

CAME FOR A TIME;  
ARE IN CITY JAIL

Several Residents of Eaton, Ohio, Gathered in by the Police Saturday.

## WOMEN DID A DANCE.

DREW A LARGE CROWD TO THE ALLEY BETWEEN FIFTH AND SIXTH STREETS, JUST OFF THE MAIN THOROUGHFARE.

John Minnix with Mary Minnix, who he states, is his mother, Rosetta Lutz, who he claims is his aunt, and A. R. Ball, also alleged to be a relative of Minnix, arrived in Richmond early Saturday morning, from their quiet home in Eaton. O. Minnix and his kinfolk, came to have a glorious outing in this city. They had it, and will spend Easter Sunday in the city jail.

The four Eaton residents, on their arrival here, began to imbibe of the cup that cheers, and by 2 o'clock all of them were in various stages of intoxication.

About 2:30 o'clock, Minnix et al, adjourned to the alley just south of Main street, between Fifth and Sixth streets. There the two women began to initiate the dance which is reported to be generally popular in Turkey, Egypt and Chicago.

## Drew a Large Crowd.

This unusual attraction drew a large and astonished audience and it was not long before all the standing room in the alley was occupied. The report that the Sultan's favorite pastime was on exhibition in a nearby alley, finally reached police headquarters. Sergeant McManus with Officers Livesberger and Vogelsong, sailed forth to put a stop to the proceedings, but when they arrived at the corner of Sixth and Main street, they found the Mesdames Minnix and Lutz and Mr. Ball leaning against each other planning some other treat for the city folks. Mr. Minnix was not present. "He has went," a street urchin informed Sergeant McManus.

## Gathered in by Police.

The three were gathered in by the police, who marched their charges to police headquarters. In their wake came numerous innocent bystanders. As Ball was being taken down the courtway which leads to the jail he grew indignant, and thereupon gave battle to the three police officers, which was very foolish on the part of Mr. Ball, as he was promptly rounded up. After Ball and the two women had been jailed the officers started out in search of Minnix. They did not have to search far, as he was found standing in the city court room. "I have come to intercede in behalf of my companions," remarked Mr. Minnix. "You can do that Monday morning before Judge Converse," said Sergeant McManus. "Right now its you to the jug."

## INVENTS HEATED FOUNTAIN

Farmland Man's Device Gives Cattle Warm Drinking Water.

Winchester, Ind., March 30—Minor Reed, a traveling man residing at Farmland, has invented a fountain for watering stock which is said to excel anything of its kind ever placed on the market. It is a labor-saving device and is so arranged that the water may be heated during the cold weather, making it useful in the winter time. It is built especially for hogs and sheep and will hold sixty-two gallons, and ten animals can drink from the trough at one time. All that is necessary for the farmer to do is to keep the tank filled and in cold weather have the heating furnace supplied with oil. This it is said, can be done at a maximum cost of 4 cents per day.

## TEN MADE IN ONE DAY.

The month of March was a banner one for the police. Up to Saturday night there had been sixty-seven arrests made, an average of over two per day. At local police headquarters a record of forty arrests per month is generally considered a good one. There is one day more in this month, today, and it is probable that the total number of arrests will reach seventy or more.

One day last week there were ten arrests made, almost an unheard of number in Richmond in recent years. The usual number of drunks were gathered in and there were several important arrests made. If the police keep up the record they have made this month the additional policemen added to the force last week will have plenty of work to do.

The proposition calls for a primary vote. In an open fight Taft says the contest will be an open fight against those who oppose the president and his friends. Representatives from the Red Men's lodges at Centerville and Richmond met Saturday night at the local interurban station to make arrangements for running a special car to Cambridge City next Thursday. Owing to the absence of the general manager of the interurban company, no details were completed. It is probable that the special will be run only on the return from Cambridge, the members of the organization in this city and of intermediate stations taking advantage of the regular car service in going.

## JEROME ADMITS HE IS SHORT ON FACTS

He Has Not the Proof That Harry Thaw Is Insane at the Present Time.

## WON NOMINAL VICTORY.

IT WAS DECIDED THAT THE STATE'S EXPERTS, WHICH ARE COSTING \$800 A DAY, SHOULD BE HEARD.

New York, March 30—District Attorney Jerome won a nominal victory this afternoon when it was decided to hear his experts. The decision followed the urgent invitation extended to him by Superintendent Mott. He will go on to Dayton and Cincinnati where he will visit the schools. The public is invited to the lecture.

Jerome's experts must confine their statements to the present time. Thaw was examined four hours and was not illustrated. Five witnesses who have been in daily contact with Thaw testified that he is perfectly rational. Jerome, while angry, openly stated that he could not bring forward facts showing Thaw at the present time insane.

It was stated today that there had been a clash of authority before the commission as to the custody of the prisoner. Police Court Captain Lynch wanted Thaw's prison guard to withdraw from the room, but the latter declined to do so without a receipt for his prisoner signed by the commission. The guard withdrew during Thursday's session, but today had different orders from his superiors. He remained in charge.

## COULD NOT IGNORE HAMILTON.

There was much speculation today as to the reasons which prompted the subpoenaing of Dr. Hamilton. One explanation was to the effect that Dr. Hamilton, having stated on the witness stand before Justice Fitzgerald his belief that Thaw at present is incapable of rationally advising his counsel, the lunacy commission could not afford to ignore him if his records are to be kept clear of objections.
