REV. O'FLANAGAN COMING

Has Been Secured by the Ancient Order of Hibernians to Speak
Here St. Patrick's Day.

The local chapter of Ancient Order of Hibernians is preparing for its annual celebration of St. Patrick's day March 17. The chapter has secured the services of the Rev. M. O'Flanagan, a resident of Ireland, who is now in America lecturing in the interest of Irish industries. His lecture deals with the new industrial conditions of the Emerald Isle. Further plans for the celebration are now under way and the Hibernians expect to arrange for a series of record breaking entertainments.

House Breaker Arrested.

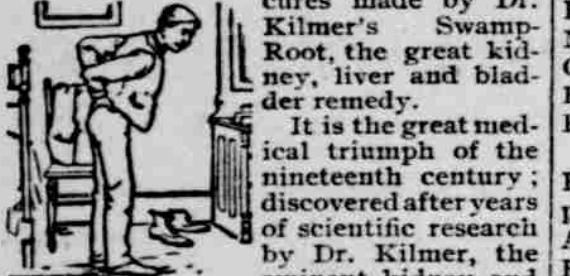

Eaton, O., Jan. 25. (Spl)—Walter Crane, the young colored man, who broke into the George Rebuss grocery Wednesday night, was found by Marshal George Jones, and his assistants, Thursday afternoon, and was at once arrested and placed in jail. The lad was found at his home, and has offered no excuse for his act. The boy was caught in the act by Mr. Rehuss and Thomas Williams, each of whom recognized him at the time that he was climbing over the transom.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable. Almost everybody who reads the news papers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in removing curing lame back, kidney acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by sending a post card, giving more about Swamp-Root, and how to indent if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are Home of Swamp-Root, sold by all good druggists. Don't make my mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

EARLHAM WINS IN HER SECOND GAME

Miami University Basket Ball Team Falls Victim to Speedy Quakers.

AN INTERESTING CONTEST

KERLIN STARS FOR HIS TEAM WHILE CROWD SHOWS APPRECIATION OF WORK BY FREQUENT APPLAUSE.

In a game which abounded in good plays, and many bad, the Earlham basketball team took the Miami team to camp at the Coliseum last night by the score of 34 to 25. Considering the fact that Earlham had an entirely green team while three of Miami's players have played together for three years, the victory for Earlham is all the more sweet to the faithful rooters who turned out en masse last night to cheer their team to victory.

Kerlin and Chambers played the best game for the yellow and white, Kerlin showing up particularly in the first half when he threw four difficult field goals while his work all over the floor was brilliant. As a forward, Earlham has turned out a few men who will excel him. Chambers at the pivot position was in the game from the start, throwing two field and two foul goals during the first half while he threw four field and four fouls in the second half. His work on the floor was especially good. Hotchkiss did not show as well, as in the game with Rose Poly, but even at that was up and doing from the first toot of the whistle, breaking one play after another. Mote at forward also played a good game. Birtch excelled in the foul making line, he contributing ten of Earlham's sixteen fouls.

Had Schwieckart, the lanky center for Miami been a foul goal thrower, the score would have undoubtedly been changed to a considerable extent.

The game started with a rush, which soon brought the audience to its feet, owing to brilliant plays and particularly the work of Kerlin. The little forward was all over the floor and when he was not busy throwing goals, he turned his attention to breaking up plays. As the result of the confidence placed in "Runt," each and every time he got the ball in his hands, the rooters would immediately begin to cheer. Britton, for Miami, electrified the spectators with two sensational shots at the basket which netted his team two goals. Emerson and Britton for the visitors were in the game from the start to finish and played like fiends, Emerson showing unusually good form in the second half when he netted his team nine points by his speedy and heady playing. The first half closed with the score standing 20 to 16 in favor of the Quakers.

The playing at the close of the game was listless. It ended the score standing 34 to 25 in favor of Earlham. The lineup and summary follows:

Earlham Alumni: L. F. Lacey

R. Wilson R. F. Scarce

Brunson C. Hunt

W. Wilson R. G. Drury

Bond L. G. Strong

Referee—Wann. Time of halves 20 minutes. Field goals, Fountain City four; Earlham 14; foul goals, Fountain City 14; Earlham 6; final score, Earlham, 34; Fountain City 22.

FOUNTAIN CITY DEFEATED

ALUMNI TEAM DID WELL

Spice Added to the Contest by Fracas Between Russell Wilson and a Fountain City Player—Final Score 34 to 22.

Preliminary to the big game at the coliseum last night the strong Fountain City team was taken into camp by the Earlham Alumni team, by the score of 34 to 22. At the end of the first half the score stood 23 to 8 and everything looked toward a walkaway for the former Earlham stars but in the second half, aided by the numerous fouls called on Earlham, Fountain City was able to close in on the margin. Hunt of Fountain City threw twelve foul goals out of fifteen chances during the second half. The game in its entirety was equally as good as the big game although it was rough from the start. Rufus Allen who captained last year varsity team at the college scored many goals.

During the second half R. Wilson for Earlham incidentally smashed the nose of Strong of Fountain City and that player for revenge, proceeded to pound Wilson across the head with the basket ball which he happened to have in his hands at the time. The incident brought forth howls of applause from the balcony.

The line up of the two teams follows:

Earlham Alumni: Fountain City

Allen L. F. Lacey

R. Wilson R. F. Scarce

Brunson C. Hunt

W. Wilson R. G. Drury

Bond L. G. Strong

Referee—Wann. Time of halves 20 minutes. Field goals, Fountain City four; Earlham 14; foul goals, Fountain City 14; Earlham 6; final score, Earlham, 34; Fountain City 22.

FATAL FALL DOWN STAIRS

Grant Rogers Sustained Severe Internal Injuries and Died Few Hours After Accident.

Grant Rogers, who has resided with his brother-in-law, John Ross, of South Fourteenth street for some time early yesterday morning fell headlong down a flight of stairs and sustained internal injuries of such severe nature that he died within a few hours.

The accident was a most peculiar one, and it is not known definitely as to the exact cause of Mr. Rogers' fall, although it is thought that his physical weakness was the direct cause, as he has been suffering with tubercular troubles for the past several months. He was forty-two years old and leaves no family.

MET AT BAXTER SCHOOL

West Side History Club Had an Interesting Session Yesterday—Program of Papers.

The West Side History club met yesterday afternoon at the Baxter school and the following very interesting program was given:

"Sir Walter Raleigh"—Katherine Sherman.

Recitation—Harold Lower.

"Congo Free State"—Chauncy Edgerton.

"History of Moses"—Mable Spink.

"Alaska and the Seal Islands"—Marguerite Mount.

The next meeting will be held at the Baxter school Friday afternoon, February 1.

Supplementary Directory.

A supplementary directory, containing the names of new subscribers added since the old directory was printed in his office at the state department and as many more at his home. Mr. Adee has not accumulated his shoes because of any bad, but merely for the comfort that he has learned can only be obtained by having constantly on hand a multiplicity of shoes. It appears that when he arrives at his office in the morning after a brisk walk from his home he immediately changes his shoes and that through the day makes several other changes whenever his pedal extremities begin to feel uncomfortable. For the most part the shoes are all of the same general pattern.—Boston Transcript.

Putting on a Plaster.

Before having a plaster applied to the back or chest one should take a deep breath and hold it while the plaster is being put on. If this is done the patient will not be annoyed by that drawing of the skin which is so unpleasant a feature when the plaster is ordinarily applied.

If you are really looking for a chance for a scrap you won't get many busy signals.

Nearly all of the money needed to complete the Cathedral of St. John the Divine, New York city, which is to be one of the largest Episcopal cathedrals in this country, is in hand. It is hoped that services above ground can be begun in the next two years.

Queen Maud of Norway is fond of collecting pieces of ivory. The specimens she most prizes are tusks of elephants shot by her father, King Edward, and the Duke of Connaught.

The sultan of Turkey has taken to importing birds from England by the carload. Among them are song birds as well as others that are simply useful as enemies of destructive insects.

MERE HANDFUL SAW HIGH SCHOOL LOSE

Hamilton Lads Administered Defeat to Local Team by Score of 29 to 23.

ASSOCIATION LOST MONEY

RECEIPTS AND EXPENDITURES LACKED SEVEN DOLLARS OF MEETING—THE GAME WAS A GOOD ONE.

Before a very small but enthusiastic crowd, the Richmond high school team went down in defeat before the strenuous assault of the Hamilton high school basket ball five last night at the Garfield gym. The score was 29 to 23.

From start to finish the game was well played both teams at times showing extraordinary prowess. Hamilton lead during the entire game although by strenuous spurts, the local lads were at different times in touching distance, but that was all.

Much was expected of Eggemeyer but he was guarded closely throughout, and did not have a chance to demonstrate his ability in the goal throwing line. Allison and Sands played the best game for the locals, their work telling to a greater extent on the final score than did any of the others. It was largely through their work that Richmond succeeded in scoring as many points as she did.

One of the most noticeable features of the game was the lack of attendance. Not even the high school students supported the team by purchasing tickets or attending, and as the result the athletic association is out just seven cold dollars as the result of the lack of interest. The members of the team say that even though there were several other attractions in town last night, the game between the two high schools was deserving of better attendance than it received.

THINGS THEATRICAL.

"The Road to Yesterday" is a success at the Herald Square theater, New York.

"Mlle. Sallie," the very musical comedy, "went broke" in New York and had to close.

Lew Dockstader has some new jokes and novel "stage business" in his latest minstrel offering.

"The Man of the Hour" is proving one of the plays of the hour at the Savoy theater, New York.

A new act, showing the bottom of the sea, has been written for "Peter Pan" by James M. Barrie.

Paula Edwards opened recently at the Casino, New York, in "Princess Beggar," a new musical comedy.

Wilton Lackaye's dramatization of "Les Misérables" and named "Law and the Man" is strong and full of color.

In spite of the condemnation of most of the critics, "The Daughters of Men," by Charles Klein, author of "The Music Master," made money in New York.

David Belasco's new star, Frances Starr, is ably filling the shoes abandoned by Mrs. Leslie Carter last year. Yet some folks say Mrs. Carter is not jealous of Miss Starr.

CHURCH AND CLERGY.

Boston church, England, is an almanac in stone. It has 7 doors, 52 windows, 12 pillars and 365 steps to the tower.

The oldest church building now standing in New York city is St. Paul's chapel, the cornerstone of which was laid in 1764.

Rev. E. D. Eaton, pastor of the North Congregational church of St. Johnsbury, Vt., has decided to accept an invitation to return to Beloit college, Wisconsin, to resume the presidency of that institution.

Nearly all of the money needed to complete the Cathedral of St. John the Divine, New York city, which is to be one of the largest Episcopal cathedrals in this country, is in hand. It is hoped that services above ground can be begun in the next two years.

Queen Maud of Norway is fond of collecting pieces of ivory. The specimens she most prizes are tusks of elephants shot by her father, King Edward, and the Duke of Connaught.

TRAINMEN GIVE THEORIES

LEAKAGE IN POWDER CAR

Coroner at Terre Haute Hears What Members of the Crews in Terrible Explosion Have to Say About the Cause of it.

(Publishers' Press) Terre Haute, Ind., Jan. 25.—Members of the crew of the Big Four freight train in which a car of some high explosive blew up last Saturday night at the neighboring town of Sanford, demolishing the freight and a passenger train on a parallel track and killing twenty-six persons, told Coroner Leavitt their theories of the accident today.

The railroad men all miraculously escaped death, though several were seriously hurt. They say the explosion was in a car loaded with Fontanet powder. Most of them hinted however, that some one had smuggled a few packages of dynamite into the shipment.

The general opinion among the railroad men is that there was a leakage of powder from the car and that the train was fired by a spark from the passing passenger locomotive.

RELIEF FROM CATARRH.

This Medicine Is Good, Too, For All Forms of Blood Disorders.

This winter, at last, will prove a harvest for the doctors and patent medicine manufacturers unless great care is taken to dress warm and keep the feet dry.

This is the advice of a well known local physician and should be heeded by all who are subject to rheumatism, kidney and bladder troubles and especially catarrh. While the latter is considered by most sufferers an incurable disease, there are few men or women who will fail to experience great relief from the following simple home prescription, and if taken in time it may prevent an attack of catarrh during the entire season.

Here is the prescription, which any one can mix. Fluid extract dandelion, one-half ounce; compound kargon, one ounce; compound syrup sarsaparilla, three ounces. Shake well in a bottle and use in teaspoonful doses after each meal and again at bedtime. These are all vegetable ingredients and can be obtained from any good prescription pharmacy at small cost.

The compound kargon in this prescription acts directly upon the eliminative tissues of the kidneys to make them filter and strain from the blood the poisons that produce all forms of catarrhal affections. Relief is often felt even after the first few doses, and it is seldom that a sufferer ever experiences a return attack within the year.

This prescription makes a splendid remedy for all forms of blood disorders, and such symptoms as lame back, bladder weaknesses and rheumatic pains are entirely dispelled.

As this valuable prescription comes from a thoroughly reliable source, it should be heeded by every afflicted reader.—New York World.

House Heating In 100 A. D.

An unusual type of Roman villa has been unearthed on the site of the ancient Roman encampment in Britain at Caerwent. The remains have been found to be in an excellent state of preservation. A departure from the conventional practice of the Romans in the designs of their residences, as revealed by previous excavations in that country, is the provision of extra rooms abutting on the four sides of the courtyard. In the basements two completely perfect heating devices or hypocausts were found, together with the peculiar blue tiles utilized by the owners for conducting the heat from the stove in the basement and radiating it through the upper rooms of the dwelling. In the basement some exquisite specimens of Roman paving were
