. Failing to receive this price in the open market the growers are pledged to hold the entire output. The growers are thoroughly organized. The prices for this year's crop were fixed at a meeting in Suffolk, Va., attended by about 400 peanut growers representing every peanut producing section of the two states. Reports show that the growing crop is short and inferior.

Mobile, Ala., Nov. 21.—A fast mail train northbound on the Mobile and Ohio railroad while on a siding at Dwight, Ala., was run into by the southbound fast mail train. Both engines and trains were badly damaged and 25 persons were slightly injured. The wreck is said to have been caused by the flagman becoming confused in his orders, and opening the switch ahead of the northbound train, throwing the southbound train onto the siding.
