The museum of the department of comparative anatomy at Brown University has received from the Rev. Edgar F. Clark, of North Providence, a very curious fossil, an insect's wing. The fossil is special interest in that it is a type specimen, the first and so far as can be learned, the only one that has ever been found. It was named by Professor Samuel H. Scudder, of Cambridge, "Mylacris Packardii" after Professor Packard, formerly of the Brown faculty.

INTERSTATE LEAGUE INCLUDES RICHMOND

Interscholastic Sports Are to Be Promoted, According To Cincinnati Report.

ALL KINDS OF ATHLETICS.

HAMILTON MAN TAKES LEAD IN THE MOVEMENT AND CLARENCE LAVERY OF CINCINNATI IS WORKING WITH HIM.

A plan, which, if completed, will prove more beneficial to interscholastic athletics in Ohio and Indiana than anything yet projected, has just been formulated by two prominent promoters of clean athletics, says the Times-Star. In detail the plans are for an interstate interscholastic athletic league, composed of high school teams in Hamilton, Springfield, Dayton, Piqua, and Cincinnati, O., and Richmond and Lawrenceburg, Indiana. Mr. L. H. Batterby, physical director of the Hamilton (Ohio) Y. M. C. A., originated the idea, and will enlist the up-State and Richmond teams. Mr. Clarence Lavery of Spalding's is his chief lieutenant. Lavery will name two teams from Cincinnati and one from Lawrenceburg. League athletics are to include base ball, football, basket ball and track athletics. Eight teams are to compose the league, each team to play seven league games each year. One year they will play four games at home and three abroad and the next year vice versa. A big athletic meet will be held in one of the cities every year. This will be a good chance for Cincinnatians to see their teams arrayed against those of the other cities. Steps for the formation of the league are to be taken immediately, through circular letters to the principals of the various high schools. The teams will then be selected from the applicants. An agreement extending for two years or more have to be arranged. The league promoters and others to whom they have spoken are enthusiastic regarding the plan, and it is expected that the famous Ohio Bix Six College league will be equalled, if not surpassed.

SIX-CLUB O. AND P. CIRCUIT

Akron, O., Dec. 6.—That the Ohio and Pennsylvania baseball league and possibly others, will be restricted before the winter is more than a month advanced, was indicated when President Chas. Morton, of the O. and P., announced that the members of the national board of arbitration would meet the O. and P. directors at Cleveland January 7. The proposition which now seems the most probable to be submit-

ted for ratification is that of a six-club O. and P. circuit, including Akron, Canton, Youngstown, Sharon, Newcastle and Erie.

This would leave a hole in the Central league by Canton's withdrawal. Zanesville, of the P. O. M., is anxious to fill that hole.

Smelling salts are equivalent to a practical joke in the estimation of the natives of New Guinea. A traveler tells how he once offered a native a whiff of the salts. After going through extraordinary contortions the native went away returning soon with another native, whom he compelled to make acquaintance with the salts. The two brought a third, and so on until the whole village had been victimized. The savages watched each new sufferer with the keenest delight, and took good care to not let him know what fate awaited him.

CRIPPLED WOMAN SLAIN IN BARN

Murderer Supposed to Be a Tramp She Ordered Off The Premises.

SHE STRUGGLED VALIANTLY

EFFORTS TO BLOCK MURDERER'S KNIFE WERE UNAVAILING—FOUND BY AGED HUSBAND IN POOL OF BLOOD.

Newton, N. J., Dec. 6.—Samuel Cassidy and his wife Phoebe lived alone in a small house in the woods in Hampton township. Cassidy at seventy had grown so feeble and infirm that he could scarcely walk without assistance and his wife, though she was partially paralyzed on one side, did the chores.

She went last night to the cow stables to let down the feed and when she did not return the old man crept painfully after her. He found her dead on the barn floor. She had been murdered. Her body was knifed in a dozen places. Cripple that she was, she had struggled fiercely with her assailant. From the torn flesh on the palm of the left hand, apparently she had seized the knife again and again, only to have it wrested from her and its sharp edge cut her to the bone. Her neck was slashed.

The occurrence of yesterday recalls the death of Floyd J. Cassidy, a son of the couple, whose body was found May 25, 1905, in the ruins of a burned barn in the same locality.

French archaeology has suffered a serious loss in a quarter where the tourists of the world will feel it most. In the Commune of St. Sever in the Pau region, stood the ancient chateau of the Dumes, rich in historical association, and an admirable type of a style of architecture now almost forgotten. This most interesting building has been totally destroyed by fire.
