

LOOKING FORWARD TO DEPAUW MATCH

Coach Vail Will Put His Quaker Squad Through Hard Practices.

EARLHAMITES HOPEFUL.

DEPAUW AND EARLHAM ARE EASILY THE TWO BEST SECONDARY TEAMS IN THE STATE AND OUTCOME OF MUCH INTEREST.

This week Coach Vail will put his Quaker football squad through a series of hard practices so that they will be in top notch form for the DePauw game, which takes place Saturday at Greencastle. The sound beating Earlham administered to Butler last Saturday has greatly encouraged the Earlham rooters and they are confident that their team with a little improvement will have a fair chance to defeat the Methodists. In case DePauw does win it will be by a small margin. Win or lose Earlham should score in this game.

What the big Earlham line will do against the attacks of the heavy DePauw backs remains to be seen. The light Butler backs with their poor system of attack failed to penetrate the Quaker line, but against a strong, systematic attack as DePauw is known to have the Quaker line may develop unknown weaknesses.

In Hancock and Bruner, Earlham has two ends who will compare favorably with ends on any secondary college team in the state. DePauw will find it difficult to execute plays outside the tackles. Hancock is developing into a remarkably good end. He is light but a hard tackler and an intelligent, aggressive player. Bruner is also an aggressive player and a sure tackler. In the open field he is not as good as Hancock as he is not as fast as this player.

Good Back Field.
Harrell, Wann, Geyer and Elliott form a good back field. The first three are heavy men but they get over the ground well. Elliott at quarter runs his team well and gets the ball off fast. Every man on the Quaker squad is in remarkably good condition and Coach Vail seems to be satisfied with his team with the exception of his line, which he still regards as a doubtful quantity. Good hard work this week should whip the forwards into shape to meet the hard attack of the DePauw backs. The Quakers fear Tucker, the great DePauw drop kicker.

DePauw and Earlham are easily the two best secondary teams in the state and the victor in the battle next Saturday can claim the secondary state championship without danger of having the claim disputed. DePauw made a much better showing against Wabash than Earlham did, but it must be remembered that Earlham met the Little Giants in the first game of the season. Since that time the Quaker team has developed wonderfully and it is a clinch that Wabash could not run up 35 points against the Quakers today. Last Saturday evening the Earlham students celebrated their victory over Butler by building a big bonfire on the campus.

He Won the Breeches.
There is a proverbial phrase signifying that the wife is master in the household, by which it is intimated that "she wears the breeches." The phrase is both odd and common and is only half understood by modern explanations, but in medieval story we learn how "she" first put in her claim to wear this particular article of dress.

A French writer of the thirteenth century (Hughes Planchettes) relates some of the adventures of a couple whose household was not entirely harmonious. Sir Haines was the husband; Dame Anleuse, the wife. After a quarrel one evening Sir Haines said, "Early in the morning I will take off my breeches and lay them down in the middle of the court, and the one who can win them will be acknowledged the master or mistress of the house." Dame Anleuse accepted the challenge. The battle was fought the next morning. It was a long battle, and it was bloody. At the end Sir Haines bore off the breeches, but the good dame had convinced the world that she was entitled to wear them in her own house.

The Accommodating Spanish Cow.
It was the first cow we had seen in Spain, and she had every right to be the haughty creature that she was. A girl led her about the plaza at dusk, milking a thimbleful of the rare beverage at the houses of the customers, and it is hard to say which of the three concerned was the most proud—the one sold, the one who bought or the one who gave the milk. She of the bovine race was decorated with an old cheville fringed curtain and, as though that was not enough to boast of, pulled along the streets a very unruly but bouncing daughter. The calf was tied to the tail of the cow by a rope and had already learned the ineffable joy of hanging limp and being dragged by her fond parent. Fortunately the rope was not too long for disciplinary purposes, and when exasperated beyond all polite admonition the cowed hoof of the mother set daughter upon her feet once more.—Louise Closser Hale in Harper's.

"BABY" BEST WILL MARRY ELIZUR YALE-SMITH

Miss Ann'e Livingston Best, or "Baby" Best as she is familiarly called, is to be married to Elizur Yale-Smith on Wednesday afternoon. Mr. Yale-Smith has given her a diamond horseshoe and a long spray brooch of diamonds, and his father, Wellington Smith, has sent her a check for \$1,000.

BADLY CRIPPLED BUT HOPEFUL OF WINNING

DePauw Anxious to Secure Secondary Championship.

GAME SHOULD BE FAST.

Greencastle, Ind., Nov. 11.—The Methodists returned home Sunday from Decatur, Ill., where they defeated James Millikin Saturday by a score of 5 to 0, badly crippled and not at all pleased with their showing.
Coach Brown is somewhat worried over his team's crippled condition, as their showing Saturday will decide an important contest. The "Little Giants" will be in the state race and only Earlham is shutting DePauw off from the secondary championship. The game which will be played against the Quakers here Saturday should be one of the season's best and if the Methodists only recover their form in this week's practices they should have no trouble in walking off with the state's second honors.

SCHEDULES ARE MADE OUT.

Basketball and Polo Games at the Garfield School.

Schedules have been made out for basketball and polo games at the Garfield school and the gymnasium is the scene of contests every evening at the close of school. The high school freshmen and independent teams have asked for games with the Garfielders but as yet there seems to be but little chance to accommodate them as Garfield is too busy with her own athletics to have contests with outsiders.

A Lasting Effect

This Evidence Should Prove Every Claim Made for Doan's Kidney Pills in Richmond.

Relief from the pains and aches of a bad back is always welcome to every backache sufferer; but to cure a lame, weak or aching back is what's wanted. Cure it so it will stay cured. It can be done. Here's the strongest evidence to prove it:

Mrs. F. Heater, of 607 North Thirtieth street, Richmond, Ind., says: "My son while working one day wrenched his back, and believing it had affected his kidneys he got a box of Doan's Kidney Pills from A. G. Loken & Co's drug store. After taking a few doses the pain disappeared and he believes Doan's Kidney Pills a fine remedy for backache."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

"The only decent razor I've got," complained Gabbie, "is getting into very poor condition. I believe it's tired. You know, they say razors get that way."
"Ah, yes," replied Knox, with a yawn, "tired of your chin."—Washington Post.

TURKEYS PLENTIFUL IN SOUTHERN INDIANA

State Entomologist Has Returned From a Trip.

REASONS FOR ABUNDANCE.

Benjamin W. Douglass, state entomologist, who has just made a trip of nursery inspection in the southern part of the state, says that from present indications, southern Indiana, at least, will not lack for turkeys on Thanksgiving.
"The turkey crop throughout the southern part of the state," said Mr. Douglass, "is unusually heavy this year. Especially is this so in Harrison County. The farmers' wives of that county have raised thousands of turkeys this year, and they are being shipped out on every train. I was informed that it was pretty much the same throughout the southern part of the state. Dry weather and abundant food in the way of insects has brought about the big turkey crop."

MRS. LEITER IS SUED.

Mrs. Joseph Leiter, mother of Joseph Leiter, the Chicago millionaire, was served with papers in a suit for \$300,000, as she stepped from the deck of "The Adriatic" on Friday last. Hugh Crouse of Chicago, who is the plaintiff in the suit, was formerly confidential agent for Mrs. Leiter, handling her estate and making investments for her. He claims that the sum of \$300,000 is due him in salary and commissions for services extending over a period of three years.

GEN. ORAN PERRY TO WRITE A HISTORY

It Will Deal Fully With Indiana's Part in the Mexican War.

SUCH RECORD IS LACKING.

IT WILL BE POSSIBLE TO SECURE INFORMATION FROM THE FILES OF PAPERS PUBLISHED AT INDIANAPOLIS IN THE FORTIES.

Oran Perry, adjutant general of Indiana and formerly of Richmond is preparing to write the first complete history of the movements of Indiana troops during the Mexican war. Because of its inaccessibility heretofore, to get data from which a history of Indiana's part in that conflict could be written this state has never been able to publish in detail an account of the valiant manner in which Hoosier soldiers fought in the various battles of the war. Gen. Perry's publication will be similar to W. H. H. Lurell's account of the movements of Indiana troops during the civil war and the adjutant general's account of Indiana's part in the Spanish-American war.

"No history of the part that Indiana played in the Mexican war," said Adj. Gen. Perry, has ever been written for the reason that we have been unable to get satisfactory data. Indiana had five regiments in the service during the Mexican war—the First, Second, Third, Fourth and Fifth regiments of infantry—numbering some 4,500 men in all. We have had no muster-in or muster-out rolls of the first three regiments and have only the muster-in or muster-out rolls of the Fourth and Fifth regiments. In order to complete the rolls I have made application to the War department at Washington for copies of both the muster-in and muster-out rolls of all five of the Indiana regiments.

"I was at a loss to know where to get the data for this history until it struck me that I might be able to find some of it in the newspapers of that period. From the files of the Indiana State Sentinel for 1846, 1847 and 1848 I have found all the information that one might want and will be able to publish a complete history of Indiana's part in the Mexican war. The Sentinel's columns contained all the orders issued to the Indiana troops by David Reynolds, then adjutant general.

First Call Issued.

"The first call was for three regiments of ten companies each. Some forty or fifty companies were offered. At the outbreak of the war there was but one railroad in the state. This road connected Edinburgh with Madison. The three regiments were ordered to rendezvous at New Albany. The troops recruited in the southern part of the state marched to New Albany. Those from central and northern Indiana marched to Edinburgh and went to Madison by rail, thence to New Albany by boat on the Ohio river and thence by boat to New Orleans and by steamer or sailing vessels to the Rio Grande, where they joined the army under Zachary Taylor. The muster-in into service was done at New Albany. The troops behaved gallantly in the battle of Buena Vista and other engagements.

"The second call was issued April 24, 1847, and it was then that Indiana recruited the Fourth and Fifth regiments, which did as gallant service as the other three. I find that the columns of the newspapers contain much correspondence from the soldiers at the front as well as the official reports

MARTIN BUNDY SAYS NO NEED TO WORRY

Accounts for His Ninety Years Of Life.

ROUNDLY CONGRATULATED.

New Castle, Ind., Nov. 11.—Numerous opinions have been given by men who have reached a ripe old age as to what contributes to longevity, but one which can be practiced by everybody without much effort is given by Martin L. Bundy, who Sunday celebrated his ninety-first birthday. In a recent address before the Henry County Historical society Mr. Bundy said: "There is nothing, I think, which contributes more to longevity than an even temper of mind. We know that certain things must happen and therefore it is better not to worry and fret when they occur. If any one must walk the floor and wring his hands in agony, let the other fellow do it." Sunday Mr. Bundy on his ninety-first birthday anniversary invited his friends to call on him and several hundred people, called at the Bundy home to pay their respects to "Henry County's Grand Old Man" and to offer him congratulations.

Eighty-six years of Mr. Bundy's life have been spent in this city and vicinity, he having come to this section from North Carolina in 1821. Despite his advanced age he is about town daily and keeps up to the minute on affairs of the day.

It expels all poisons, stimulates the internal organs, cleanses the system and purifies the blood. Such is Hollister's Rocky Mountain Tea, the most effective preventive of disease, 35 cents. Tea or Tablets. A. G. Loken & Co.

NO SENSE OF HUMOR.

A Scientist's Criticism of a Comic Book For Children.

Charles Monselet, a Frenchman of letters, published a comic "scientific dictionary" for the benefit of children, who found no little amusement in his odd accounts of things in the animal world which were perfectly familiar to them, but which were described in a rather fantastic way in M. Monselet's book.

The editor of a certain scientific journal, however, was much surprised and shocked at M. Monselet's ignorance when he took up the book, and he wrote an article about it in his paper, which ran as follows:

"A certain M. Monselet has published a dictionary for the use of children, which contains definitions showing the most extraordinary ignorance, such as the following:

"Sardine—A little fish without any head which lives in oil."

"As if a fish could live without a head and in oil!"

"Another definition: 'Parrot—A bird somewhat resembling the pigeon, generally green when it is not red or yellow or blue. Cocka toos sometimes live to be a hundred years old, except when they are stuffed, and then there is no limit to the length of their life.'"

"Now, it happens that the parrot is not a pigeon at all and never has the colors that M. Monselet gives to him, and, in short, this M. Monselet knows no more of natural history than he has grains of common sense."

NOTICE.

To correct false reports, I wish to state I have no intention of leaving Richmond, as I have arrangements perfected for 10 years to come. Yours respectfully, Dr. W. A. PARK.

STOCK STATISTICS ARE TO BE MADE COMPLETE

State Statistician Undertakes Work of This Kind.

25,000 BLANKS SENT OUT.

The magnitude of the work undertaken by Miss Mary Stubbs, state statistician, in gathering the first statistics on registered and pure blood live stock in the state is shown by the number of letters that Miss Stubbs is preparing to send out. In all about 25,000 blanks are to be sent to the stock dealers in the state, 4,227 of them to breeders of fine horses, both harness and show horses; 7,500 to breeders of fine hogs; 8,200 to breeders of fine sheep, and 6,000 to poultry fanciers. Separate blanks are to be sent to each breeder. Some of the breeders, however, have three kinds of stock.

In all there are about 20,000 people in the state engaged in raising registered and pure breed live stock. Field Agent C. L. Stubbs and two deputies, L. H. Hutchins of Winchester and Harry Stevenson of Catawba, spent three months this year in traveling over the state gathering the names of the stock breeders from the secretaries of the agricultural societies, farmers' institutes, postmasters and every other source obtainable. Miss Stubbs hopes to have all reports in by Jan. 1, so as to begin the work of compiling the statistics at that time. The purpose of compiling these statistics is to obtain an exact inventory of the high-class live stock in the state and stimulate the industry.

Chicago passengers using C. C. & L. trains land at 12th st. (Illinois Central) Station; most conveniently located. Remember this. 6-11

CAISSON WORK.

How Foundations of Great Steel Structures Are Built.

The foundations for the great steel structures are built by means of caissons in which the men can work under a great pressure of air. It is a very interesting sight to watch them, and the best of it is that any one may see them at close range from an adjoining sidewalk. The caisson is a hollow steel cylinder open at the bottom and just large enough to permit a man to work. The workman climbs down a ladder in this tube and digs away the earth at the bottom. As the earth is taken away the steel tube is gradually lowered. The earth is lowered and raised by a tall derrick at one side. As the caisson sinks, air is pumped into the compartment containing the man. This is to force back any water or dirt that might fill the hole from the outside as fast as the workman removes it from within. The pressure of this air is often so great that a man can work but an hour or so at a time. At the top of the caisson is a steel cylinder with an air tight door at either end, which serves as a kind of vestibule to the tube below.

When one of the caisson workers starts to go to work he opens the door or lid at the top and climbs in, when the opening is once more tightly closed. This door or lid is air tight. After the opening to the outer air has been closed the workman opens the door at the bottom of this steel compartment and lets in compressed air from the caisson below. It takes a few minutes to become accustomed to breathing this atmosphere, for the heavy air makes the head ring. As soon as the workman can do so he climbs down into the tunnel below, closing the lower door of the steel anteroom as he does so. All this must be done in the dark. If the workman wishes to signal the outer world he may do so by striking the steel sides of his narrow prison with his shovel. He usually signals in this way when the bucket is to be raised or lowered.—Frances Arnold Collins in St. Nicholas.

MUNICIPAL COSTS SHOW BIG INCREASE

Bureau of Statistics Reports Gain in Towns' Annual Expenses.

SMALLER SALARIES PAID.

JASONVILLE HEADS HEAVIEST COST LIST—COMPARISONS IN THE FIGURES ARE MADE WITH THOSE FOR THE YEAR 1905.

Indianapolis, Nov. 11.—Reports just compiled by the Indiana bureau of statistics show that there was a marked increase in the expenditures of the incorporated towns of the state in 1906. The reports are for the year ending Dec. 31, 1906. The expenditures for 1906 of the 351 incorporated towns were \$1,328,632.84. The expenditures in 1905 were \$1,179,330.96. The reports show, however, that a smaller amount was paid out by the towns for salaries in 1906 than was expended in 1905. The expenditure for salaries in 1906 was \$178,770.98. The expenditure for salaries in 1905 was \$184,703.64.

The expenses of the health departments of the towns in 1906 amounted to \$7,212.16. The expenditures of the health departments in 1905 were \$7,840.64. Other expenditures in 1906 were as follows: Fire department, \$11,004.54; water works, \$152,246.56; electric lights, \$86,098.79. The same expenditures for 1905 were as follows: Fire department, \$18,986.04; water works, \$79,667.45; electric lights \$104,426.87.

Receipts.

The receipts of incorporated towns in 1906 were \$1,743,448.41. The receipts of the towns in 1905 were \$1,559,513.74. The liquor license fees of the towns in 1906 amounted to \$84,046.56. The liquor license fees in 1905 amounted to \$104,006.06. Receipts from taxes in 1906 were \$827,485.82. The receipts from taxes in 1905 were \$814,825.07. The cash on hand of all towns Jan. 1, 1906, was \$301,323.83. The cash on hand Jan. 1, 1905, was \$296,427.22.

One of the towns showing the heaviest expenditures in 1906 was Jasonville, the amount being \$22,570.45. The expenditures of Brookville in 1906 were \$17,010.47. Other towns that had heavy expenditures were as follows: West Lafayette, \$19,900.43; Rochester \$72,110.01; Sullivan, \$53,995.62; New Castle, \$48,970.69 and Crownpoint \$15,130.35.

A METHODIST MINISTER RECOMMENDS CHAMBERLAIN'S COUGH REMEDY.

We have used Chamberlain's Cough Remedy in our home for seven years, and it has always proved to be a reliable remedy. We have found that it would do more than the manufacturers claim for it. It is especially good for croup and whooping cough.

Rev. James A. Lewis, Pastor Milaca, Minn., M. E. Church. Chamberlain's Cough Remedy is sold by A. G. Loken & Co.

Smallest Deer in the World.

The "mousedeer" is the chevrotain, one of the smallest of hoofed animals. It stands less than twelve inches in height at the shoulder. The prevailing color of the fur is brown, finely speckled with yellow. The spots are large and sometimes run into each other and form stripes. The underparts of the body are white. It possesses the peculiar habit of walking on the tips of its hoofs. This lends a stiffness to the legs, which has gained for the chevrotain the reputation of having no knee joints. It has no horns or antlers. But, as in the case of the musk deer, the male is provided with large canine teeth or tusks in the upper jaw. It is of exceedingly timid disposition and lies hidden in the jungle throughout the day and only ventures to feed in the early morning and after dusk in the evening. In captivity this tiny native of India is gentle, quite tame, but always shy.—Chicago Tribune.
