WORK THAT TELLS

Plenty of It Has Been Done Right Here in Richmond.

Cures that last are cures that tell. To thoroughly know the virtues of a medicine you must investigate the cures and see if they prove permanent.

Doan's Kidney Pills stand this test, and plenty of proof exists right here in Richmond. People who testified years ago to relief from backache, kidney and urinary disorders, now declare that relief was permanent and the cure perfect. How can any Richmond sufferer longer doubt the evidence?

Dallas Cassel, employed at the Starr Piano Factory, and living at 711 South Eighth street, Richmond, Ind., says: "I think it was about fifteen years ago that I was cured by Doan's Kidney Pills. At that time I was working for the Richmond Casket Company and in the course of a hard day's work had quite a bit of heavy lifting which brought on severe backache and dizzy headaches. I had tried several remedies with but no effect. Finally I was induced to get a box of Doan's Kidney Pills at A. G. Luken & Co's drug store. After I had taken them for a short time the dull aching in my back disappeared and with it the headaches. Since that time I have not been troubled, and have recommended Doan's Kidney Pills to many other sufferers."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

MARKET REPORTS

OATS CROP PROVES TO BE A DISSAPPOINTMENT

Grain Light in Weight and the Yield Deficient.

PRICE CURRENT COMMENT.

Seasonable weather has prevailed during the last week in the central regions. The threshing of oats and wheat continues in progress, with but little change apparent in results from those previously noted. Winter wheat does not appear likely to exceed the prevailing expectations, and the reports indicate but few disappointments, says the Price Current. The oats crop threshing returns continue to reflect light weight of grain and deficient yields, with much of irregularity. The corn crop has been attended with moisture, favoring the crop in portions of it, and it is maturing favorably for the most part, but drier conditions would probably be more to the liking of the farmers, as too much moisture in the plant would not be well if early and slight frosts are to be experienced. Most of the reports reflect the hope that the month of September may be passed without such visitation, and should the plant escape frost damage in this month the outlook would be quite encouraging, from present appearances.

Fall plowing operations are under way, but have not been prosecuted under generally favorable conditions as in some places the ground was too hard and dry, while in others it has been too wet.

Farmers are inclined to hold old corn firmly, and are not marketing wheat and oats freely. The recent advance in prices in the leading centers may, however, have some effect in bringing about a more liberal movement.

Pastures are good in the central regions, and live stock is in healthy and satisfactory condition.

HOG MOVEMENT IS FAIR: PRICES ARE REDUCED.

Comparison With Corresponding Week Of Last Year Shows But Little Change.

Cincinnati, Sept. 6.—The Price Current says: There is shown a fair movement of hogs, without much change in the comparison with corresponding week last year. Total western packing 335,000, compared with 345 the preceding week and 415,000 two weeks ago.

The speculative provision market ruled quiet the past week, without important change in prices.

The export clearances of product were smaller than for the preceding week, and were slightly below the record for the corresponding week last year.
