Political Gossip.

Congressman James E. Watson is sending out letters to his republican friends in the Sixth District thanking them for past favors and reminding them that he is a candidate for the republican gubernatorial nomination. "During the past twelve years as your representative, I have experienced the thrill of victory and also passed through defeat," he says in one of his letters. "In all these years and out of all such experiences the pleasantest memory and fondest recollection is to recall the unfailing loyalty and untiring support of many friends. You have placed confidence in me repeatedly, and in that confidence I have tried to be true. In serving you I have always been spurred by the thought that I should do nothing to bring discredit or prove unworthy of the commission I bore as your representative. And now in following an ambition to be governor of our state, I hope to receive the same hearty support at your hands that I have in former years as your candidate for congress."—Indianapolis Star.

BLANKS SENT OUT BY STATE SUPERINTENDENT

Seeks Information About Cer-
tified High Schools.

FOR USE OF STATE BOARD.

New inspection blanks under the new law providing for the inspection of the certified high schools, the graduates of which are entitled to teach after twelve weeks in a normal school, are being sent out to the county superintendents by Fasset A. Cotton, state superintendent of public instruction. The blanks provide for information relative to the course of study and the length of the term and give a list of books and apparatus required for the schools and the qualifications of the teachers.

"The blank is worked out in such a way," said Mr. Cotton, "as to enable the State Board of Education to have some idea of the number and standards of the certified schools in the state."

A GOOD LINIMENT.

When you need a good reliable liniment try Chamberlain's Pain Balm. It has no superior for sprains and swellings. A piece of flannel slightly dampened with Pain Balm is superior to a plaster for lame back or pains in the side or chest. It also relieves rheumatic pains and makes sleep and rest possible. For sale by A. G. Luken & Co.

Clean Chopsticks Sure.

"Seeing these quill toothpicks done up in paper envelopes in the hotels here," said the man from the far east, "reminds me of the Japanese eating places. In the bigger hotels or restaurants they hand you the chopsticks done up in a sealed envelope. This is with the idea of convincing you that they never have been used before, which is not always so. In the cheaper restaurants they have a much better plan for setting your mind at rest. There you get a piece of wood as broad as two chopsticks split to within an inch of one end. When you take this piece of wood you split it the rest of the way, and there you have the two sticks. You can be sure then that no other person has used them."—New York Sun.

The City of Glorious Sunshine.
Of all the living works of man which I have visited I think none is the equal of Moscow in interest and beauty. It is a city of glorious sunshine, of golden domes and silver crosses and of multicolored cupolas, of palaces and temples. In it are found all the refinements of the west and all the curious fascinations of the east. Even the incidents of ordinary commonplace civilized life are touched by a flavor of romance.—Wide World Magazine.

Week Commencing Nov. 11th.
Monday—Richmond Commandery, No. 8, K. T. Work in Knight Templar and Knight of Malta.
Tuesday—Richmond Lodge No. 196, E. A. degree.
Saturday—Loyal Chapter No. 49, O. E. S., stated meeting and rehearsal.

HAS INVENTED A LAND AND WATER AUTO CAR.

The inventor of the land-and-water-auto-car arrived here from France on the French liner "Gascogne." He is Jules Julien Razallier, and his invention, that looks like a small torpedo boat on wheels, is called the canot-voiture, which means a canoe-car. The car has four wheels like an ordinary automobile, except that they are armored and non-puncturable, for use on land. It also has a screw that is placed out behind when it is in the water. This is drawn up as soon as the car is brought on shore. The car proper is about eighteen feet long. It is supplied with gasoline engines of high power, and Razallier declares that he has made as high as twenty-four miles an hour. The photograph shows the canoe-car as it was entering the water.

STEEL PASSENGER CARS COMING SOON

Pennsylvania Will Put Them
Into Service on the Lines
East of Pittsburg.

WOODEN CARS ABANDONED.

LOCAL EMPLOYEES ARE INTER-
ESTED IN REPORT THAT THEY
ARE TO GET THEIR PAY IN
CHECKS.

Steel passenger cars being built at the Pennsylvania railroad shops will be completed in the near future, and placed in service on the main line of the road east of Pittsburg. The wooden passenger cars now in service will be transferred to the Panhandle divisions and it is very probable a number will be placed at the service of the Richmond division. Thirty-five steel passenger coaches are now in the course of construction at the Pittsburg shops and a number are about completed. While the company has been investigating for some time on steel passenger coaches and mail cars, the present number will be the first to be placed in service.

Pennsylvania passenger officials announce that no more wooden cars will be built for the Pennsylvania lines east of Pittsburg. For the first time in several years the Pennsylvania lines west will order no new coaches next year. It was the idea to use only steel equipment on the road between Pittsburg and Chicago, but owing to a disagreement on prices between steel car builders and the railroads only steel coaches will be used on the eastern divisions, coaches constructed by the Pennsylvania railroad.

INTERESTED IN RUMOR.

Pennsylvania employees in Richmond are interested in the rumor that the company is to pay in checks this month. Although, according to an official of the company, it is highly probable that if the money stringency continues the men will receive their monthly stipends in the form of checks instead of currency, as has been the custom in the past, the paper will answer the same purpose, as the banks will honor it without any delay. The method which probably will be followed by Paymaster Snee, is that the bulk of the money will be given each man in the form of notes payable on demand with a face value of \$20, and the amount less than \$20 will be given in

FEEL "STUPID"

Brain Troubled by Coffee.

People don't like to be considered stupid even if they feel that way, but many persons who persist in drinking coffee year after year have "swells" when they feel like this.
"I have been badly 'swelled' with stomach trouble caused by coffee for many years," writes a Ky. man, "and many times felt like a 'stupid' with a severe burning in my stomach after eating, and a great amount of sour belching."
"Four months ago I quit coffee and began to use Postum instead. I have had none of the old trouble since, have gained flesh and I don't think I have failed to eat a hearty meal since I quit coffee."
"I feel I can't praise Postum enough for the change it has made in me. I did not like it so well at first, didn't boil it enough, now we boil it according to directions on pkg., and I like it as well as coffee, which I shall never use again." Name given by Postum Cereal Co., Ltd., Battle Creek, Mich. Read the book "The Road to Wellville," in pkgs. "There's a Reason."

currency. There is no cause for uneasiness, it is freely asserted.

CHAS. ULLERY KILLED.

Word has been received by local Pennsylvania trainmen that Charles Ullery, a former brakeman of the Richmond division, was killed in Chicago the latter part of last week while at work in the B. & O. railroad yards in Chicago. Ullery was employed as a switchman and when he threw a switch he stepped back onto another track to allow a cut of cars to pass, and a switch engine struck him. Death was almost instantaneous. He was a favorite among local trainmen and had many friends in this city.

C. D. SUNDAY KILLED.

Cary D. Sunday, a freight engineer on the Grand Rapids and Indiana, was killed at Grand Rapids, Mich., Saturday, when he was caught between his engine cab and the door frame of the round house there. Sunday was well known in this city and has been running in here for almost a year. He was literally crushed to death. He was a favorite among local trainmen.

OLD ENGINES DISMANTLED.

Old C. I. & E. engines have been dismantled at the recent order of Richmond division officials and have been sent to the Hicks Locomotive works at Pittsburg for repair. The old locomotives were in very bad condition. The move is one of the many made in the past year to place the service on the old Harry Drew road in most excellent condition.

TWENTY NEW BUILDINGS.

Twenty new buildings for railroad men are contemplated by the Y. M. C. A. as a part of its work for next year. The annual report of the organization shows that there are now 231 railway associations in the country and the membership in them is growing at the rate of 10,000 a year. The fifteen buildings which were erected last year cost \$318,000. The value of the property is \$4,000,000.

HOW THE MOON LOOKS.

Queer Variance in Impressions as to the Same Object.

I asked my men to compare the size of the full moon to that of some object held in the hand at arm's length. I explained the question carefully and said that they were to describe an object just large enough when seen at arm's length to cover the whole moon. My list of answers begins as follows: Quarter of a dollar, fair sized cantaloupe; at the horizon, large dinner plate; overhead, dessert plate; my watch, six inches in diameter, silver dollar, hundred times as large as my watch, man's head, fifty cent piece, nine inches in diameter, grape fruit, carriage wheel, butter plate, orange, ten foot, two inches, one cent piece, schoolroom clock, a pea, soup plate, fountain pen, lemon pie, palm of the hand, three feet in diameter—enough to show again the overwhelming manifoldness of the impressions received.

To the surprise of my readers perhaps it may be added at once that the only man who was right was the one who compared it to a pea. It is most probable that the results would not have been different if I had asked the question on a moonlight night with the full moon overhead. The substitution of the memory image for the immediate perception can hardly have impaired the correctness of the judgments. If in any court the size of a distant object were to be given by witnesses, and one man declared it as large as a pea and the second as large as a lemon pie and the third ten feet in diameter it would hardly be fair to form an objective judgment till the psychologist had found out what kind of a mind was producing that estimate. — Professor Hugo Munsterberg in McClure's.

H. C. HASEMEIER CO.

BOYS OUTNUMBER GIRLS IN INDIANA

There Were 23,469 of the For-
mer and 21,013 of Latter
Born the Past Year.

FEW COLORED CHILDREN.

BIRTHS ARE IN EXCESS OF THE
DEATHS—MANY OF THE PAR-
ENTS WERE UNDER TWENTY
YEARS OF AGE.

The report of the Indiana State Board of health for the year 1906, just received from the hands of the state printer, shows that during that year 45,300 babies were born in this state. Of this number 23,469 were boys and 21,831 were girls. Of the males 23,013 were white and 456 were colored. Of the total females 21,418 were white and 413 colored. In the preceding year 44,114 births were reported: males, 22,281; females, 21,833. October had the largest number of births, 4,263, and June the smallest, 3,255. September had the greatest number of deaths, 3,146, and June the lowest, 2,429. The births (45,300) exceed the deaths (35,992). The birth rate was 14.1 and the death rate 13.5 per 1,000 population.

"Of the number of children born to each mother, 13,210 were first; 9,779, second; 7,059, third; 4,841, fourth; 3,333 fifth; 2,352, sixth; 1,627, seventh; 1,128, eighth; 685 ninth; 433 tenth; 254 eleventh; 304 were twelfth child and over, and 293 were not reported.

"As to the ages of parents, 648 fathers and 4,795 mothers were under 20 years of age. In the age period of 50 to 60 there 928 fathers and 23 mothers, age period 60 to 70 there were 111 fathers and between 70 and 80 there eleven fathers.

"The total number of marriages reported," says the report, "was 26,225. This is an increase over the preceding year of 615. October had the greatest number of marriages, 2,762 and May had the smallest number, 1675. "The total number of deaths reported in 1906 was 35,992, with a rate of

LINGERING COLD

Withstood Other Treatment But
Quickly Cured by Chamberlain's
Cough Remedy.

"Last winter I caught a very severe cold which lingered for weeks," says J. Urquhart, of Zephyr, Ontario. "My cough was very dry and harsh. The local dealer recommended Chamberlain's Cough Remedy and guaranteed it, so I gave it a trial. One small bottle of it cured me. I believe Chamberlain's Cough Remedy to be the best I have ever used." This remedy is for sale by A. G. Luken & Co.

Matrimonial.

Three Germans were sitting at luncheon recently and were overheard discussing the second marriage of a mutual friend when one of them remarked: "I'll tell you what. A man what marries a second time don't deserve to have lost his first wife."—Life.
