THE BRADLEY CASE.

Neither charitably inclined people nor cynically inclined people can afford time to waste sympathy on Mrs. Bradley, the woman who is being tried at Washington for the murder of former Senator Brown. The facts of the case brought out by the trial show that despite the tears and penitent attitude of the defendant, she was nothing more or less than a "kept woman" who, in acknowledging her great love for the senator, shows that that love was nothing but an unholy love or rather lust; that she betrayed the love and faith of her husband and children and broke up the family of Senator Brown. Her claim that she sought to persuade the senator to break off their relations time and again and return to his family sounds absurd in the face of the fact that she lived with him on terms of the utmost intimacy for a period of ten years, during which time both she and the senator were arrested twice and tried for their unholy way of living. Her last act as a free woman, the murder of her paramour, has been the act of too many fallen women before her and she should pay the penalty exacted by the law of the land for committing murder.

HOSPITAL DAY RETURNS.

Hospital day as a revenue producer for the hospital has proved to be a great success. From what we understand over \$500 was collected from voluntary offerings at the thirty-eight stands over the city. The markets in the past have never yielded more than \$75 and the difference between the two methods is so great as likewise are the monetary returns that it is safe to say Hospital day will hereafter be an annual affair in Richmond. The success of the undertaking rests with those unselfish workers who gave their time and thought to it and to the charitably inclined who contributed towards the good work. Yesterday's results show that Richmond can congratulate itself upon having a plentiful supply of both kinds of such citizens.

JOHN S. DUNCAN IS CHOSEN TO ASSIST

Will Aid Prosecution in The Asphalt Case.

MAY GET NEW INDICTMENT.

Judge James A. Pritchard, of the Criminal court at Indianapolis has announced that he would appoint John S. Duncan to assist the state in the prosecution of the asphalt fraud cases now pending in the criminal court. Mr. Duncan is one of the best known criminal lawyers in the state, and is quite well known in Richmond, where Mrs. Duncan formerly lived.

The judge's determination to appoint Mr. Duncan, reached after several conferences with Elliott R. Hooton, prosecuting attorney, and the arrangement was agreeable to the prosecutor.

The first duty the special counsel will have in the case will be to examine carefully the indictments which have been prepared against Harry P. Brunaugh and the men who were charged with conspiring with him to defraud the city. He will co-operate with the state in making up the issues in the case, and if he and the prosecutor find within the next few weeks that the indictments could be made stronger, new ones will be prepared and voted by the grand jury.

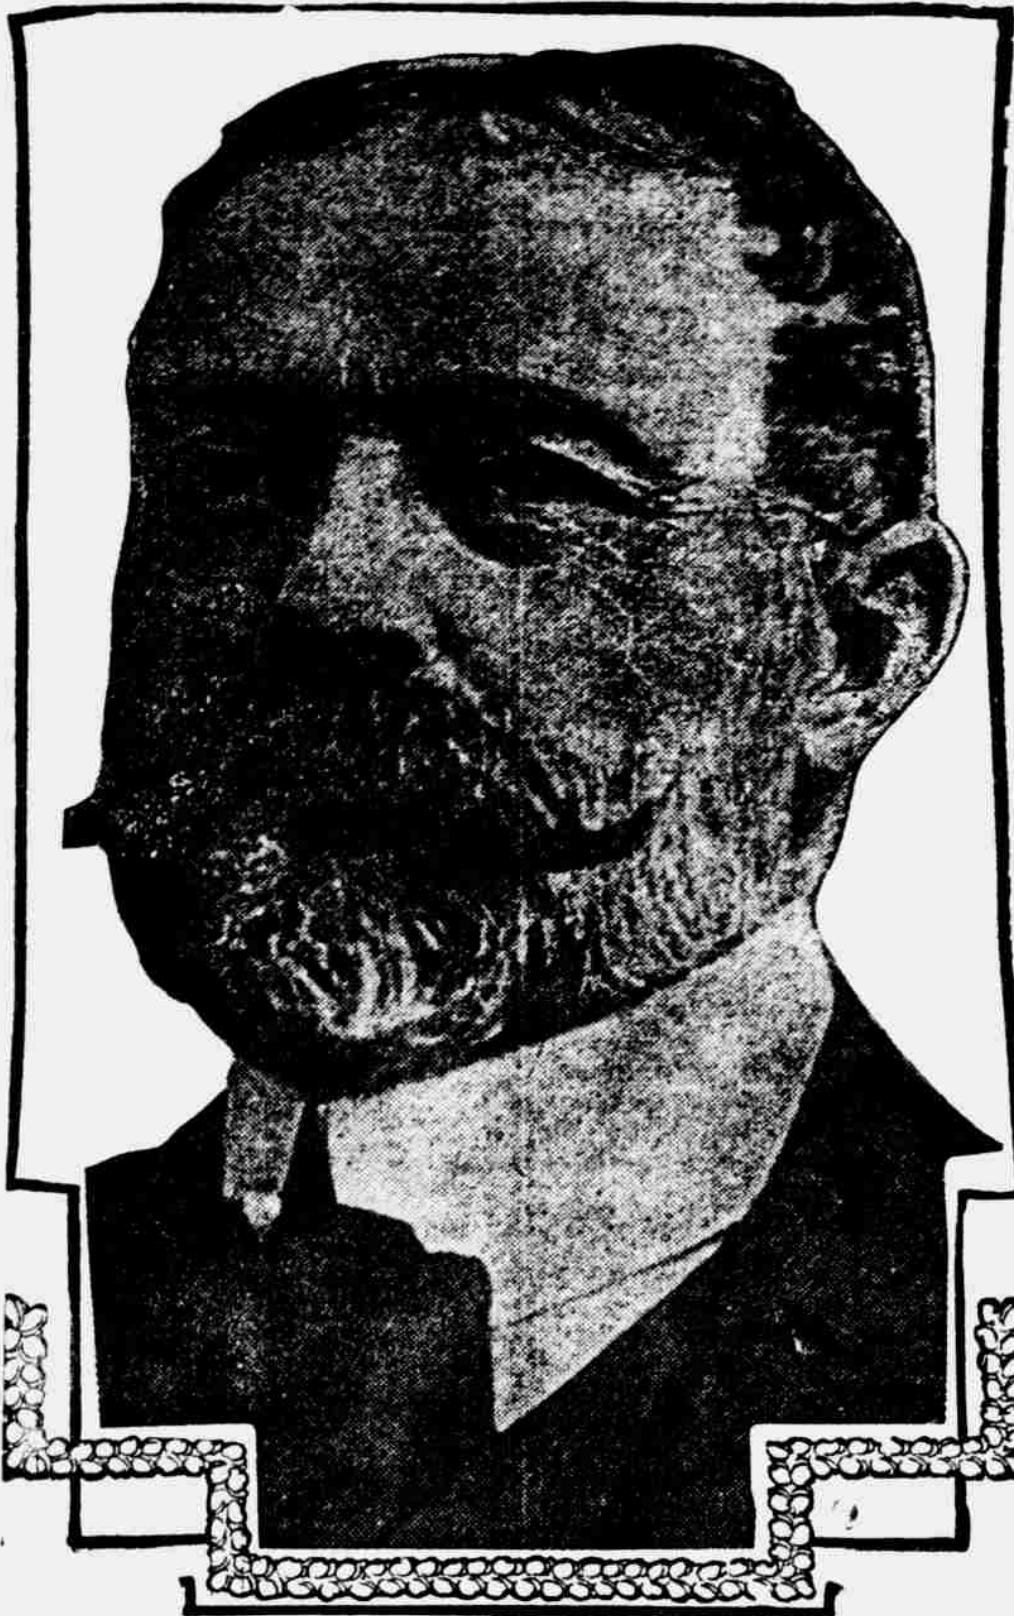

MASONIC CALENDAR.

Week commencing Nov. 18.

Saturday—Loyal Chapter No. 49, O. E. S. Special meeting to receive visitation from Grand Matron, Nellie L. Goodbar and exemplification of the work.

A comparison has recently been made of the power of the lights in French light houses in various periods in the last thirty-five years. In 1874, when only oil lights were used, the highest power was equal to 54,000 candles. In 1882 when the electric light was introduced the power rose to a maximum of 820,000 candles. Since then frequent improvements have been made in the electric lights until at present, the most powerful light houses project an illumination nearly equal to 3,000,000 candles.

PHOTOGRAPHIC STUDY OF CHARLES TRACY BARNEY.

A photographic study of the late Charles Tracy Barney, who started the community by committing suicide. Mr. Barney was one of the best known bankers and real estate men in the city, and was at the head of the Knickerbocker Trust company, up to the time it went into the hands of the receiver.

TAGGART INNOCENT DECLARES MR. KERN

He Will Not Be Responsible for A Boom for Judge Grey Or Anyone Else.

HE IS REALLY FOR BRYAN.

HE HAS NO THOUGHT OF SUPPORTING ANY OTHER CANDIDATE—REPORT CIRCULATED BY OPPONENTS OF TAGGART.

Indianapolis, Ind., Nov. 22.—If a boom is launched at the French Lick meeting of the democratic national committee today for Judge Grey of Delaware, or for anyone else besides William Jennings Bryan, National Chairman Taggart will have had nothing to do with it. John W. Kern of Indianapolis, leading Bryan man in Indiana, who is Taggart's attorney and confidential friend, declares that there is absolutely no ground for a statement that Taggart is not in sympathy with the Bryan boom. "I know for a certainty, that Taggart, way down in his heart, has been for Bryan for the last year," said Mr. Kern. "He has no thought of supporting anyone else for president, and all statements, to the contrary are an injustice to him and untrue." The impression is gaining ground very rapidly in Indiana that Taggart's opponents are purposely circulating the report that an anti-Bryan movement is to be started at French Lick and that the national chairman is secretly a partner in it.

The Princess of Wales has sent to the Church army of England an order for a large number of shirts, to be made by the wives of prisoners who are under the care of the society.

MORE THAN EVER

Increased Capacity for Mental Labor Since Leaving Off Coffee.

Many former coffee drinkers who have mental power to perform, day after day, have found a better capacity and greater endurance by using Postum Food Coffee, instead of ordinary coffee. An Illinois woman writes:

"I had drank coffee for about twenty years, and finally had what the doctor called 'coffee heart.' I was nervous and extremely despondent; had little mental or physical strength left, had kidney trouble and constipation.

"The first noticeable benefit derived from the change from coffee to Postum was the natural action of the kidneys and bowels. In two weeks my heart action was greatly improved and my nerves steady.

"Then I became less despondent, and the desire to be active again, showed the proof of renewed physical and mental strength.

"I am steadily gaining in physical strength and brain power. I formerly did mental work and had to give it up on account of coffee, but since using Postum I am doing hard mental labor with less fatigue than ever before."

Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pkgs. "There's a Reason."

Terrible Liquor Craving

How Orrine Destroys all Desire for Whiskey and Beer.

The terrible craving for liquor is a symptom of disease and to overcome it, the disease itself should be treated in a scientific way. When one has used whiskey, beer or other stimulants for a long time, the nerve cells have become accustomed to the effects of the stimulants and demand liquor in order to perform their duties. If the nerve cells are properly treated, the craving for liquor will be destroyed.

It is in this way that Orrine cures alcoholism, by supplying to the nerve cells the strength needed, thus destroying the desire for liquor. It eradicates every particle of the terrible liquor craving, imparts new strength and vigor to the whole system, and restores the general health. Treatise on "Drunkennes," free on request. The Orrine Co., Washington, D. C.

So successful has Orrine been that in every box is a registered guarantee which entitles you to a refund of your money if Orrine fails to effect a cure. Never before was a treatment for the liquor habit sold in this way. A guarantee like this shows the faith of the discoverer of Orrine and the agents who handle it, the leading druggists everywhere.

Orrine is in two forms, No. 1 which can be given secretly in food or drink; No. 2 in pill form for those who desire to be cured. Either form costs \$1 per box, and both are sold under the liberal guarantee that your money will be refunded if Orrine fails to cure.

Orrine is for sale by A. G. Luken & Co., Richmond, Ind.

PREDICTS GOOD YIELD OF FRUIT THIS YEAR

State Entomologist Douglass Is Very Hopeful.

DEPENDS ON THE WEATHER

B. W. Douglass, state entomologist, says the indications are for an unusually good yield of fruit of all kinds in Indiana next year. Only weather conditions, he says, will prevent a good fruit yield. An early freeze or warm weather next spring followed by a freeze might play havoc with the fruit, but unless there are some such weather conditions the yield will likely be above the average. This year the fruit yield was a failure. The failure was due to different conditions in different parts of the State. In the northern part of the State an early freeze last fall caused the failure. In the southern part of the State warm weather in the spring followed by a freeze, caused the failure.

ONLY ONE "BROMO QUININE"

That is LAXATIVE BROMO QUININE. Look for the signature of E. W. GROVE. Used the World over to Cure a cold in One Day. 25c.

The export of Chinese crackers from Canton was 45,197 hundredweight last year as compared with 45,104 hundredweight, the average for the previous five years.

SMALLER BOX CARS OFF THE MAIN LINE

The Pennsylvania Road Has Issued an Order to This Effect.

DONE TO PREVENT WRECKS

OLD CARS ARE BEING REPAIRED INSTEAD OF BURNED—WANT SMALLER CERTIFICATES IN PAY—OTHER RAILROAD NEWS.

Following the precedent of past years, the Pennsylvania has given instructions to keep the smaller box cars off the main lines of the system, placing them in service on the branch roads. To the ordinary mind, there seems to be no good reason why this policy should be carried out, but railroad officials assert that the reason the ruling was made is a good one. Small cars are harder to handle properly on the main lines in conjunction with the larger ones, and frequently they are the cause of accidents which blockade traffic for several hours, a condition which all officials are fighting against at the present time for the reason of the very heavy travel. One hour's loss of time means much to the railroads, who have at present an immense amount of freight to handle. And again, officials are expecting much more traffic as soon as the present financial crisis passes. To handle this immense amount of freight, every precautionary measure known in the railroad vocabulary will have to be brought into play. The slightest hitch may mean a freight congestion.

By placing the smaller cars on the branch lines of the system, the road does not handicap shippers, as they do not generally require the largest cars now in use. In connection with the freight car proposition, the Pennsylvania has issued an order to burn all smaller freight cars which are worn out. It is estimated in Richmond that last year the big corporation burned at least 10,000 cars. This year, however, but few cars have been destroyed. Wherever it is possible to repair them the road is doing so.

SECOND EYE TEST.

The second eyesight test for the Grand Rapids and Indiana road will be conducted the latter part of this month. Employees, particularly trainmen and engineers, will receive the test. The first test given some time ago proved unsatisfactory owing to the fact that traffic was so heavy the men were kept constantly busy handling it, that they had no time to submit to a test.

WANT SMALLER CERTIFICATES.

If the Pennsylvania pays Richmond employees by the cash and check system again, the merchants of Richmond would like the big corporation to issue the clearing house certificates in smaller denomination, a local retailer has said. He also made the assertion, that he would a few weeks prior to the next Pennsylvania pay, attempt to ascertain the method to be used and would ask merchants to appeal to the big road's higher officers, to issue the checks in smaller denominations. He said that \$20 certificates, such as were issued this month work too great a hardship upon the merchant who cashes them in favor of bills owed by railroads. Too much change has to be given. The issuance of \$10 certificates would entirely alleviate evil conditions as were experienced by merchants this month.

REPORT IS DENIED.

Samuel F. Vauclain, general superintendent of the Baldwin Locomotive Works, absolutely denied a report that owing to a cancellation by the Pennsylvania of an order for 426 locomotives the company would reduce its working force one-third. "We have never had an order of such size from the Pennsylvania Railroad and will not reduce our working force this year," he said. At the general offices of the Pennsylvania it was denied that there was any order for 426 locomotives placed within recent years. It was stated, moreover, that if any order of any size had been placed, it would not be revoked.

FEELING OF OPTIMISM.

With the possible exception of grain transportation companies are moving freight at a normal rate and even grain is beginning to employ their few cars which were temporarily idle.

The sluggishness of grain is, in many cases, not due to a congestion in elevators, but to the fact that the thrifty and plowshare farmer is holding the product in his bins awaiting an upward movement of the market, a thing he is amply able to do since he does not need the money and can therefore afford to speculate a little.

Traveling freight agents are a unit in the general feeling of optimism.

Start winter in a healthy condition, be free from disease. Hollister's Rocky Mountain Tea, the most reliable preventative. Nothing so sure to keep you well. 35 cents, Tea or Tablets. A. G. Luken & Co.

Rabbits, says a naturalist have white tails, so that the young may be able to distinguish their mother in case of pursuit. The color of a rabbit is so like that of the ground that this would otherwise be difficult, if not impossible.
