

New Cure For Rupture

New Scientific Appliance, Always a Perfect Fit—Adjustable to Any Size Person—Easy, Comfortable, Never Slips, No Obnoxious Springs or Pads—Costs Less Than Many Common Trusses—Made For Men, Women or Children.

I Send It On Approval—You Wear It—If You Are Not Satisfied, I Refund Your Money.

I have invented a rupture appliance that I can safely say, by 30 years' experience in the rupture business, is the only one that will absolutely hold the rupture and never slip and yet is cool, comfortable, conforms to every movement of the body without chafing or hurting and costs less than many ordinary trusses. I have put

Jas. Britton, Cured of Rupture by C. E. Brooks.

the price so low that any person, rich or poor, can buy, and I absolutely guarantee it. I make it to your order—send it to you—you wear it, and if it doesn't satisfy you send it back to me and I will refund your money. That is the fairest proposition ever made by a rupture specialist. The banks or any responsible citizen in Marshall will tell you that is the way I do business—always absolutely on the square.

Here is what Mr. Jas. Britton, a prominent manufacturer of Bethlehem, Pa., writes: "C. E. Brooks, Esq. Dear Sir: I have been ruptured six years and have always had trouble with it till I got your appliance. It is very easy to wear, fits neat and snug, and is not in the way at any time, day or night. In fact at times I did not know I had it on. It just adapted itself to the shape of the body and clung to the spot no matter what position I was in. It would be a veritable God-send to the unfortunate who suffer from rupture, if all could procure the Brooks Rupture Appliance and wear it. They certainly would never regret it. My rupture is all healed up and nothing ever did it but your appliance. Jas. Britton."

If you have tried most everything else, come to me. Where others fail is where I have my greatest success. Write me today and I will send you my book on Rupture and its Cure, showing my appliance and giving you prices and names of people who have tried it and been cured. It is instant relief when all others fail. Remember I use no salves, no harness, no ties. Just a straight business deal at a reasonable price. C. E. Brooks, 3265 Brooks Bldg., Marshall, Mich.

PLOT TO UNDO ALL THE WORK OF ROOSEVELT

(Continued from page 1.)

WILL FIGHT IN THE OPEN.

President is Very Glad to Call Harriman His Enemy.

Washington, April 4.—"From now on it will be a fight in the open between the president and his enemies. The time for beating around the bush has ended, and all the world will be able to see the prettiest scrap that has been pulled off for many years." This was the comment today of a high administration official who stands close to the president. Continuing he said: "The president cordially awaited the opportunity of placing Harriman on his list of enemies. In the future when he wants to intimate that he don't like demagogues, he will say that he don't like demagogues like Harriman. The president feels that the enmity of such a man as Harriman is to be courted."

Postponed to Saturday.

The case of Martin Haberkern, charged with selling liquor to Joe Epping, a minor, has been postponed at the request of Haberkern's attorney, W. H. Kelley. The case will be given a hearing Saturday morning.

The Tokio Nichi Nichi remarks that "one day's pay for an American workman in San Francisco represents a fair monthly stipend for a Japanese."

Elijah's Manna

No cooking required. Easily the most delicious flavour of any flake food known. Grocers sell at 5 and 15 cts. The 15-cent pkg. contains double the quantity of any ordinary 10-cent pkg. Made by Postum Cereal Co., Ltd., Battle Creek, Mich.

MARION CUTS LEAD OF THE ANDERSON QUINTET

Mansfield Helps Manfully in Landing Game.

HARD TO MEET EXPENSES.

Standing of the Clubs. Won. Lost. Pct. Anderson 4 3 .571 Marion 4 4 .500 Kokomo 3 4 .429 Logansport 3 4 .429 Marion won from Anderson Wednesday night at polo thus cutting down the lead of the Nortontites. Mansfield and Lewis did the stellar work for Marion. The final score was 4 to 2. In the game at Logansport that team won from Kokomo by a score of 10 to 5. In the final period Houghton succeeded Hardy at center but his efforts did not change the result. In the hope of meeting expenses the Logansport management has decided to reduce the prices on Saturday's game to 15, 25 and 40 cents.

VISITING PHYSICIANS ADDRESS THE SOCIETY

Interesting Session of the Medical Body.

DR. DAVIS ALSO SPOKE.

The Wayne County Medical society met in regular session at its rooms in the court house Wednesday afternoon, and listened to three of the best talks that have been given before the body for a long time. The society was honored by the presence of Dr. W. N. Wishard and Dr. Theo. Potter, professors in the Indiana Medical college at Indianapolis. Dr. Wishard spoke on "Operative Relief of the Prostatic Obstruction," and his talk was very interesting. Dr. Potter spoke on "The Early Diagnosis of Tuberculosis," and he, too, gained great favor among the Wayne county physicians, by his treatment of the subject.

Dr. T. Henry Davis of this city, spoke on typhoid fever and his address was no less interesting than that of the visiting doctors.

The Glass Eye Grop.

The glass eye crop comes from Thuringia. As Newfoundlanders are fishermen or as Cubans are tobacco growers, so the typical Thuringian is a maker of glass eyes. Almost every Thuringian house is a little eye factory. Four men sit at a table, each with a gas jet before him, and the eyes are blown from plates and molded into shape by hand. The colors are traced in with small needles, and, as no set rule is observed in the coloring, no two eyes are exactly alike. Sometimes a one eyed man or woman—come, maybe, from a great distance—sits before one of these Thuringian tables, posing for a glass orb, and the artisan, with his gas jet, his glass and his needle, looks up at the sitter and then down at his work, and altogether the scene suggests a portrait painter at work in his studio.—New Orleans Times-Democrat.

When the berries on a spike of the pepper plant begin to turn red the spike is cut off and the berries gathered. If left too long, until perfect ripeness is attained, there is a great loss occasioned by the berries falling off, and the quality of the product is by no means so good.

It is a common experience among mountain climbers to find butterflies frozen on the snow and so brittle that they break unless they are very carefully handled. Such frozen butterflies on being taken to a warmer climate recover themselves and fly away.—London Telegraph.

CASES IN THE CITY COURT.

Andrew Minnix and H. C. Cook, the latter of New Castle, Were Fined for Drunkenness.

Andrew Minnix was fined \$1 and costs in the city court for intoxication. Minnix entered a plea of not guilty, telling the court that he was sober enough to enter the patrol wagon without assistance. Mrs. Minnix, an ex-temperance worker, her sister, Mrs. Lutz and young Minnix, were arrested last Saturday afternoon for intoxication. In court Minnix stated that he had been drinking since the disgrace brought upon him by the arrest of the members of his family. H. C. Cook of near New Castle, came to Richmond to inspect some real estate his family intended to buy, but instead he fell off the water wagon and was soused. He was assessed \$1 and costs.

Don't use harsh physics. The reaction weakens the bowels, leads to chronic constipation. Get Doan's Regulax. They operate easily, tone the stomach, cure constipation.

A Source in Nature.

Lecturing to popular audiences sometimes brings to a scientific man unexpected experiences. Sir Henry E. Roscoe in his autobiography records how one woman interpreted to suit herself his lecture on coal tar dyes. "I must thank you," she said, "for telling us how the flowers get their wonderful colors."

"Thank you, madam," said he. "But I do not quite understand how my lecture explained that." "Why, it is quite clear. You described how these wonderful colors are obtained from coal. Coal, you say, exists in the ground. Therefore it is perfectly evident to me that the flowers also obtained their colors from the coal." The world costermonger was originally costardmonger—that is, apple seller. His noisy manners were commented upon in Queen Elizabeth's day.

FUTURE OF CONCERTS SOMEWHAT UNCERTAIN

Trouble Is Break Between City And Traction Company.

THE BAND DID NOT ELECT.

Owing to the fact that the local street car company controlled by the Terre Haute, Indianapolis and Eastern syndicate, and the city council and board of works are at loggerheads, there remains some doubt whether they will jointly secure the Richmond City band for a series of concerts during the summer months, as was proposed before the present freight squabble came up. It was the idea then to secure the services of the band, for two concerts weekly, one to be given Thursday nights in the smaller parks of the city, and one Sunday afternoon in the Glen, the city and street car company standing an equal portion of the expense. The question probably will remain unsolved for some time to come.

The annual election of officers for the band did not take place Wednesday night as announced, but will occur next Monday night, at which time it is hoped to have a larger crowd than was present last night. One of the features of the band's music this summer will be the playing of the operatic scores sung at the Gennett theater during the past winter by different theatrical companies. According to the manager, Lawrence Deiker, operatic scores are more greatly appreciated by the Richmond public than the classical pieces of music, and this largely influenced the band to take the step it did in regard to the matter.

True Snobbishness.

Untold depths of snobbishness among freeborn Americans seem to be revealed by a recent incident that is worthy of a place in literature. A wealthy and cultured family of good ancestry, but who did not happen to figure as social leaders in a certain city, received invitations for a wedding party, from people whom they knew very well, but whose social aspirations were rather more pronounced than their own. The gift selected for the bride was a beautiful clock. It was bought at one of the best shops, and the cards of the givers were left to be sent with the clock at a certain date. Time passed, the wedding came off, but no acknowledgment reached the people who sent the clock. The clerk remembered shipping it with the cards, but nothing further was known until a mutual friend of the two families was moved to make inquiries of the bride's mother. This lady seemed to be a little vague about it, but it eventually transpired that the ambitious young bride had removed the cards of the donors and had substituted that of a conspicuous society leader with whom she happened to have the merest calling acquaintance.—Harper's Bazar.

Tracing a Voice.

It was when scholarly heads were bent low over weighty books and when students were flitting to and from classes on all sides of the corridor of the Drexel institute that the silence was broken one day by shrill shouts of "Please let me out! Please let me out! Oh, but it's a nice day! I don't like it in here!"

The startled porter rushed to the museum and back again to his post. The librarians, entirely unprepared for such an outrageous breach of the rule of silence which hangs aloft, likewise took a survey to see what man, woman or child—for the voice was puzzling in its quality—could be making such weird noises. No one could be discovered. Then the cries issued forth again, and another search began, and finally a young boy from the engineering department pointed out a blushing old lady who, beneath her skirts, sheltered an enormous parrot cage. She explained that she was moving the bird, had stopped in to get a book and was only mollified when she was told by the librarian that she could come back again without the lawbreaking bird.—Philadelphia Record.

The Longfellow Town—Portland, Me.

Few great men have loved their youth and all that pertains to that happy period as did Longfellow. As he returned again and again to the city of his birth, striving among the familiar scenes of boyhood to find and to re-live his "Lost Youth," so the literary pilgrim, as to a shrine, visits and revisits Portland, Me., that beautiful town that is seated by the sea, to seek scenes rich in their association with a poet and a home eloquent of the personality of a world famous man. This is the spot where Longfellow the boy passed that golden youth of which he sings so sweetly, the scene of that beautiful home life which in his verse has found the universal heart, the one place of all others which he loved, and to which it was his custom to return at least once each year throughout his life.—Stephen Cunniff in Putnam's.

The Mystery of the Universe.

I compare the mind of man to a musical instrument with a certain range of notes, beyond which in both directions exists infinite silence. The phenomena of matter and force come within our intellectual range, but behind and above and around us the real mystery of the universe lies unsolved and, as far as we are concerned, is incapable of solution.—John Tyndall.

Animal Worship.

Swine are adored in Crete, weasels at Thebes, rats and mice in Troas, porcupines in Persia, the lapwing in New Mexico, bulls in Benares, serpents in Greece and many of the African countries. The Hindoos never molest snakes. They call them fathers, brothers, friends and other endearing names. On the coast of Guinea a hog happened to kill a snake, the king gave orders that all the swine should be destroyed.

APPEARING OLD

Acts as a Bar to Profitable Employment. You cannot afford to grow old. In these days of strenuous competition it is necessary to maintain, as long as possible, a youthful appearance. It is impossible to do this without retaining a luxuriant growth of hair. The presence of Dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair until it causes total baldness. Newbro's Herpicide is the only known destroyer of this pest, and it is as effective as it is delightful to use. Herpicide makes an elegant hair dressing as well as Dandruff cure. Accept no substitute—there is none. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes—50 cents and \$1.00. Leo H. Fife, Special Agent.

MINING PROPERTY FOUND PROMISING

L. M. Jones Sends Back Word From California.

OPERATIONS BEGIN SOON.

Local persons interested in the Killian Mining company have received a communication from L. M. Jones, president of the company, who is now in California inspecting the mine, stating that he has found it far beyond his expectations so far as possibilities are concerned. He also states that 100,000 shares of the stock have been sold in Mono county, California, in which the mine is located, while 50,000 shares have been sold in Richmond, the supply having been almost depleted. Plans are being laid at present for the start of active operations on the mining property. Machinery will be installed in the near future.

CAMBRIDGE CITY, IND.

Cambridge City, April 4.—Ellen Hebble of East Germantown, is here visiting her friend, Pauline Clawson. The regular meeting of the town council was held at the city hall Tuesday evening. No business of importance other than the regular routine was brought before the board.

Dr. J. R. Mauk was in Richmond yesterday to serve on the pension board, and to attend the meeting of the Wayne County Medical association.

Mrs. C. T. Wright visited Mrs. Geo. Sholtz in Richmond yesterday.

S. B. Fisher was visiting his mother Mrs. Sarah Fisher in Richmond Wednesday.

Roy Fraunberg is here visiting his mother Mrs. Julia Frunberg.

Mrs. C. J. Marson, Mrs. Frank Marson, Mrs. Chas. Leeb went to Spiceland Wednesday to visit Mrs. Susan Calloway, who is taking treatment at the sanitarium at that place.

Mrs. Roy Copeland visited her parents, Mr. and Mrs. Wm. Boyd at Greensport, today.

Miss Anna Freeman and Mrs. Dan Van Buskirk, visited friends at East Germantown, Wednesday.

Mr. Harry Weed of Milwaukee, who is visiting his brother, Albert, went to Spiceland yesterday to visit his mother.

Walter Waddell was in Connersville yesterday.

Mrs. Laura Richey was the guest of her sister, Mrs. Frank Parsons in Richmond today.

Miss Pearl Buffett of Greenfield called on friends here yesterday.

Miss Ethel Thomas and Miss Louise Ford were the guests of the former's parents in Richmond Wednesday evening.

Mr. Morris Winship of Rushville, was in this city yesterday, transacting business.

At a meeting of the members of the school board Tuesday of last week, it was decided to reduce the teaching force in the Cambridge City high school this coming year. This action was taken in view of the law governing the increase in teachers' wages, which was passed in the last state legislature, bringing an added expense on the county.

The date for the concert to be given by the Cambridge City band has been postponed from April 10 to April 17. Free Turtle Soup at C. A. Morgan's all day Saturday, Cambridge City.

SOUTH BEND FILLED WITH PEDAGOGUES

The Attendance of Teachers It Is Thought Will Reach At Least 3,750.

THE OPENING TONIGHT.

WINONA LAKE WILL PROBABLY BE SELECTED AS THE NEXT MEETING PLACE—McCRACKEN FOR PRESIDENT.

South Bend, Ind., April 4.—The first session of the Northern Indiana Teachers' association convention will be held this evening and the city is filled with teachers from all parts of the state.

The prediction is now made that of the 10,000 teachers who hold membership in the association at least 3,750 will be present. The program arranged this year is of much higher class than any of the programs of preceding conventions. This is due to the fact that the greatly increased membership had placed much more money in the treasury. The opening meeting which will be held in the Auditorium, will probably be the one of the most interesting to the public and as a great rush is expected the Auditorium Annex will be thrown open to accommodate the overflow. At this session the lecture will be delivered by Dr. George Edgar Vincent of the University of Chicago. His subject will be "Children vs. Grownups." Aside from this interesting feature will be the inaugural address of President W. P. Modlin of Hartford City. The retiring president, O. P. Kinsie, of Valparaiso, will also make an address. Winona Lake will probably secure the next convention of the association. This fact developed this afternoon when many of the delegates announced their intention of canvassing the incoming teachers for the purpose of casting their votes for the Presbyterian Assembly grounds. There are several other cities that would like to secure the convention, Elkhart, Michigan City, Marion and Muncie, being among them.

No work has been accomplished in picking a slate of officials, and the prospects are that it will not be until near the end of the convention that a line can be obtained on the new officials. In South Bend, however, there has developed a sentiment favoring S. B. McCracken of Elkhart for the presidency.

AN INSIDIOUS DANGER.

One of the most serious features of kidney trouble is that it is an insidious disease and before the victim realizes his danger, he may have a fatal malady. Take Foley's Kidney Cure at the first sign of trouble as it corrects irregularities and prevents Bright's disease and diabetes. A. G. Luken & Co.

LECTURE COURSE CLOSED

Final Number at Hagerstown Was Delightful.

Hagerstown, Ind., April 4.—The last number of the Alumni Lecture Course for the season was given last night by O'Donnell who presented the monologue "The Sign of the Cross." A large audience was delighted with the splendid presentation. The interest was sustained from beginning to end of the long reading and applause was frequent. Mr. O'Donnell was recalled a number of times after the end of the piece and generously responded with some intensely funny sketches. This last number is considered by many as the best of the course.

Hives, eczema, Itch or salt rheum sets you crazy. Can't bear the touch of your clothing. Doan's Ointment cures the most obstinate cases. Why suffer. All druggists sell it.

Steel needles were first made in England in 1545.

THE enjoyment of the meal depends not so much on how big a variety you have to eat, as the good quality of what you do have. To begin with, if the bread is bad it robs the meal of the pleasure of eating. Do not make a mistake and have bad bread, but buy Mothers or Victor and you will be sure and have the kind that will please every member of the family. For sale by all grocers. RICHMOND BAKING CO.

CHANGES MADE IN EARLHAM FACULTY

(Continued from Page One.)

Changes will be made to the course of study, and the equipment. Practical Work Emphasized. It is the policy of Earlham to emphasize practical work both in the engineering and the science departments. In line with this policy, Prof. Holmes, of Johns Hopkins, will have charge of the chemistry in the future, beginning with next September. Prof. Holmes has had five years' experience as a college professor in Ohio, and in the South and he is now finishing his work for the Ph. D. degree at Johns Hopkins, which he is to receive in June. Pres. Remsen, of Johns Hopkins, himself, one of the leading chemists, gives Dr. Holmes, his "unqualified endorsement," and his appointment means very much for the chemistry work of Earlham college. By this arrangement Prof. Morrison will be able to devote his entire time to the department of physics, which he has already made so popular this year. He will extend the course in both theoretical and practical physics and offer more work in physical manipulation and shop work, laying the foundations for mechanical engineering.

Begin Duties August 1. Mr. and Mrs. Ware will take up their duties as superintendent and matron of the college on August 1st. The duties of these officers will be much increased when the new buildings are finished and the college continues its growth. It is not yet announced as to whether Mr. Ware will sever entirely his connection with East Main Street Friends' church, of which he has been the pastor for some time.

Superintendent and Matron Furnas who withdraw from the college at the close of the summer term, offered their resignation last year, but were prevailed upon to remain another year. Supt. Furnas intends to return to his farm in Marion county, not far from Indianapolis.

"My child was burned terribly about the face, neck and chest. I applied Dr. Thomas' Eclectric Oil. The pain ceased and the child sank into a restful sleep."—Mrs. Nancy M. Hanson, Hamburg, N. Y.

News of the High School.

Misses Ratliff and Phelps, teachers in the Muncie school, and Mr. Miller of Piqua, O., were visitors at the school.

Friday the 2-J class will discuss the following subject: "Are there social classes in America?" The 2-2 class will hold its semi-annual debate Friday on the question of "Woman Suffrage."
