

## VERY LITTLE GAIN IN MEMBERSHIP OF FRIENDS' CHURCH

Net Increase in the Orthodox Branch for the Year 1907 Was But 310, According to The American Friend.

### COMPARISON OF BIRTHS AND DEATHS NOT GOOD.

City of Richmond and Indiana Are Shown to Be the Center Of Orthodox Quakerism of The Entire World.

There is not a great deal to encourage the members of the orthodox branch of the Friends' church in the statistics dealing with the membership for the year 1907. It is shown by figures compiled by the American Friend, official organ of the church, that a gain of 1,013 was made in membership, but in reality the net gain is only 310. One point of special interest locally is that the Indiana Yearly Meeting, which holds its sessions in Richmond, is shown to be the largest in America and hence the largest in the world, the London and Dublin meetings not compare with it. Western yearly meeting, which holds its sessions in plainfield, is second in size and combined membership of the two more than one-third of the entire membership of the society, showing Indiana to be the center of the world's orthodox Quakerism.

### Includes the Mission.

In speaking of the statistics, the American Friend says:

"We have again tabulated the statistics from the several larger orthodox yearly meetings in America, taking the figures from their printed proceedings, together with a few additions from the statistical report of the American Friend's board of foreign missions. From these totals we record an apparent gain of 1,013, making a grand total of 98,932. These figures include the totals for the meetings in the United States and Canada, also members of several mission meetings, which are officially recognized as organic parts of the several yearly meetings. The number in 'mission meetings' is 3,440. When we subtract the 'mission members' from the grand total, we have 95,492 as the total membership for the United States and Canada.

### Net Gain Is 310.

"While the apparent gain for the year is 1,013 the net gain is only 310. This discrepancy would lead us to disbelieve concerning even the approximate accuracy of our figures if it were not for the fact that the heavy addition occurs in Western yearly meeting, where the new statistical secretary discovered that one entire quarterly meeting had not been reported for four years. This accounts for the large apparent gain, but it also confirms the fact that our actual gain has been only a few hundred, probably not far from our net figures, 310, or less than one-third of one per cent for the year. Last year our apparent gain was 1,694, 681 more than it is this year, while our net gain was 1,629, over five times what it is this year. This is true in spite of the fact that we have gained by births and from outside sources nearly 7,000 members, or about eight per cent. This alone is not a bad showing, but when we turn to our losses we find them nearly as great as our gain. Apparently we have not learned how to take care of what we get.

### Deaths Exceed Births.

"A comparison of the births and deaths shows a balance on the wrong side of the account, there having been 87 more deaths than births during the year. The older communities, as a rule, lead with a large mortality ratio, while the pioneer meetings show an excess of births. There is one notable exception this year. North Carolina has the highest birth rate compared with the number of deaths of any of the yearly meetings. When we eliminate births from the items of net increase, we find that California, Kansas, New York, North Carolina and Oregon have received enough recruits from the outside to more than offset their losses, while Western Yearly Meeting is transferred from the gain to the loss column. On the other hand, without deaths, every yearly meeting would have shown a net gain, except Ohio and Wilmington.

### Figures on Membership.

The figures on membership are as follows:

Yearly Meetings	1896	1907
Baltimore	1,290	1,182
California (including 100 in Alaska)	3,447	3,714
Canada*	1,296	1,095

## WOMEN WANT UNDERSTANDING BETWEEN HOME AND SCHOOL

To work out that clear understanding between the home and the school which has so long been the dream of our educators is the problem which the Mothers' League of the White-water district has undertaken. Friday, the club held an enthusiastic meeting in the White-water school building and some excellent papers were presented. Mrs. Walter T. Utter presented an article embodying some original and interesting observations on "Child Life." Mrs. Elmer Gorman read an interesting article on "The Relations of

the Mother to the School." Following her reading, the subject was opened for general discussion and some widely differing opinions were given in an airing in the meeting.

The program was interspersed with several musical selections aided rendered by Miss Huldah Kenley, Miss Edna Mariatt, and Mrs. Harry Stillinger.

So great has been the interest manifested in the gatherings of the club that it has been decided to make the first Friday of each month a permanent day for meetings.
