## OUTLOOK SPLENDID FOR ART EXHIBIT; OPENS ON JUNE 11

(Continued From Page One.)

Richmond has always ranked well for well hung exhibits, but this year a particular effort will be made to make this a most pleasing feature. J. E. Bundy is chairman of the hanging committee, while the other members are Mrs. Elmer Eggemeyer, Miss Carrie Lesh and Frank J. Girardin.

**Exhibit of Photography.**  
The exhibit of photography will be particularly fine this year according to the report made by Herbert McDivitt, a member of the committee. Curtis, the great photographer of Indiana, will make an exhibit of six pictures, while another group of photographers no less noteworthy, have been engaged. Up to date the committee has secured 81 excellent pictures from different parts of the United States. The members of the committee are Paul Ross, chairman, Herbert McDivitt, Mrs. Paul Ross and Harry Ross.

The committee on textiles promises an excellent exhibit. Miss Hazel Lough is chairman of this committee. Miss Carrie C. Lesh, chairman of the committee on the public school art exhibit, stated that the exhibit this year would be better than ever before. The high school work will be larger.

The catalogue committee is composed of Miss Juliet Corwin, chairman, Miss Ella Winchester and Mrs. M. F. Johnston.

The finance committee of which Supt. T. A. Mott is chairman, made its report through Ellwood Morris and stated that the same methods of raising money to defray the expenses would be used again this year.

Mrs. Demas Coe, chairman of the committee on reception and decoration has completed her committee, and it is composed of Messrs. and Mesdames Coe, Paul Comstock, R. L. Sackett, Robt. L. Kelly, Platt Robinson, Guy McCabe, Thomas Graham, Jesse S. Reeves, Will Starr, Wm. Earhart, James Morrison and C. K. Chase.

**Manual Training Work.**  
The manual training exhibit will consist of articles made in the regular course of school work during the school year, which equals one week's work, ten hours to the day. The exhibit this year will be better than ever before. The manual training committee, of which W. S. Hiser is chairman, is composed of the following: Emma Bond, Alice Winder, Lulu Lihons, Katherine Cox, Lulu Moorman, Alvina H. Steen, Sarah Sanderson, Inez Trueblood and Grace Simpson.

The public school committee, of which Miss Alice Locke is chairman, is composed of the following: Misses Hale, Foulke, Thompson, Sands, Friedley, Kenley, Amy Harned, Elliott, Boyd-Hill, Clara Newman, Klenker, Dickinson and Clawson.

**Exhibit at Muncie.**  
The Muncie Art exhibit now on, is collected by Mrs. M. F. Johnston of this city. All the exhibits there with one possible exception, will be brought to this city and made a part of the local exhibit. Many additions to all departments will be made here however, and it is thought that the local event will be at least twice as large as that at Muncie.

**Artists of Note.**  
Among the artists of note who will have paintings on exhibit and whom Mrs. Johnston takes particular pride in securing for the local exhibit are: Adam Emory Albright, of Edison Park, Ill., who will have three paintings, "A Young Barbarian," valued at \$1,500; "Anglers," valued at \$800, and "Summer Boarders," \$500.

William M. Chase, one of the most noted of American painters, will exhibit three paintings, "Mother and Daughter," \$2,500; "Still Life," \$750, and "At Shimmering Hills," \$500.

## WATSON A CANDIDATE FOR GOVERNOR—MAYBE

Report to This Effect Has  
Been Renewed.

IS GIVEN HIGH PRAISE.

(Westfield, Ind., News.)

Hon. James E. Watson, member of Congress from the Sixth District, will be a candidate for the nomination for governor of Indiana, at the convention of 1908.

When in this county recently Mr. Watson told several men prominent in politics, that he would ask the nomination, although he had made no formal announcement.

Mr. Watson is well and favorably known in this county, as he is in Indiana, and in the country as well. He is an orator of force and eloquence, a great campaigner among the people, and one of Indiana's leading congressmen.

Richmond vehicle manufacturers are said to be preparing to go into the making of school hacks, on an extensive scale to meet the demand created by the new law relative to the consolidation of schools.

The Morrison-Reeves library is the second largest public library in the state, according to statistics just reported. The Indianapolis library is first in size.

## 'PHONE PEACE PLANS UNDER DISCUSSION

Warring Elements May Be  
Brought Together at the  
Chicago Convention.

A STATEMENT IS ISSUED.

"INDIANA IDEA" MENTIONED AS  
METHOD OF WORKING TOWARD  
PACIFICATION—INDEPENDENTS  
WILL NOT RELAX EFFORTS.

Chicago, May 25.—Details of a plan to bring lasting peace into the relation of two great warring elements in the telephone business of the United States and Canada are to be revealed in Chicago ten days hence, when the annual convention of the International Independent Telephone association will begin at the Auditorium hotel. Three entire floors of the big hotel have been reserved for the 1,000 delegates to attend the convention and the manufacturers of telephone apparatus who plan electrical displays for Chicago's visitors. The convention may commit the country's \$350,000,000 independent telephone interests to a program of peace with the Bell interests, which they have fought for years.

The Indiana Idea.

The method by which competition fatal to dividends is to be done away with is known among independent telephone managers as the "Indiana idea." It is the latest development from the struggle for supremacy in that state, where the independents have nearly 200,000 telephones in operation. The Bell interests have proposed to withdraw from all competitive towns in Indiana except two, provided the independent companies will take the Bell lines into their switchboards and deliver to the Bell companies such toll business as can not be sent over independent lines.

Telephone men expect that if the Indiana independents will agree to the compromise offer of the Bell interests the latter will follow the agreement by a proposition to Ohio independents similar to that in Indiana. The result promises to be better service for hundreds of thousands of telephone users all over the country and more profits for the hitherto warring interests.

Although the independent companies will discuss a business arrangement designed to restrict competition to some extent there will be no general cessation of effort to extend the independent lines.

## TOWNS WITH TROUBLES.

London's trouble is her fog.  
Tokyo's trouble is earthquakes. In her worst 200,000 residents were killed. The mistral is the trouble of Marseilles, an east wind that increases the city's death rate 50 per cent.

Calcutta's trouble is cholera, and the bubonic plague is the trouble of Bombay. Each city pays to her trouble an annual tribute of 9,000 souls.

Bagdad's trouble is the "Bagdad button," a sore that attacks practically every resident and visitor, leaving a button shaped permanent scar.

Madrid's trouble is the solano, a summer wind from the southeast. It is exceedingly hot and is accompanied by blinding, choking clouds of dust, so that notwithstanding a temperature of 105 or 110 degrees all windows must be closed.—Philadelphia Bulletin.

## The Science of Chemistry.

Chemistry did not become a science—in other words, chemistry proper did not exist—until the seventeenth century, and it was as late as the middle of the eighteenth century before it began to amount to much. The old alchemy undoubtedly contained the germs, or at least the possibilities, of the present day chemistry, but beyond this the relationship between the modern science and the ancient delusion is slight indeed. Still, it cannot be denied that it was in the foolish search for the "Philosopher's Stone" and the "Elixir of Life" that men first hit upon the discoveries which were destined to develop into the great science of today.—New York American.

## The Sarcastic Cabby.

The London bobby is notorious for overgrown feet and hands. Likewise the London cabby is generally accredited with never being at a loss for a reply. One day a bobby lifted up his hand majestically to hit a cabby, but the latter crowded his horse ahead. "Didn't you see me raise my 'and'?" demanded the bobby.

"I did see the sky darken a moment, but my 'orse was shy'n' at your feet," retorted the cabby as he whipped up and went on.—London Graphic.

## The Dances and the Raven.

Perhaps the Dances selected the raven for their standard out of feelings of gratitude, for before the invention of the machine the raven was the most faithful friend, him extremely useful. The only method of determining whether land was near was to let loose a raven. If the bird saw land he sailed away for ever, but if he returned to the ship.—London Chronicle.

## Equally Culpable.

"I can say for myself that I never have been mean enough to get another woman's cook away from her."  
"Neither have I, but I must confess that once or twice I have tried to work our cook off on some of my neighbors."  
Fine day, isn't it?—Illustrated Bits.

A story which to western minds may savor of ingratitude reaches us from one of the northern ports. It appears that among a large quantity of food stuff consigned to the famine stricken people of China by American sympathizers were thousands of cheeses. It is asserted that the Chinese as a race abhor cheese, and the result is that in some of the northern places there is a glut of this commodity at present. Big cheeses once so rare, are now procurable for 60 cents each.—South China Post.
