HIGHEST LAST SATURDAY.

THE HEAT HAS BEEN VERY NOTICEABLE ON SEVERAL DAYS OWING TO THE HUMIDITY—RAIN IS WELCOME.

Richmond has had a siege of particularly warm weather during the month of July up to date. The highest temperature of the month was last Saturday, when the thermometer registered 92 degrees. The past three days have not been so warm as it was either Saturday or Sunday, but the condition of the atmosphere has been sultry and people have been prone to notice it more than they would otherwise. The nights too, have been warm. The minimum and maximum temperatures for the month as recorded by Walter Vossler at the pumping station are:

	Min.	Max.

Tuesday, July 2	74	58

Thursday, July 4	86	51
Friday, July 5	83	58
Saturday, July 6	92	63
Sunday, July 7	90	65
Monday, July 8	88	61
Tuesday, July 9	87	67
Wednesday, July 10	89	..

The heat was very noticeable today, but the highest point registered was only 89. This afternoon a heavy rain fell and tended to cool the atmosphere. The rain has been looked forward to for some time by the farmers in the vicinity of Richmond. The ground was dried out considerably while the corn had begun to show the need of water. Vegetation had begun to look dusty and withered, but the rain this afternoon put on a fresh touch.

THE CHANCE CAME.

Dan's Father Said He Never Would Set the River on Fire.

Several years before the discovery of oil at Pithole an Irishman named McCarthy and his son Dan came to this country from the Emerald Isle. Dan was a young man of twenty, but his father looked upon him as a mere boy and seemed to take delight in ridiculing him before people.

"Yes, Dan is a good boy," he would say sarcastically, "but Danny, me boy, ye'll never set the river on fire."

This was his stock witticism, and it annoyed Dan very much, but he did his best and soon surprised the old gentleman by securing a lucrative job.

"Yes, Danny has a job all right," he said. "It's \$1.50 a day, but the boy'll never set the river on fire—eh?"

When oil was found at Pithole, Dan hurried to the scene and was soon earning unusually large wages as a teamster. All the petroleum was drawn in barrels, and teams were in great demand. He saved his money, bought an acre of land and soon had a well drilled that was producing 100 barrels of oil per day at \$10 per barrel.

The elder McCarthy joined him, saw the well, received a liberal gift of money and then shook his head ominously. "Tis a good thing, Danny," he croaked, "ye're doin' well; but mark me worruds, ye'll never set the river on fire, me boy."

A few days later a flood wrecked one of Dan's small wooden tanks, the oil ran down the river, and there was great excitement. As Dan and his father stood on the bank watching the oil float away Dan drew a match and lighted it.

"Father," he said coolly, "the next time ye say 'O'll never set the river on fire' place remember that Oil had a chance wanst, and—didn't do it, bedad."
